INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down social media channels for the project. Social Media channels included Twitter and Telegram. All social media channels had a healthy amount of activity.

It is important to note that there is a 5% tax on EVERY sell transaction. The 5% goes to the staking contract for disbursing interest to participants.

We were unable to find a contact email or form on the website, we recommend adding this as not all holders will use social media as their primary form of contact.

✓ *Resolved*

We like to see at least three social media channels from new projects, we recommend adding a third social media channel for further market reach. ✓ *Resolved*

Suggestions for Improvement
