

AIBOINU (AIBO)

BEP-20 Audit

Performed at block **8790996**

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0x95Cf085B4a81C823c2EC739D38B806BccDC3d5B8

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.aiboinu.io

Above images are actual snapshots of the current live website of the project.

Website was registered on 06/15/2021, registration expires 06/15/2024, previously 06/15/2022.

✓ This meets the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Responsive
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

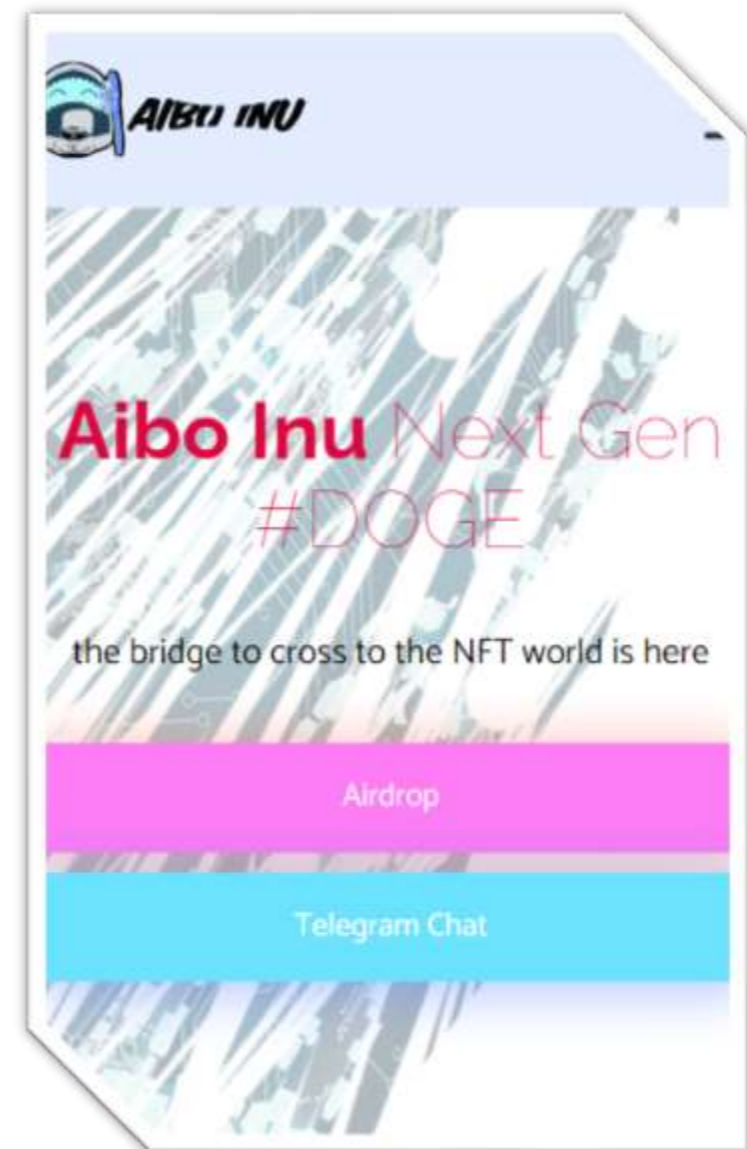

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the responsive check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: aiboinu.io

