

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

DessertDoxxed

DessertDoxxed is a KYC service offered by Dessert Finance that allows projects to do a private face reveal matched with an I.D to allow founders / team members to privately Doxx themselves to Dessert Finance.

BEP-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on Cryft (CRYFT)

Contract Address

0x750db8B9c66d7fcE0a8a0e859c6D46b28Dc4972C as proxy for 0xf164ca57B5263002818DD45Be438312e65F15e79

TokenTracker

Cryft (CRYFT)

Contract Creator

0x73dd56e21458dc250Ad7F160035Ff35721A059e1

Source Code

Contract Source Code Verified

Contract Name

TransparentUpgradeableProxy

Other Settings

default evmVersion

Compiler Version

v0.8.2+commit.661d1103

Optimization Enabled

Yes with 200 runs

Code is truncated to fit the constraints of this document. The code in its entirety can be viewed here.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	Al Scan	Human Review	Result
Compiler Errors	Complete	Complete	√ Low / No Risk
Outdated Compiler Version	Complete	Complete	√ Low / No Risk
Integer Overflow	Complete	Complete	√ Low / No Risk
Integer Underflow	Complete	Complete	√ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	√ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	√ Low / No Risk
Exposed _Transfer Function	Complete	Complete	√ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	√ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	√ Low / No Risk
Use of Deprecated Functions	Complete	Complete	√ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	√ Low / No Risk
State Variable Default Visibility	Complete	Complete	√ Low / No Risk
Deployer Can Access User Funds	Complete	Complete	√ Low / No Risk

Contract Code Audit – Contract Ownership

Contract has been identified as an Upgradeable Contract

This is an upgradeable contract.

This means that the contract address that is being pointed to can be changed / upgraded at any time by the proxy administrators.

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
excludeFromFee	address account, bool exclude	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeFromMaxTxLimit	address account, bool exclude	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeFromReward	address account, bool shouldExclude	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
freeStuckTokens	address tokenAddress	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateBuyFees	uint256 reflectionFee, uint256 liquidityFee, uint256 marketingFee, uint256 growthFee, uint256 burnFee, uint256 buybackFee, uint256 newFeeDivisor	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateSellFees	uint256 reflectionFee, uint256 liquidityFee, uint256 marketingFee, uint256 growthFee, uint256 burnFee, uint256 buybackFee, uint256 newFeeDivisor	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateTransferFees	uint256 reflectionFee, uint256 liquidityFee, uint256 marketingFee, uint256 growthFee, uint256 burnFee, uint256 buybackFee, uint256 newFeeDivisor	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateMarketingWallet	address _marketingWallet	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateGrowthWallet	address _growthWallet	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateMaxTxSize	uint256 maxTransactionAllowed	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
openTrading		external override	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
pauseTrading		external virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
updateLPPoolList	address newAddress, bool_isPoolAddress	public virtual override	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
renounceOwnership		public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
transferOwnership	address newOwner	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The functions listed above can be called by the contract owner.

Liquidity Ownership – Locked / Unlocked

No locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information. Locked liquidity information was not found on the project's website.

Contract Code Audit – Mint Functions

This Contract Cannot Mint New CRYFT Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Website Part 1 – Overview www.cryft.app

