FINANCE

**AURiCoin (RIC)**

**ERC-20 Audit**

Performed at block **15585850**

PERFORMED BY DESSERT FINANCE  
FOR CONTRACT ADDRESS: **0x08e0fAff8bB80eaf8c30A99920355028b5bD6789**

## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

# Contract Code Audit – Token Overview

# ERC-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on AURlcoin

```
Submitted for verification at Etherscan.io on 2018-08-28
//
pragma solidity ^0.4.18;

interface tokenRecipient {
    function receiveApproval(address _from, uint256 _value, address _token, bytes _extraData) external;
}

//contrato para definir quien es el administrador central del token
contract owned {
    address public owner;

    constructor() public {
        owner = msg.sender;
    }

    modifier onlyOwner {
        require(msg.sender == owner);
        _;
    }

    function transferOwnership(address newOwner) onlyOwner public {
        owner = newOwner;
    }
}

contract TokenPrueba1 is owned {
    //variables publicas del token
    string public name;

    string public symbol;

    //18 decimales es el parametro por defecto, evitar cambiarlo
    uint8 public decimals = 18;

    //cantidad total de la moneda
    uint256 public totalSupply;

    //Crea un arreglo para llevar los balances de las cuentas
    mapping (address => uint256) public balanceOf;

    //Arreglo que guarda la "tolerancia" de las cuentas con otras, cuanto pueden "tomar" estas
    mapping (address => mapping (address => uint256)) public allowance;

    //cuentas congeladas
    mapping (address => bool) public frozenAccount;

    // Crea un evento en la blockchain que notifica a los clientes de la transferencia
    event Transfer(address indexed from, address indexed to, uint256 value);

    // Crea un evento en la blockchain que notifica a los clientes de la aprobación
    event Approval(address indexed _owner, address indexed _spender, uint256 _value);

    // Notifica a los clientes de la cantidad quemada
    event Burn(uint256 value);
}
```

## Contract Address

0x08e0fAff8bB80eaf8c30A99920355028b5bD6789

## TokenTracker

AURlcoin (RIC)

## Contract Creator

0x9B2122DFD3Ec7bFa64f5D545A1E3923576Ac75e9

## Source Code

Contract Source Code Verified

## Contract Name

TokenPrueba1

## Other Settings

default evmVersion

## Compiler Version

v0.4.25+commit.59dbf8f1

## Optimization Enabled

Yes with 200 runs

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on Etherscan.

# ERC-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version (0.4.25)	Complete	Complete	Medium Risk
Integer Overflow	Complete	Complete	Medium Risk
Integer Underflow	Complete	Complete	Medium Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is **verified** on Etherscan.

The vulnerabilities listed above were not found in the token's Smart Contract.

# Contract Code Audit – Contract Ownership

Contract Ownership has not been renounced at the time of Audit

The contract ownership is not currently renounced.

We have placed the contract owner address below for your viewing:

[0x01ec3648c1009693c6063689e7079de01d68f95b](https://www.etherscan.io/address/0x01ec3648c1009693c6063689e7079de01d68f95b)

The address above has authority over the ownable functions within the contract.

This allows the owner to call certain functions within the contract. Any compromise to the owner wallet may allow these privileges to be exploited.

We recommend:

- Establishing a Time-Lock with reasonable latency
- Assignment of privileged roles to multi-signature wallets

# Liquidity Ownership – Locked / Unlocked

No locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information. Locked liquidity information was not found on the project's website.

# Contract Code Audit – Mint Functions

This Contract Can Mint New RIC Tokens.

