(BABYPOKEMON)
BEP-20 Audit**
Performed at block **10035563**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: `0x03D62449C74607F1aE1955cfFFb442E329D6622b`

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.babypokemon.com

Above images are actual snapshots of the current live website of the project.

Website was registered on 08/02/2021, registration expires 08/02/2024, previously 08/02/2022.

✓ This meets the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no Severe JavaScript errors but contained one minor error. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

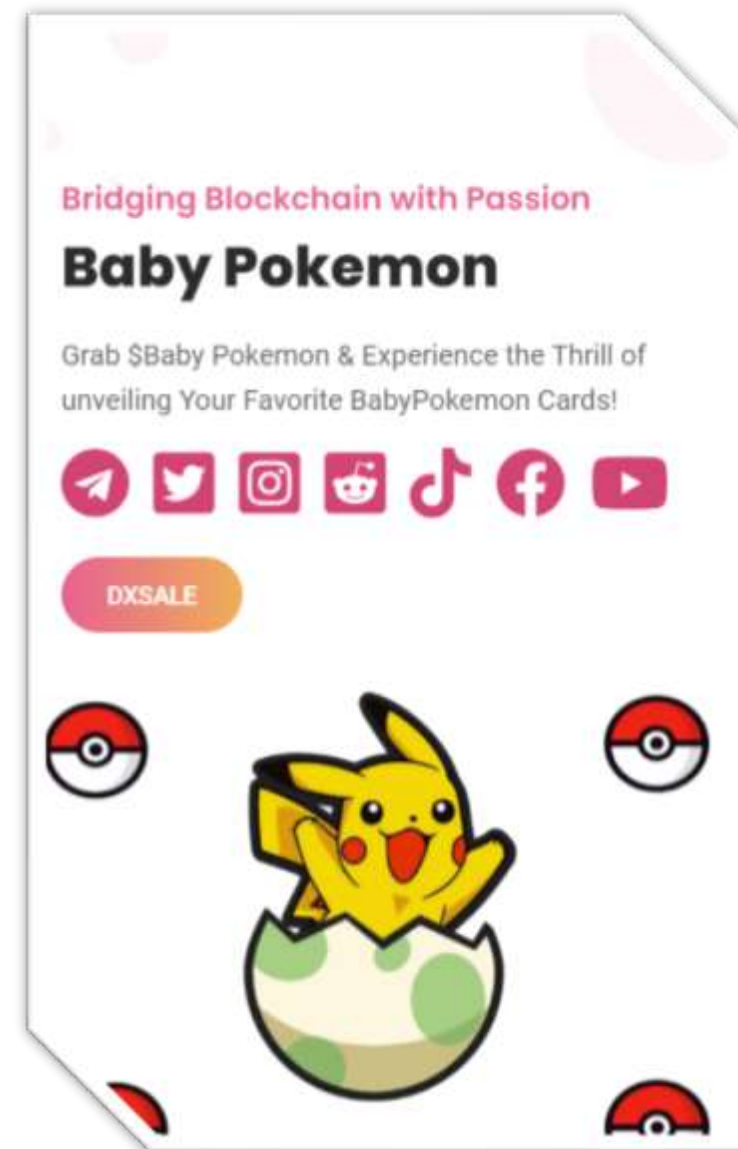

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets. One minor JavaScript error was found and is shown below.

```
✖ Uncaught TypeError: Cannot read property 'valHooks' of undefined
    at bootstrap-select.js:350
    at bootstrap-select.js:1
    at bootstrap-select.min.js:8
    at bootstrap-select.min.js:8
```