Issued by: Sectigo RSA

Valid Until: 06/15/2022

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

BEP-20 Contract Audit – Common Vulnerabilities

```
/**
 *Submitted for verification at BscScan.com on 2021-06-24
 */
/**
 * Website: https://alboinu.io
 * Twitter: https://twitter.com/alboinutoken
 * Telegram Group: https://t.me/alboinu
 * Albo Inu Token, NFT collection and DeFi Gaming
 */
pragma solidity ^0.6.12;
// SPDX-License-Identifier: Unlicensed
interface IERC20 {

    function totalSupply() external view returns (uint256);

    /**
     * @dev Returns the amount of tokens owned by 'account'.
     */
    function balanceOf(address account) external view returns (uint256);

    /**
     * @dev Moves 'amount' tokens from the caller's account to 'recipient'.
     * Returns a boolean value indicating whether the operation succeeded.
     * Emits a [Transfer] event.
     */
    function transfer(address recipient, uint256 amount) external returns (bool);

    /**
     * @dev Returns the remaining number of tokens that 'spender' will be
     * allowed to spend on behalf of 'owner' through (transferFrom). This is
     * zero by default.
     * This value changes when (approve) or (transferFrom) are called.
     */
    function allowance(address owner, address spender) external view returns (uint256);

    /**
     * @dev Sets 'amount' as the allowance of 'spender' over the caller's tokens.
     * Returns a boolean value indicating whether the operation succeeded.
     * IMPORTANT: Beware that changing an allowance with this method brings the risk
     * that someone may use both the old and the new allowance by unfortunate
     * transaction ordering. One possible solution to mitigate this race

```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Callstack Depth Attack
- ✓ Timestamp Dependency
- ✓ Parity Multisig Bug
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate three Social Media Networks for the project. The Social Media Networks were Twitter, Telegram, and Instagram. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Instagram](#)

✓ **At least 3 social media networks were found.**

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down two social media channels for the project. Social Media channels included Twitter and Telegram. As this is a newer project we expect this to change in the coming weeks. We would like to see at least one more social media network added. Both social media channels had a healthy amount of activity. ✓ *Resolved*

It is important to note that there is an 10% tax on EVERY transaction including buys and sells. 5% goes to providing liquidity, and 5% is distributed to the token holders.

6 percent of the total supply is locked in a charity wallet and 6 additional percent of the total supply is locked in a marketing wallet. We were able to locate the two wallets [here](#) and [here](#). The team has stated that they plan to lock these for 6 months right before the presale.

As this is a project with a charity aspect, we would like to see a letter from a charity providing proof of origination of donations or a social media post made referencing the project as an added layer of transparency to let users know that their money is going where it should. At this time we have no reason to suspect any misuse of funds, this is simply suggested best practices for cryptocurrencies with charity aspects.

Suggestions for Improvement

1. Create additional social media network ✓ *Resolved*
2. Update domain registration to 3+ years ✓ *Resolved*

Top Token Holders

The majority of the supply was in one wallet at the time of audit (aside from the marketing and charity wallets which the team has mentioned they plan to lock on Unicrypt for 6 months). The wallet with 38% is intended for presale. We expect these holders to change as any presales, private sales, or airdrops occur.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

- ✓ The project has successfully been DessertDoxxed, we have validated the identity of the CEO.

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Potential Signs of Risk

1 YEAR DOMAIN REGISTRATION

✓ *Resolved*

NO CONTACT EMAIL ON WEBSITE

✓ *Resolved*

LIMITED SOCIAL MEDIA NETWORKS (2)

✓ *Resolved*

The above listed are the top 3 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

