

**Pokemon on BSC  
(POKECOIN)  
BEP-20 Audit**

Performed at block **10542989**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: `0x8364c57bA219dFbc8033f1368123f29beB75b4dc`

## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

## Website Part 1 – Overview

[www.pokemononbsc.com](http://www.pokemononbsc.com)

Above images are actual snapshots of the current live website of the project.

Website was registered on 06/15/2021, registration expires 06/15/2025, previously 06/15/2022.

✓ This **exceeds** the 3 year minimum we like to see on new projects.

## Website Part 2 – Checklist

- Exception\** Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

*Exception\*: This website has been designed as a game and therefore is not supported on mobile. We do not consider this to be a flag.*

## Website Part 3 – Responsive HTML5 & CSS3

The website has been designed as a game and therefore is not supported on Mobile Devices. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

# Website Part 4 (GWS) – General Web Security

## SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: pokemononbsc.com

Issued by: cPanel, Inc.

Valid Until: 9/14/2021

## CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

## SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

# BEP-20 Contract Audit – Common Vulnerabilities

```
Submitted for verification at BscScan on 2023-08-24
pragma solidity ^0.8.9;

// Token as BEP-20 (ERC-20) based on the BEP-20 standard which allows you to create, trade, and even burn tokens. BEP-20-based tokens are used by many wallets and other programs because they are the only way to interact with the BSC ecosystem.
// This is a developer-supporting, community-driven project attempting to bring you the best BEP-20 implementation through pragmatism.
// Disclaimer - we are not explicitly obligated in any way with code bugs, exploits, or the potential loss of money.

contract Context {
    function _msgSender() internal view virtual returns (address) {
        return msg.sender;
    }

    function _msgData() internal view virtual returns (bytes calldata) {
        return msg.data;
    }
}

/**
 * @dev Contract module which provides a basic access control mechanism, where
 * there is an account (or owner) that can be granted exclusive access to
 * specific functions.
 *
 * By default, the owner account will be the one that deploys the contract. This
 * can later be changed with {transferOwnership}.
 *
 * This module is used through inheritance. It will not compile if you inherit
 * from it, but also make it inherit, as this inherits from {Context} and you
 * need to inherit from that.
 */
contract Ownable is Context {
    address private _owner;

    event OwnershipTransferred(address indexed previousOwner, address indexed newOwner);

    /**
     * @dev Initializes the contract setting the deployer as the initial owner.
     */
    constructor () {
        address msgSender = _msgSender();
        _owner = msgSender;
        emit OwnershipTransferred(msgSender, msgSender);
    }

        _;
    }

    /**
     * @dev Leaves the contract without owner. It will not be possible to call
     * {onlyOwner} functions anymore. Can only be called by the current owner.
     *
     * NOTE: Renouncing ownership will leave the contract without an owner,
     * thereby removing any functionality that is only available to the owner.
     */
    function renounceOwnership() public virtual {
        onlyOwner {
            emit OwnershipTransferred(_owner, address(0));
            _owner = address(0);
        }
    }
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token’s Smart Contract as shown above.

# Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram and Medium. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Medium](#)

✓ At least 3 social media networks were found.

# Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram and Medium. All social media channels had a healthy amount of activity.

Every transaction will involve a 3% fee. Funds obtained via transaction fees will be locked up for up to six months and then distributed to Reserve, Platform Rewards, and Liquidity wallets. These tokens will be used by the Game and Governance Community to maintain and expand the Pokémon on the BSC ecosystem.

We were unable to find a contact email on the main website. We would like to see this added as a more official means of communication.

This project is being audited before launch. We expect many things to change post-launch. Please review the links on all the pages to make sure that the most up-to-date information is being reviewed. Dessert Finance conducts the audit at or prior to the block number written on the cover of this report.

## Suggestions for Improvement

1. Update domain registration to 3+ years *✓Fixed*
2. Consider adding an email to the website *✓Fixed*

# Top Token Holders

The entire supply was in a few wallets at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

*The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.*

# Roadmap

*A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.*

# Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

# Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR POKEMON ON BSC (POKECOIN). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **10542989**
