## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

# Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, Twitch, Medium, and Reddit. All social media channels had a healthy amount of activity.

It is important to note that there is an 10% tax on EVERY transaction including buys and sells. 5% goes to buybacks, 3% goes to marketing, and 2% is distributed to the token holders.

The team has declared that buybacks will be done in order to burn tokens and reduce the circulating supply.

We have reached out to the team for the most up-to-date marketing wallet. The marketing wallet can be viewed [here](#).

## Suggestions for Improvement

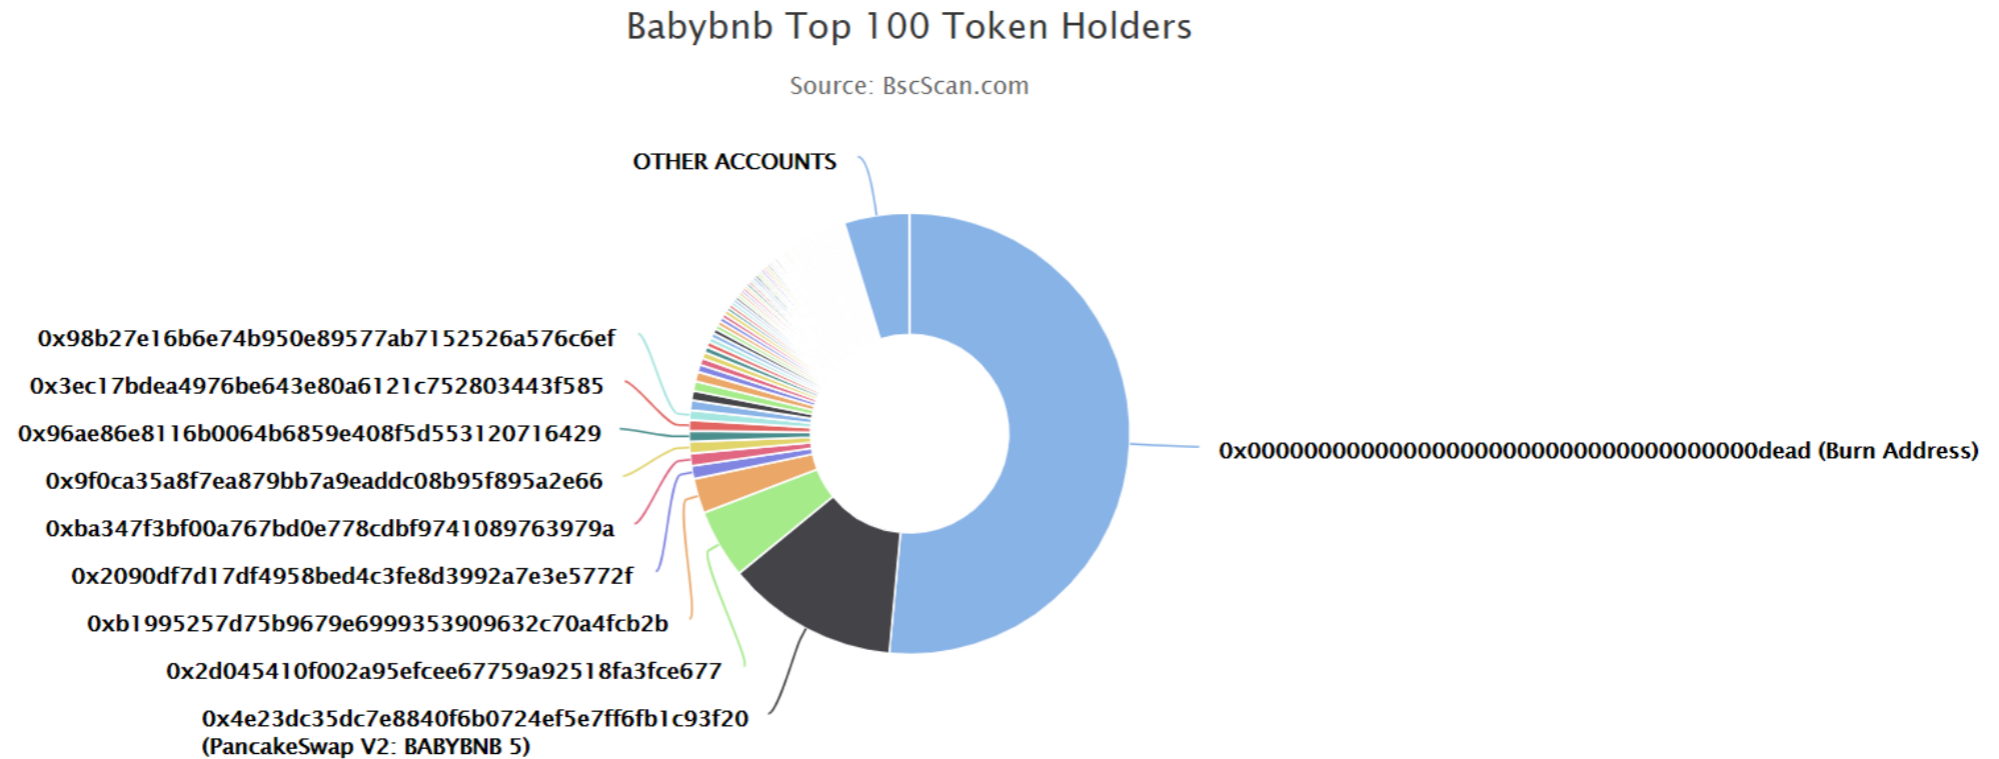

1. Update domain registration to 3+ years ✓*Fixed*
2. Add contact email on homepage ✓*Fixed*
3. “Buy on PancakeSwap” button links to the wrong contract address ✓*Fixed*

# Top Token Holders

The top token holders at the time of the audit are shown below.