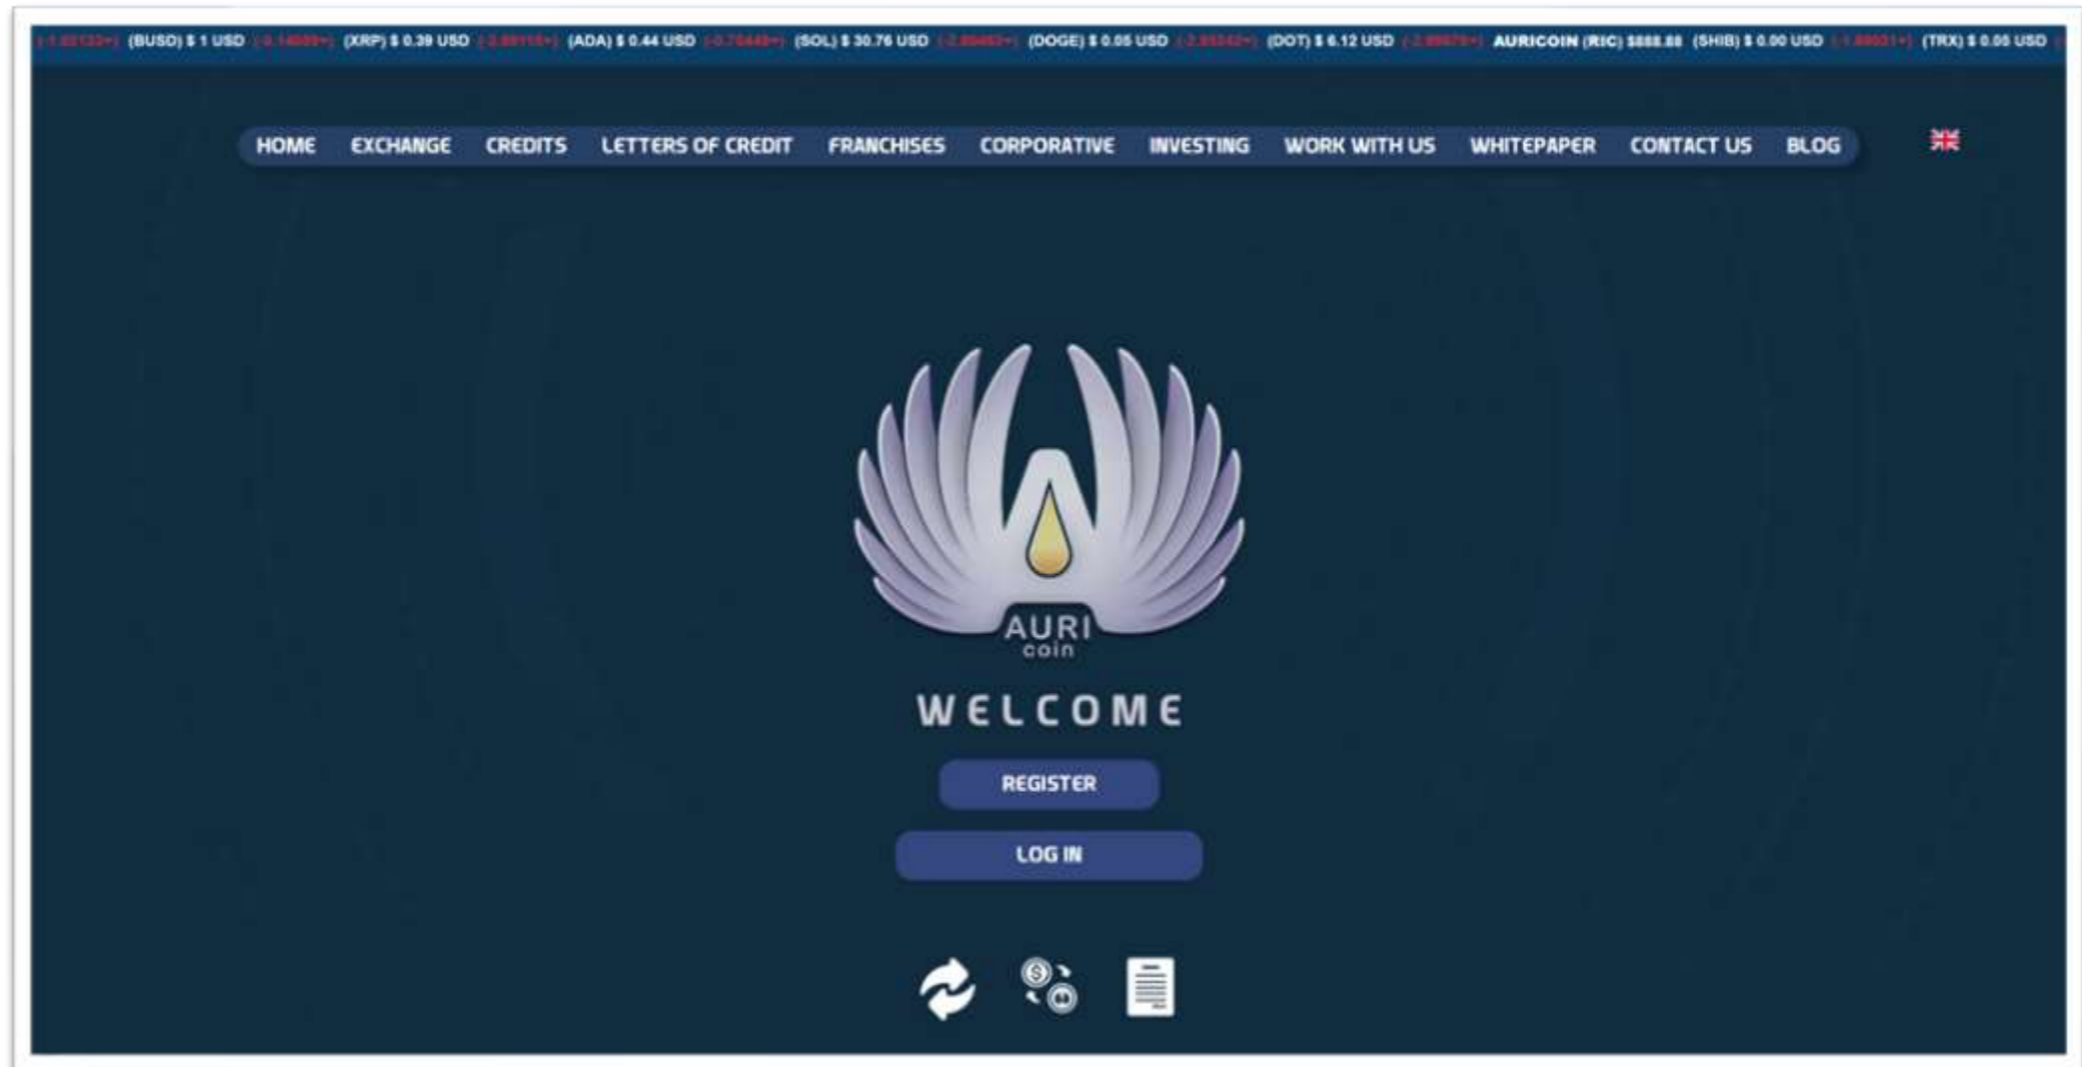

We do understand that sometimes mint functions are essential to the functionality of the project.

**A mint function was found in the contract code. Owner can mint tokens.**

# Website Part 1 – Overview

## [www.aurico.in.org](http://www.aurico.in.org)

Above images are actual snapshots of the current live website of the project.

Website was registered on 10/26/2018, registration expires 10/26/2022.

✓ This meets the 3 year minimum we like to see on new projects.

## Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

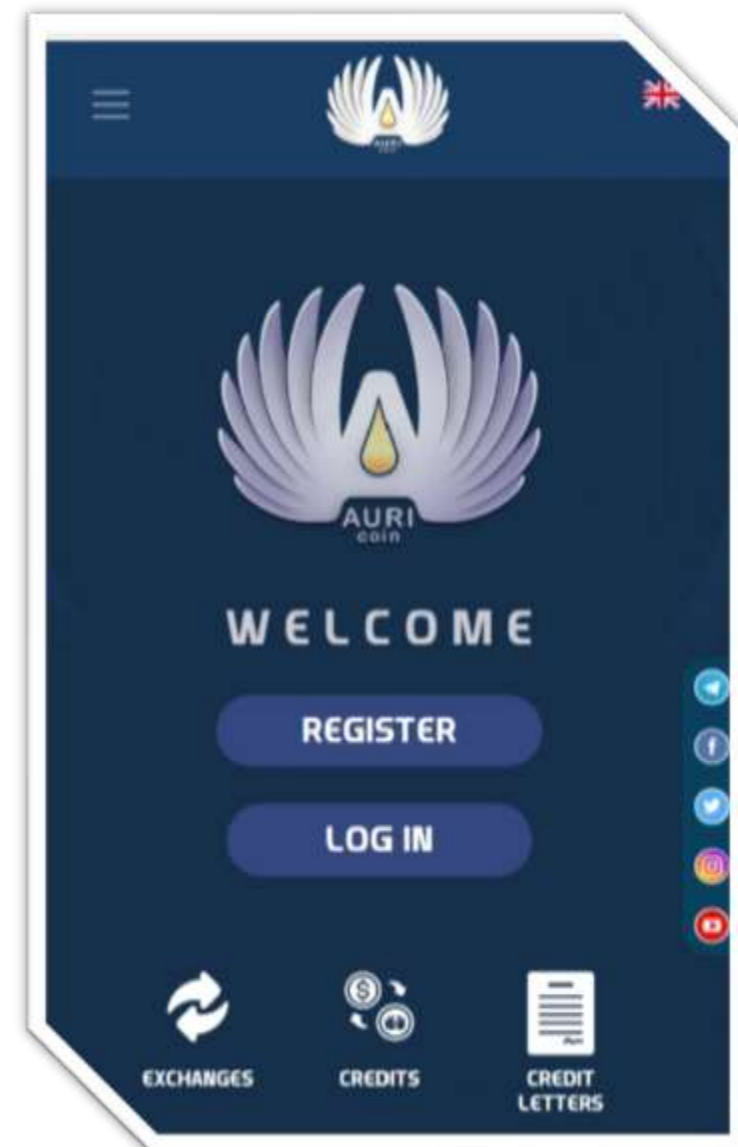

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

# Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

# Website Part 4 (GWS) – General Web Security

## SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: aurico.in.org

Issued by: Cloudflare Inc.

Valid Until: 09/01/2023

## CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

[Contact](mailto:support@aurico.in.org)

**support@aurico.in.org**

## SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

# Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Facebook](#)

[Instagram](#)

[YouTube](#)

✓ **At least 3 social media networks were found.**

# Top Token Holders

The top token holders at the time of the audit are shown below.

[Click here to view the most up-to-date list of holders](#)