✓ *Fixed*

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: yyy

Issued by: YYY

Valid Until: 05/17/2022

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

BEP-20 Contract Audit – Common Vulnerabilities

```
pragma solidity ^0.6.12;
import './utils/DividendPayingToken.sol';
import './utils/SafeMath.sol';
import './utils/IterableMapping.sol';
import './utils/Ownable.sol';
import './utils/UniswapV2Pair.sol';
import './utils/UniswapV2Factory.sol';
import './utils/UniswapV2Router.sol';

contract BABYPOKEMON is ERC20, Ownable {
    using SafeMath for uint256;

    IUniswapV2Router02 public uniswapV2Router;
    address public immutable uniswapV2Pair;

    bool private swapping;

    BABYPOKEMONDividendTracker public dividendTracker;

    uint256 public maxSellTransactionAmount = 500000000000 * (10**9);
    uint256 public swapTokensAtAmount = 500000000 * (10**9);

    uint256 public BNBRewardsFee = 4;
    uint256 public buyBackFee = 4;
    uint256 public liquidityFee = 4;
    uint256 public totalFees = BNBRewardsFee.add(buyBackFee).add(liquidityFee);

    bool public swapEnabled = false;

    address payable _marketingWallet;

    // use by default 300,000 gas to process auto-claiming dividends
    uint256 public gasForProcessing = 300000;

    mapping (address => bool) private _isExcludedFromFees;

    // store addresses that a automatic market maker pairs. Any transfer *to* these addresses
    // could be subject to a maximum transfer amount
    mapping (address => bool) public automatedMarketMakerPairs;
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram, TikTok, Reddit, Facebook, Instagram, and YouTube. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[TikTok](#)

[Reddit](#)

[Facebook](#)

[Instagram](#)

[YouTube](#)

✓ At least 3 social media networks were found.

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, TikTok, Reddit, Facebook, Instagram, and YouTube. All social media channels had a healthy amount of activity.

It is important to note that there is an 12% tax on EVERY transaction including buys and sells. 4% goes to buybacks, and 4% is distributed to the token holders in BNB, and 4% is used for marketing.

