

## **INITIAL DISCLAIMER**

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

## **DessertDoxxed**

DessertDoxxed is a KYC service offered by Dessert Finance that allows projects to do a private face reveal matched with an I.D to allow founders / team members to privately Doxx themselves to Dessert Finance.

# **Contract Code Audit – Token Overview**

## **BEP-20 Contract Code Audit – Overview**

Dessert Finance was commissioned to perform an audit on CannWorld V2 (CWORLD)

```
ragma solidity >=0.7.💆 <0.9.🕵
import './IPancakeRouter@1.sol';
interface IPancakeRouter02 is IPancakeRouter01 {
    function removeLiquidityETHSupportingFeeOnTransferTokens(
        uint amountTokenMin,
uint amountETHMin,
         address to,
        uint deadline
    ) external returns (uint amountETH);
function removeLiquidityETHWithPermitSupportingFeeOnTransferTokens(
         wint deadline,
    bool approveMax, uintW v, bytes32 r, bytes32 s
) external returns (uint amountETH);
        uint amountIn,
uint amountOutMin,
         address[] calldata path,
         address to,
uint deadline
    function swapExactETHForTokensSupportingFeeOnTransferTokens(
oint amountOutRin,
         address[] calldata path,
         uint deadline
    ) external payable;
    function swapExactTokensForETHSupportingFeeOnTransferTokens(
    uint amountIn,
    uint amountOutPlin,
         address[] calldata path;
         address to,
uint deadline
     ) external;
```

State Variable Default Visibility	Complete	Complete	√ Low / No Risk
Deployer Can Access User Funds	Complete	Complete	√ Low / No Risk

The contract code is not **verified** on BSCScan.

# **Liquidity Ownership – Locked / Unlocked**

Locked liquidity information has been found.

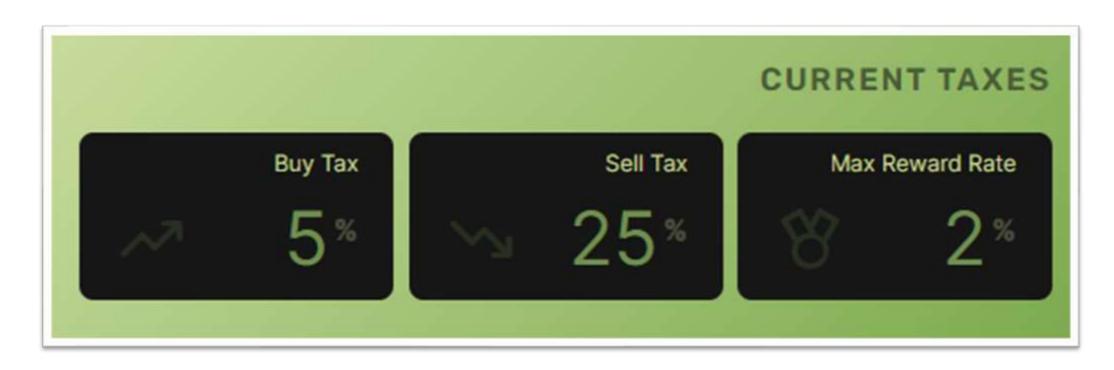

This page will contain links to locked liquidity for the project if we are able to locate that information.

### **DxSale**

https://dx.app/app/v3\_3/dxlockview?id=0&add=0x89AcFFB1F8143A8d450F2b31504C27 1aDdD1d764&type=lplock&chain=BSC

