FINANCE

Coinrealcap Token (CRC)

BEP-20 Audit

Performed at block **14435782**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: **0xDd7994282A472cDbb3A288460dE1678fBeb223B8**

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version	Complete	Complete	✓ Low / No Risk
Integer Overflow	Complete	Complete	✓ Low / No Risk
Integer Underflow	Complete	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility (x1)	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is verified on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Contract Ownership

Contract Ownership has not been renounced at the time of Audit

The contract ownership is not currently renounced.

We have placed the contract owner address below for your viewing:

[0x39cae3dcf10810ac94a278fe88d100d31611111a](https://etherscan.io/address/0x39cae3dcf10810ac94a278fe88d100d31611111a)

The address above has authority over the ownable functions within the contract.

This allows the owner to call certain functions within the contract. Any compromise to the owner wallet may allow these privileges to be exploited.

We recommend:

- Establishing a Time-Lock with reasonable latency
- Assignment of privileged roles to multi-signature wallets

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
excludeAccount	address account	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
includeAccount	address account	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setPairRouterCake	address _pair, IUniswapV2Router02 _router, address _cake	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setTaxless	address account, bool value	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setSwapEnabled	bool enabled	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setFeeActive	bool value	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setTaxFee	uint256 buy, uint256 sell, uint256 trackcrc	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. No limiter in place, can be set to 100
setapiintegrationFee	uint256 buy, uint256 sell, uint256 trackcrc	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. No limiter in place, can be set to 100
setdevelopmentFee	uint256 buy, uint256 sell, uint256 trackcrc	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. No limiter in place, can be set to 100
setLiquidityFee	uint256 buy, uint256 sell, uint256 trackcrc	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. No limiter in place, can be set to 100
setdevelopmentWallet	address wallet	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setapiintegrationWallet	address bank	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setMaxTxAmount	uint256 amount	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setMinTokensBeforeSwap	uint256 amount	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setRewardCycleInterval	uint256 interval	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
renounceOwnership		public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. This function has not been called.
transferOwnership	address newOwner	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The functions listed above can be called by the contract owner.

If contract ownership has been renounced there is no way for the above listed functions to be called.

Liquidity Ownership – Locked / Unlocked

Locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information.

Pinksale

<https://www.pinksale.finance/#/launchpad/0x5E8073ca51ce4b726167A03F674bfB5644dDE9dE?chain=BSC>

Contract Code Audit – Mint Functions

This Contract Cannot Mint New CRC Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees (“tax”) listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

We were unable to locate Transaction Fees on the projects website however they are listed within the contracts code.

Website Part 1 – Overview

www.coinrealcap.com/

The screenshot shows the Coinrealcap website interface. At the top, there is a navigation bar with links for Home, Fear & Greed, Pools, Wallets, Dictionary, Advertise, and Presale. The current market cap is \$2,043,203,524,289. Below the navigation bar, there are icons for Currencies, Defi, Exchanges, News, Blockfolio, Watchlist, and Tools. A search bar is located on the right. A prominent banner for 'SCAC TOKEN PRESALE ON 18TH JANUARY' is displayed. Below the banner, there are three summary boxes: Market Cap (\$2,043,203,524,289), 24h Market Cap (\$93,142,155,232), and Active Currencies (2735). A Bitcoin share box shows 39.78%. The main content area features a 'Top 10 Coins' table and a 'Sponsored Ad' for the SCAC token presale.

Rank	Name	Price	Market Cap	24h Vol	1h	24h
1	Coinrealcap SCAC	N/A	N/A	N/A	%	%
1	Bitcoin BTC	\$42,973.83	\$812,775,957,543	\$28,684,760,712	-0.63%	0.1%
2	Ethereum ETH	\$3,286.64	\$390,834,569,299	\$13,971,717,540	-0.39%	-0.01%
3	BNB BNB	\$484.97	\$80,141,926,656	\$3,516,479,916	-0.46%	1.86%
4	Tether USDT	\$1.00	\$78,422,013,987	\$63,028,213,255	-0.01%	0%
5	Solana SOL	\$147.01	\$45,844,581,915	\$2,027,324,603	-1.22%	-2.75%
6	USD Coin USDC	\$0.99990	\$45,064,809,599	\$4,115,960,177	-0.13%	-0.04%
7	Cardano ADA	\$1.26	\$42,048,699,584	\$1,828,349,503	-1.19%	0.43%
8	XRP XRP	\$0.76680	\$36,615,746,993	\$1,586,999,707	-0.8%	-0.3%

Above images are actual snapshots of the current live website of the project.