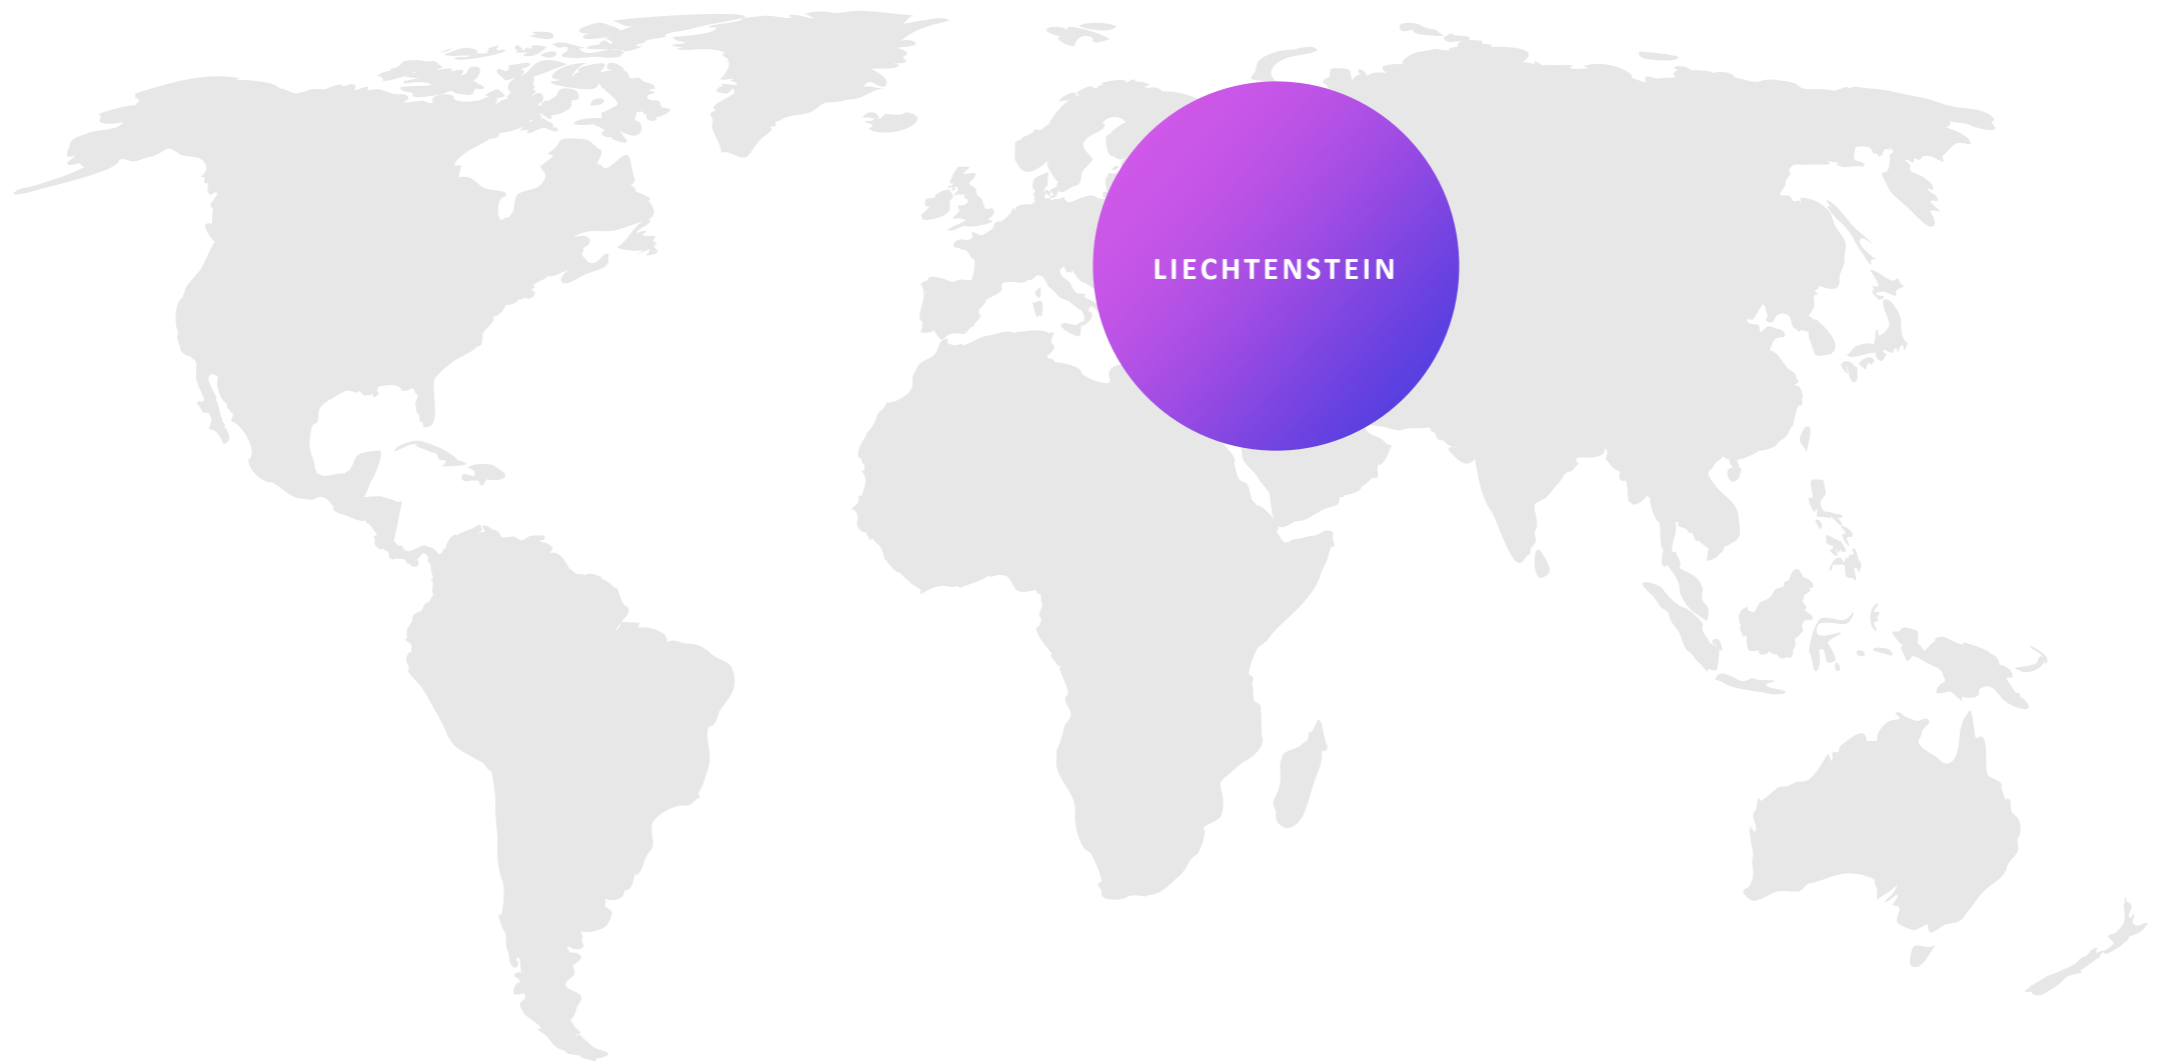

## AURlcoin Top 100 Token Holders

Source: Etherscan.io

# Location Audit

The primary location for the project has been declared as Liechtenstein.

# Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

# Roadmap

*A roadmap was not found.*

# Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

# Thank You