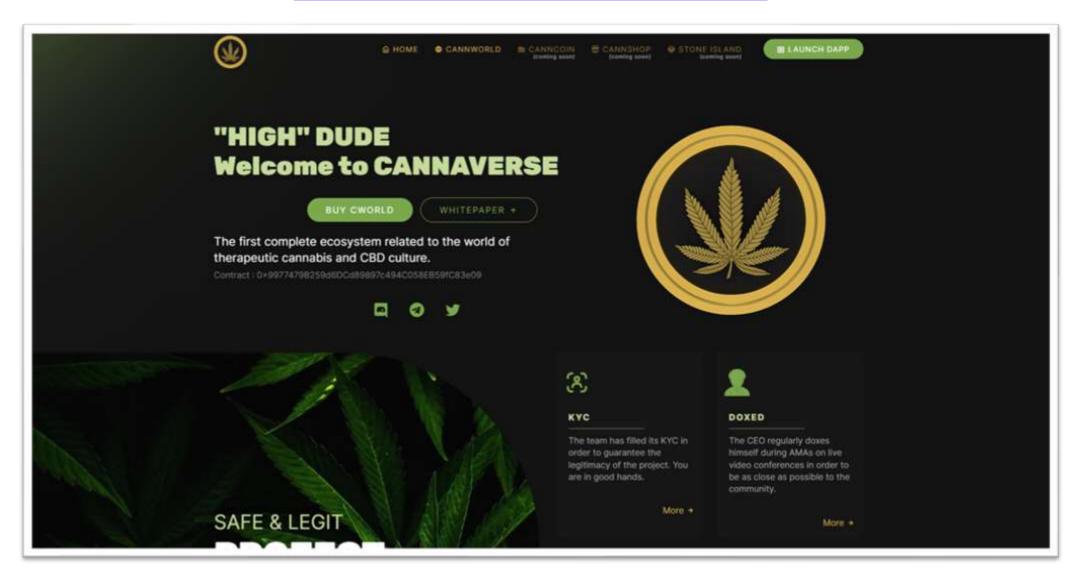

## **Contract Transaction Fees**

At the time of Audit the transaction fees ("tax") listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

# Website Part 1 – Overview www.cannaverse.financial

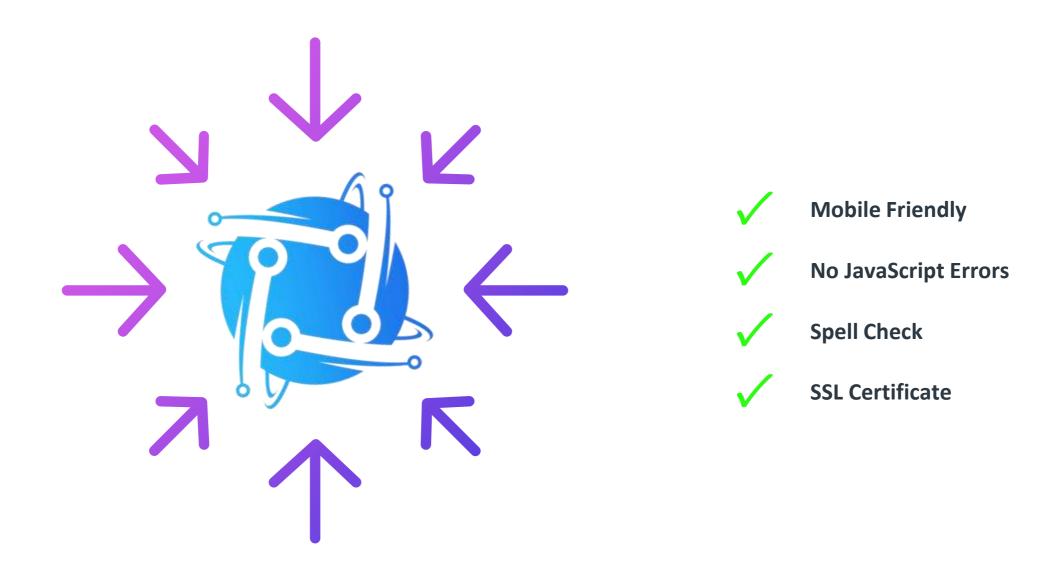

Above images are actual snapshots of the current live website of the project.

Website was registered on 12/29/2021, registration expires 12/29/2022.

X This meets the 3 year minimum we like to see on new projects.