Website was registered on 01/09/2022, registration expires 01/09/2023.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✗ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained multiple JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

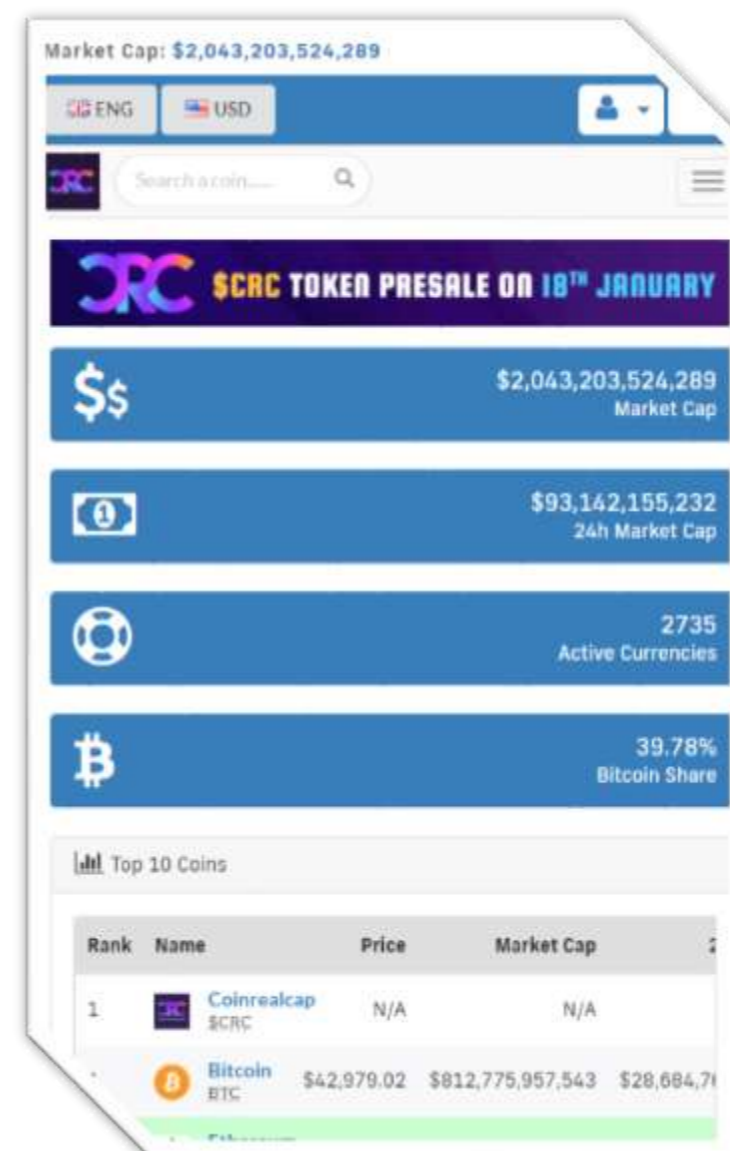

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

Multiple JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Roadmap

A roadmap was found in the whitepaper.

Development Plan and Timeline

Q1 2022

- Coinrealcap Website Registered, Developed, and Launched
- Initiate Coinrealcap Token Marketing Plan (Digital, Physical Media)
- Perform Paid-Audit through Techrate Auditor and Dessertswap
- KYC verification with Interfi network
- ILO on Pinksale.finance
- Listing on CoinGecko, CoinMarketCap, and Blockfolio
- Enable TrustWallet/Metamask Wallet Coinrealcap Token Logo
- Enable PancakeSwap Coinrealcap Token Logo
- Incorporation of Coinrealcap Analytics Ltd.