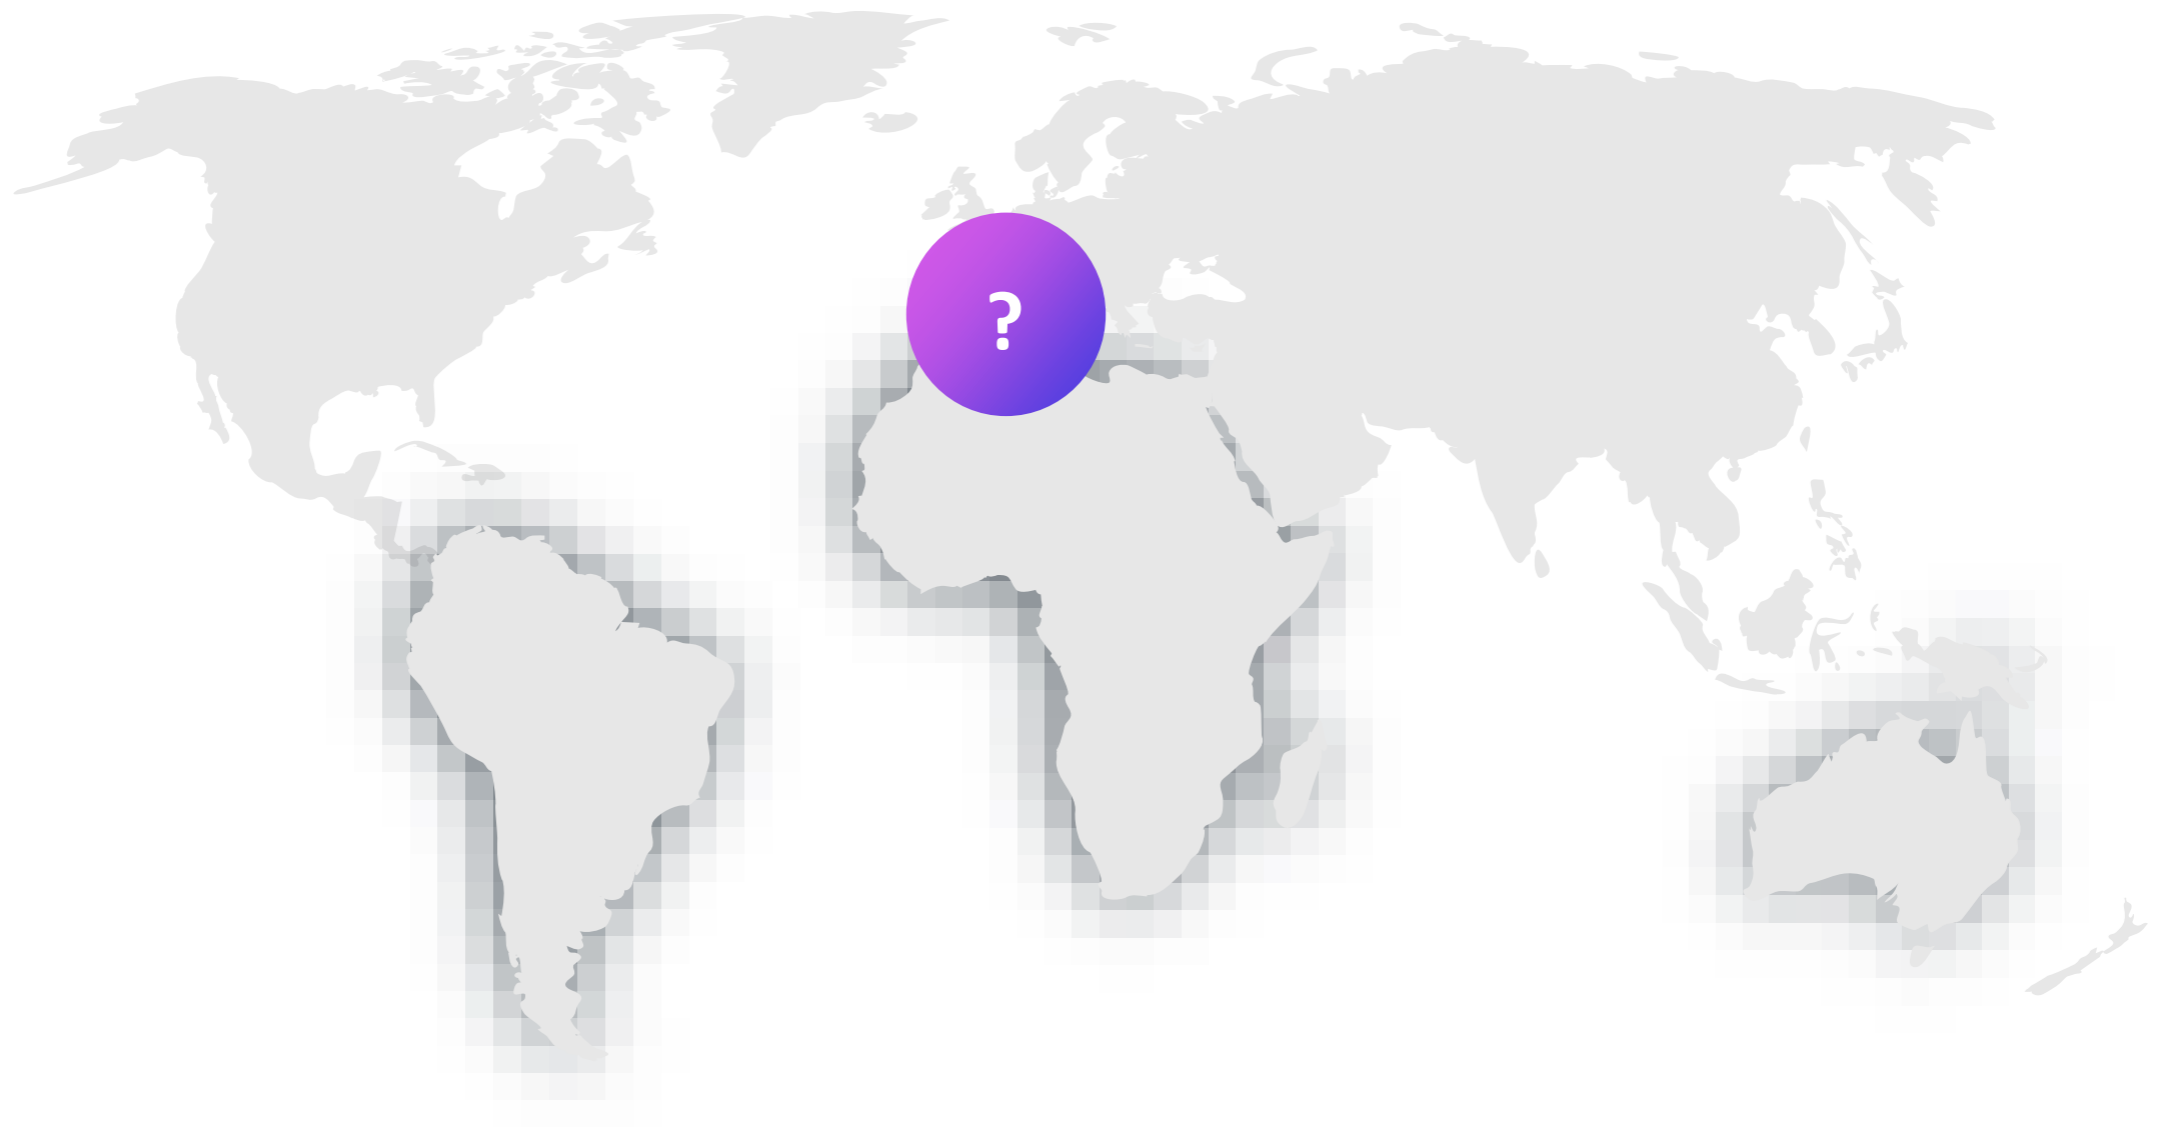

[Click here to view the most up-to-date list](#)

1. [Burn Address](#) – the top token holder was the burn wallet holding 51.48% of the total supply. These tokens are removed from circulation forever.
2. [PancakeSwap V2: BABYBNB 5](#)– the 2<sup>nd</sup> largest holder was the PancakeSwap liquidity pool holding 11% of the total supply.
3. [0x2d045410f002a95efcee67759a92518fa3fce677](#)– the 3<sup>rd</sup> largest holder was a contract containing 5.0% of the total supply. We have confirmed with the team that this is a [DxSale](#) contract.

## Location Audit

We were unable to identify a primary location for the project.

# Team Overview

✓ The project founder's government issued ID has been verified.

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.