A valid contact email was not found on the website, we would like to see this added for users who do not use social media as a primary means of communication. *✓ Fixed*

This project has not yet launched so please revisit all links and resources in this audit at the time of launch for the most up-to-date information.

A mint function was found which is called by the constructor and cannot be called again. There is also a mintable dividend paying token for tracking rewards which is not the same token as the main project token.

Suggestions for Improvement

1. Add contact email to website *✓ Fixed*
2. Update domain registration length *✓ Fixed*
3. Fix javascript errors on website *✓ Fixed*

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

Location Audit

The team has declared the location for the project as Canada.

Team Overview

✓ Dessert Finance has validated the ID of the founder.

The BABY POKEMON is consisted of 5 team members which were taken from the avatar of the Pokemon series:

- Professor Oak
- Ash Ketchum
- Gary Oak
- Misty
- Brock Takeshi

Baby Pokémon

Baby Pokémon

is obviously the main character of the team, he's in charge of the project and delegates each member to track and finalize their task.

is the Marketing planner of the BABYPOKEMON Token making sure to evaluate each and every step of the project.

the genius designer that ensures the project is completed with a high quality such as Game App, website, NFTs Rewards.

the one and only female Advertiser of the team bringing light to the project and making sure to provide the best publicity and making arrangement with the most stunning influencers of all social

the communicator or the social media interactor that is available on AMA and messages to clarify all the matters.

Potential Signs of Risk

1

1 YEAR DOMAIN REGISTRATION

2

PROJECT HAS COMMON USE-CASE
(REFLECT TOKEN W/CHARITY)

3

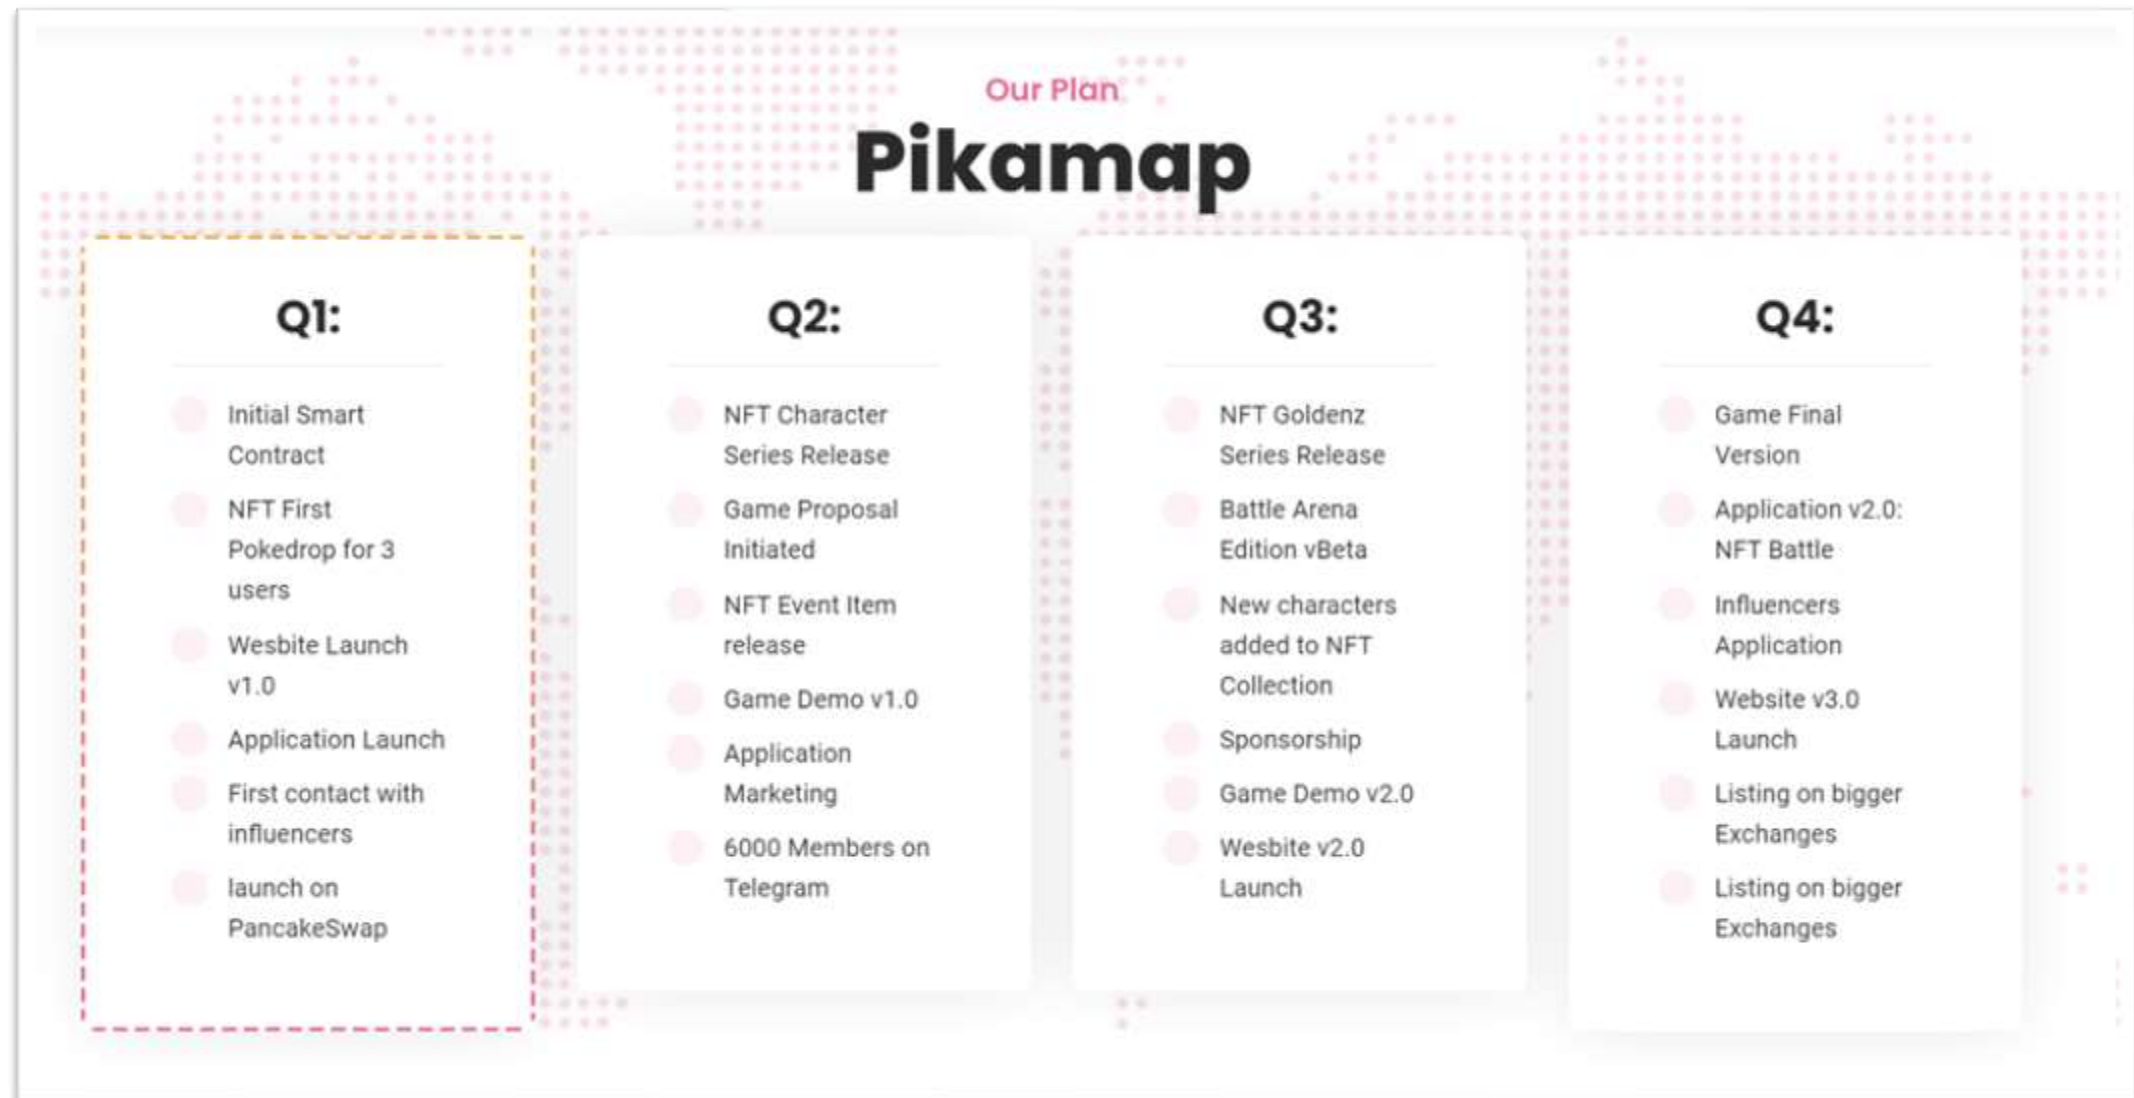

NO CONTACT EMAIL

✓ *Fixed*

The above listed are the top 3 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR BABY POKEMON (BABYPOKEMON). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **10035563**