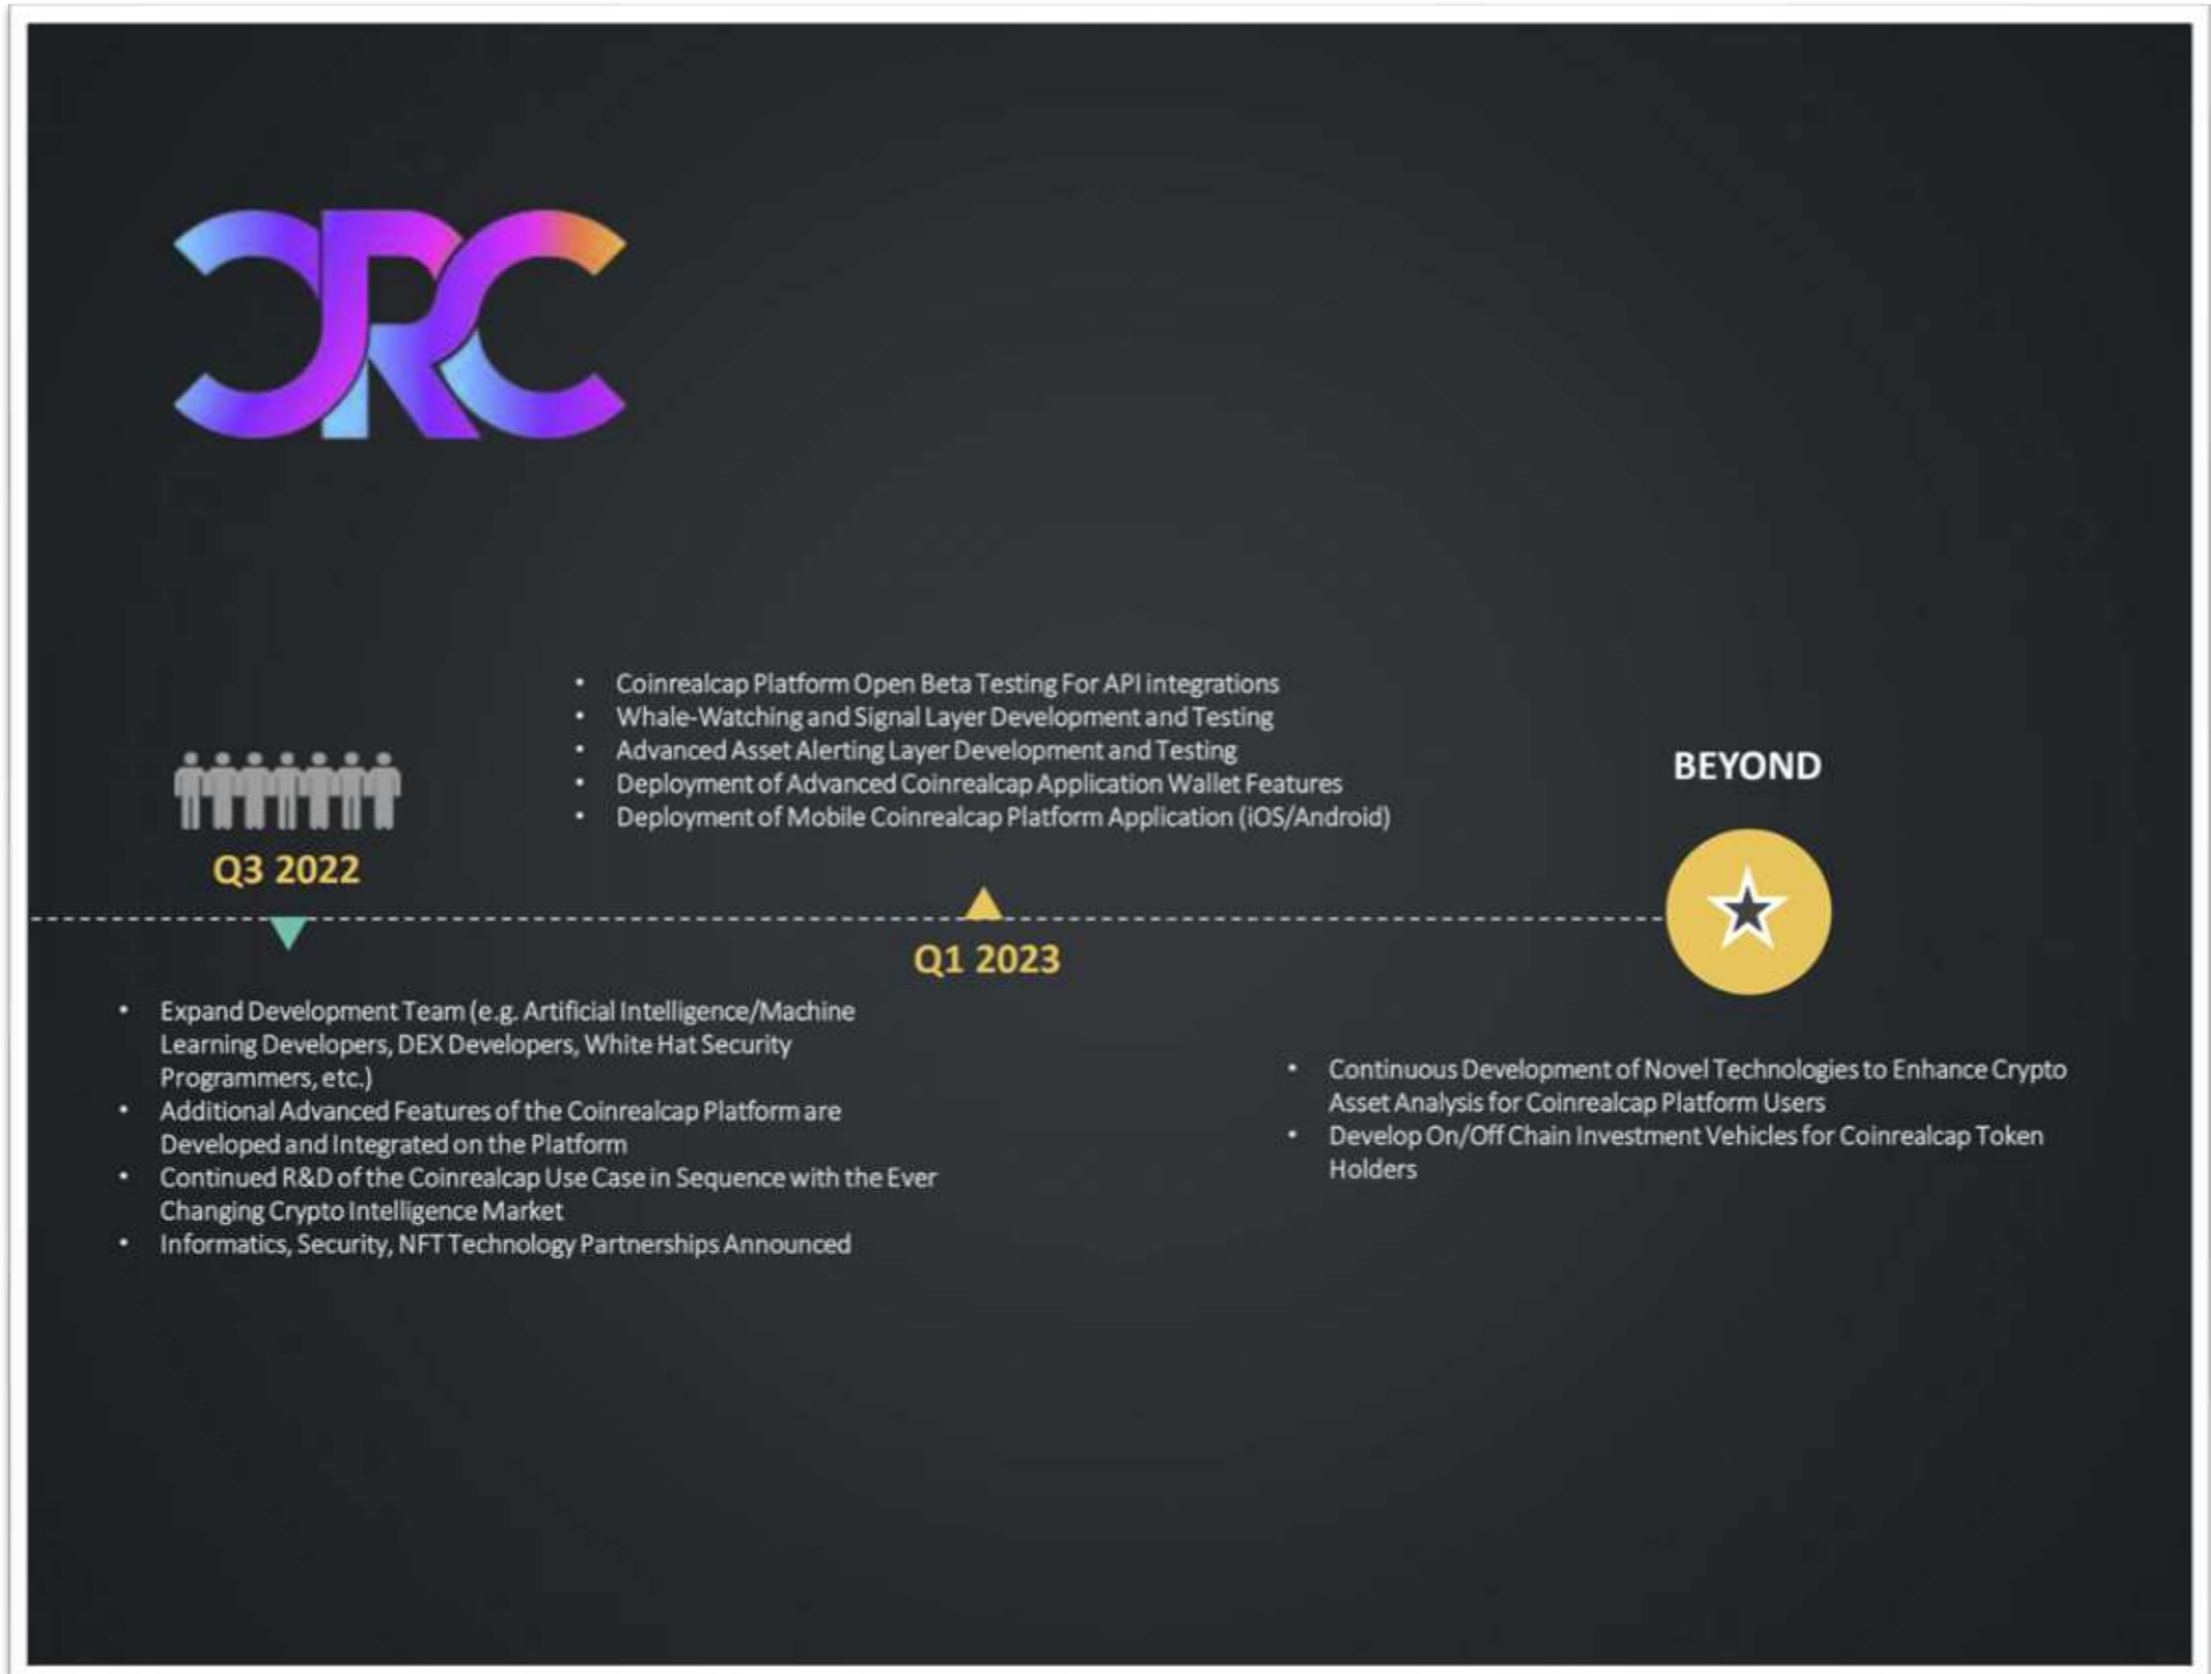

Q2 2022

- Enhanced CertiK Contract Security Audit
- Tier-1/Tier-2 CEX Listings
- Enhanced marketing strategy execution
- Metadata Tracking Layer and UX/UI Development and Platform Integration
- Activate Basic Asset Tracking on Coinrealcap Platform for All Tier Level Members
- Deployment of Coinrealcap Application Wallet with Limited Trade Execution and P/L Functions

Roadmap (cont)

A roadmap was found in the whitepaper.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