TEAM HAS BEEN VERY RESPONSIVE IN ADDRESSING QUESTIONS

2

TRANSPARENT FEE STRUCTURE

3

MULTIPLE AUDITS PLANNED

4

TRANSPARENT MARKETING AND CHARITY ALLOCATION

5

SSL CERTIFICATE WAS FOUND AND VALID

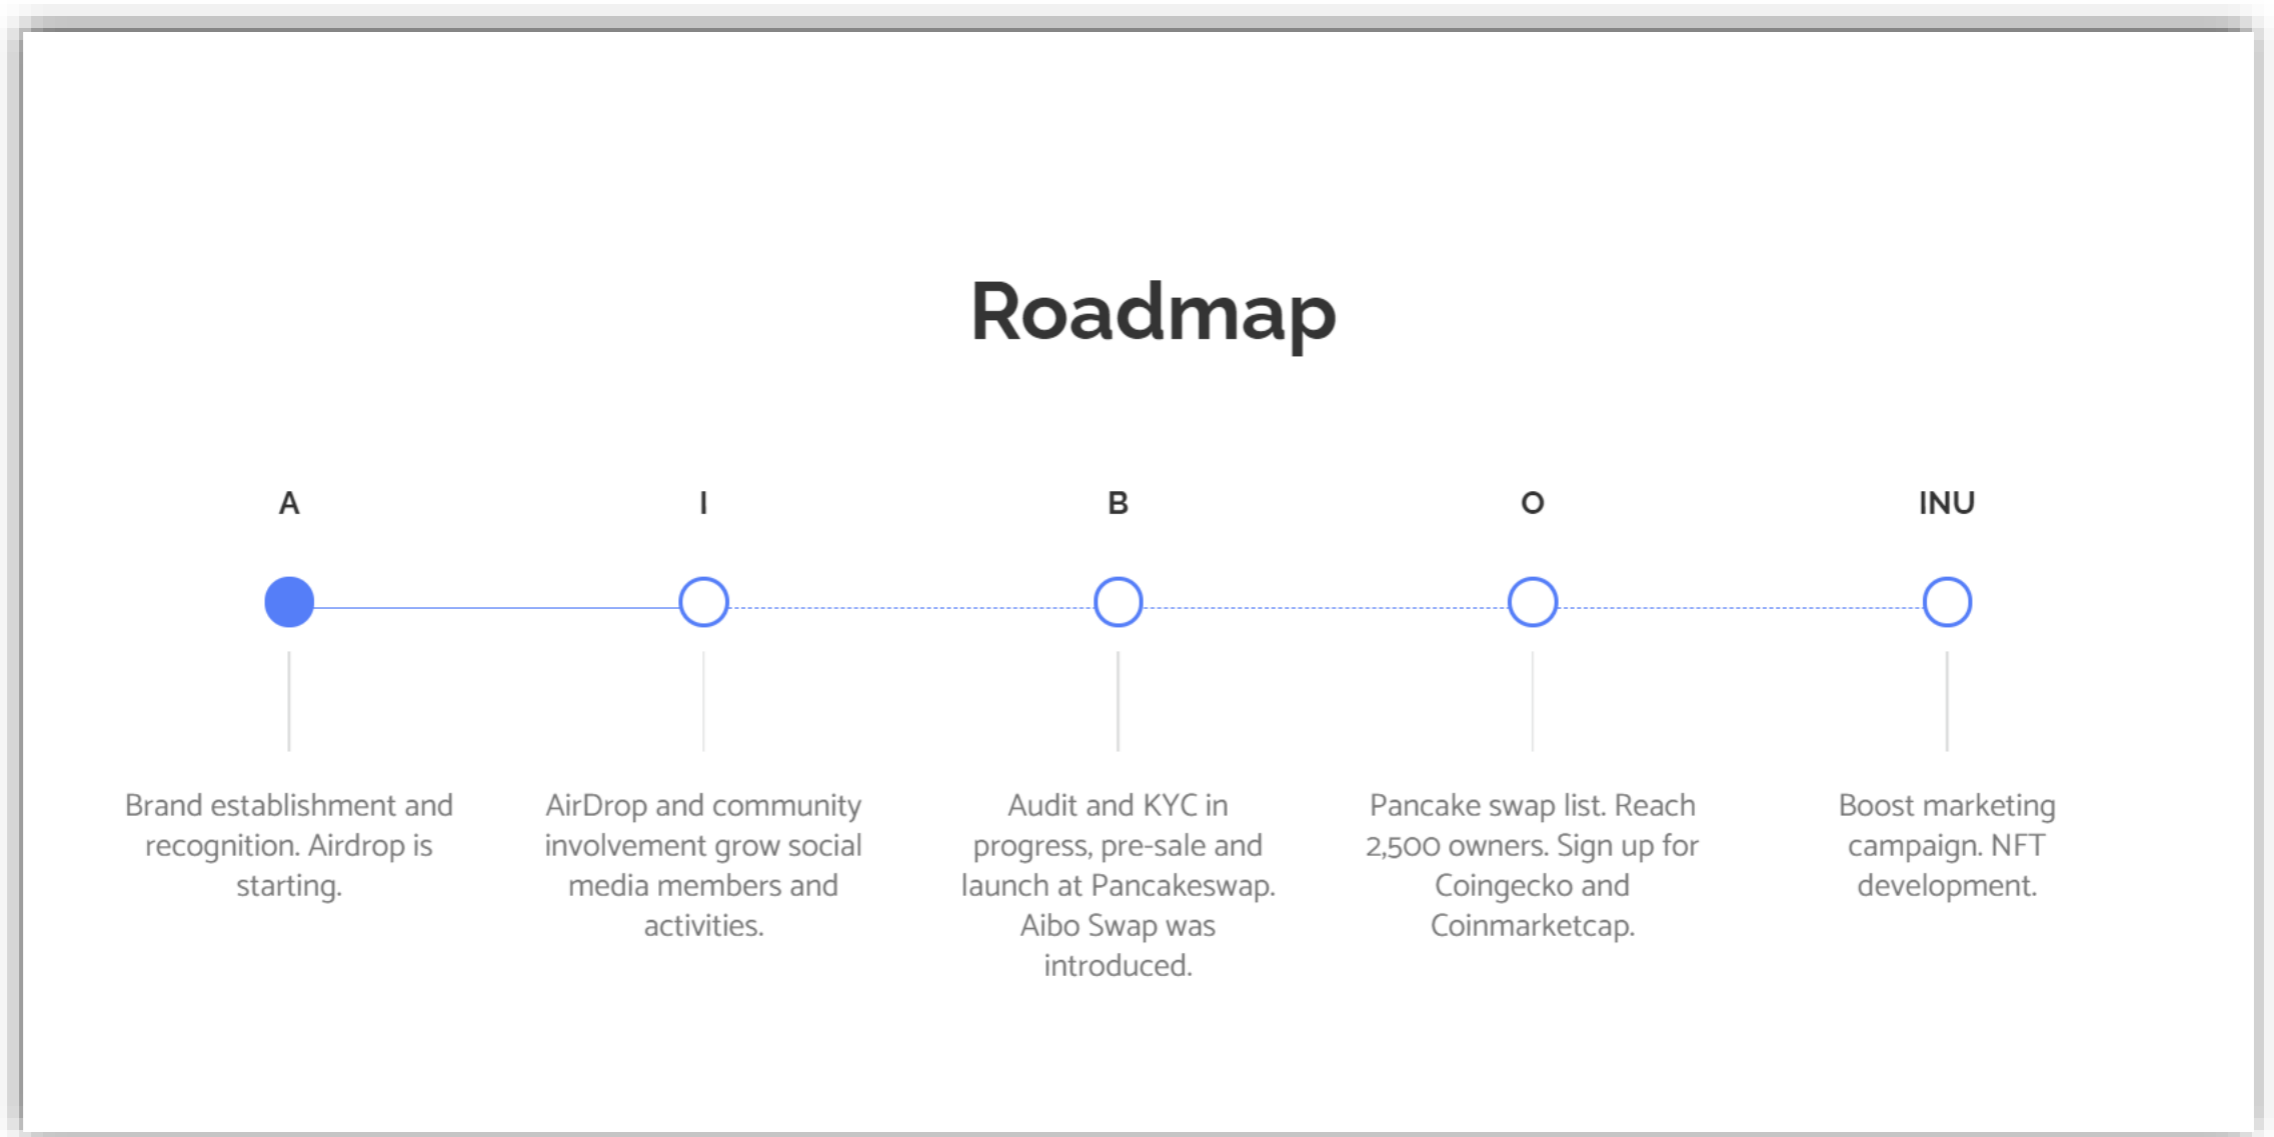

6

ACTIVE SOCIAL MEDIA PRESENCE

The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR AIBOINU (AIBO). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **8790996**