## **Website Part 2 – Checklist**

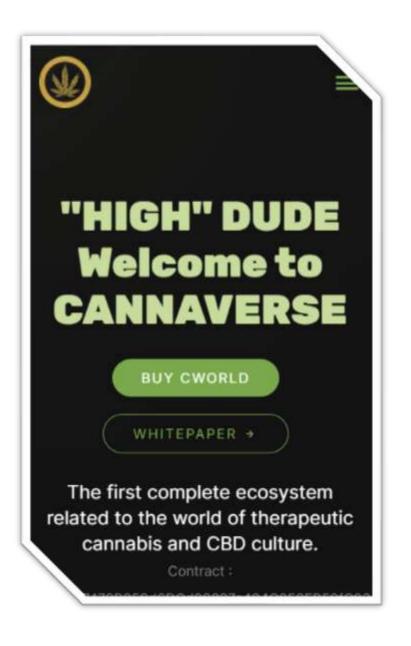

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

# Website Part 3 – Responsive HTML5 & CSS3

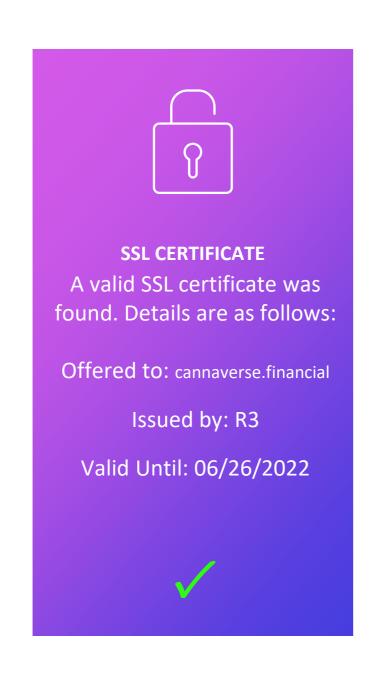

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

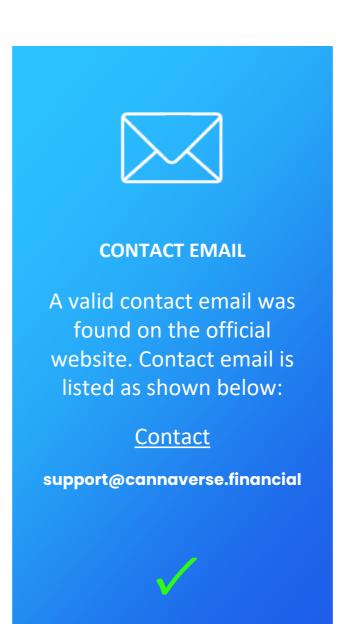

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

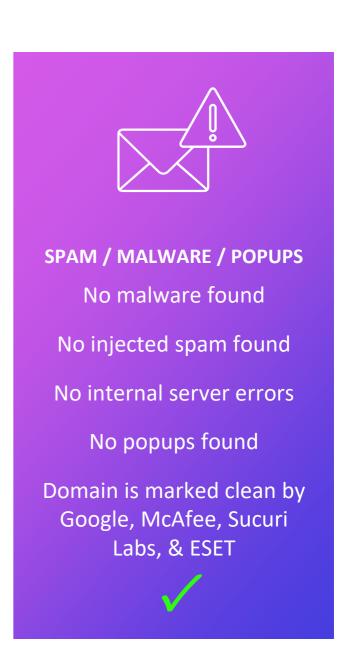

# Website Part 4 (GWS) - General Web Security

# **Social Media**

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

✓ At least 3 social media networks were found.

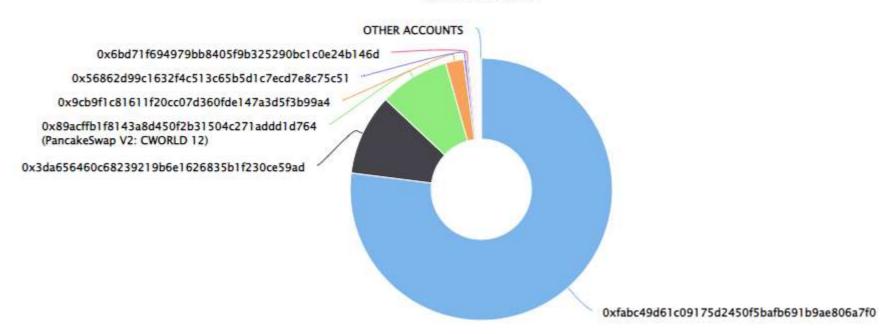

# **Top Token Holders**

The top token holders at the time of the audit are shown below.

Click here to view the most up-to-date list of holders

#### CannWorld V2 Top 100 Token Holders

Rank	Address	<b>Quantity (Token)</b>	Percentage
1	<u>0xfabc49d61c09175d2450f5bafb691b9ae806a7f0</u>	385,000	77.0000%
2	0x3da656460c68239219b6e1626835b1f230ce59ad	50,000	10.0000%
3	PancakeSwap V2: CWORLD 12	43,107.816069001668538243	8.6216%
4	0x9cb9f1c81611f20cc07d360fde147a3d5f3b99a4	11,200	2.2400%

# **Location Audit**

We were unable to identify a primary location for the project at this time or a location has not been declared.

# **Team Overview**

The following information has been found on the project's website.

# Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Our goal is to develop through several projects and partnerships to set up a complete ecosystem that links crypto to the cannabis world and CBD culture.

Cannworld is the first project of our series linked to the Cannaverse ecosystem. The goal is to bring together in a single community novice and seasoned users of cryptocurrency but also professionals, consumers, and producers of the CBD and medical cannabis world.

We will present you later the different steps of the Cannaverse project. First of all, let's focus on Cannworld. A contract designed to allow you to quietly collect rewards and exchange them for BNB.

The 1st contract had been launched by owning the features of making freezing period throughout distribution and an antidumping system that did not allow us to make the token tradable.

We, therefore, had to deploy a new contract. This is CannWorld v2. Several new features as well as a brand new system for internal rewards to the most loyal holders, we will discover this on the next pages.

## Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