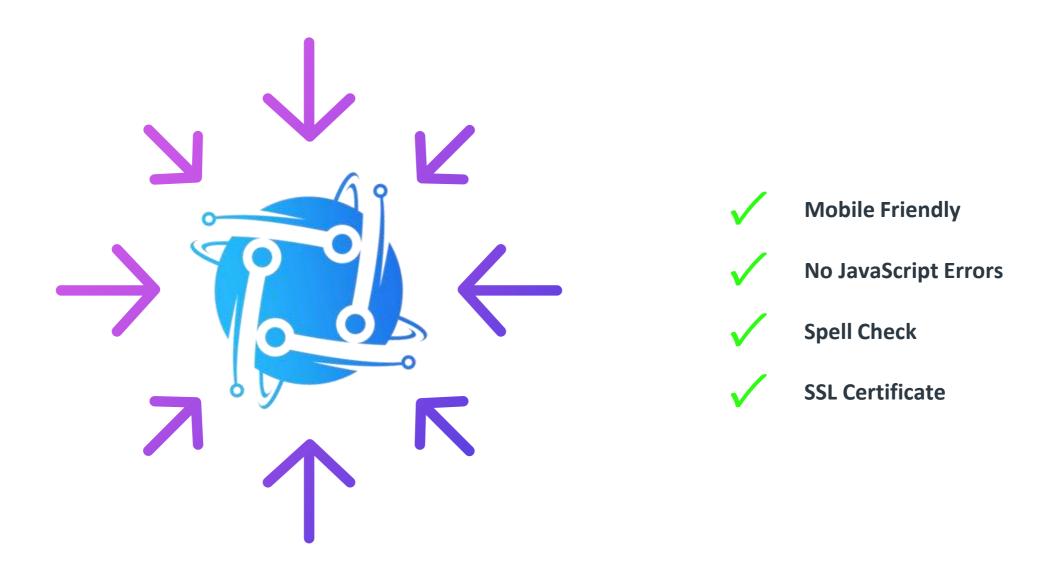

Above images are actual snapshots of the current live website of the project.

Website was registered on 01/17/2022, registration expires 01/17/2023.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

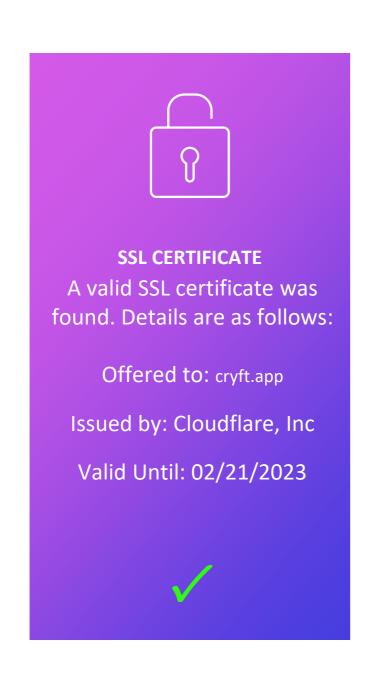

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

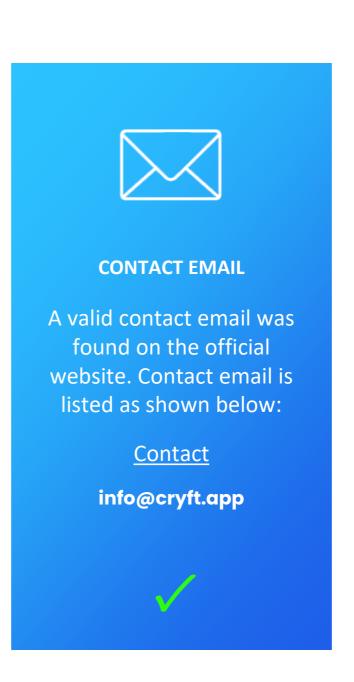

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

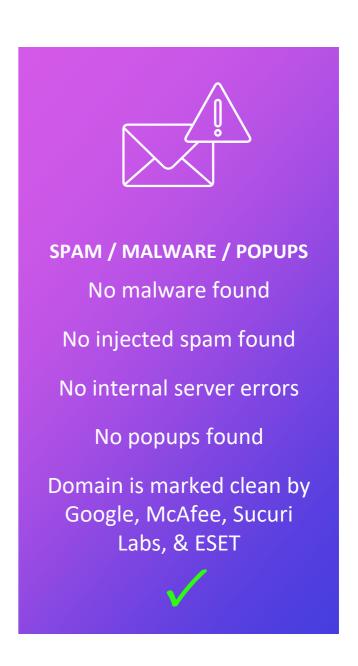

Website Part 4 (GWS) - General Web Security

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

At least 3 social media networks were found.

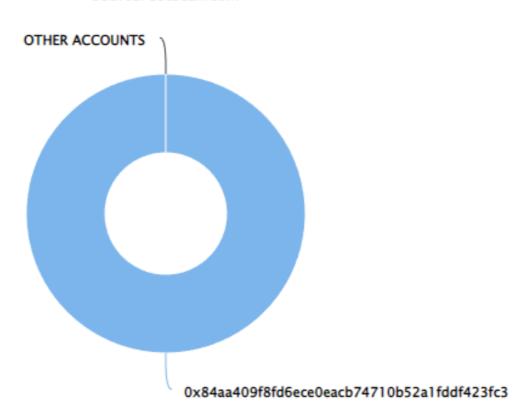

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

Click here to view the most up-to-date list of holders

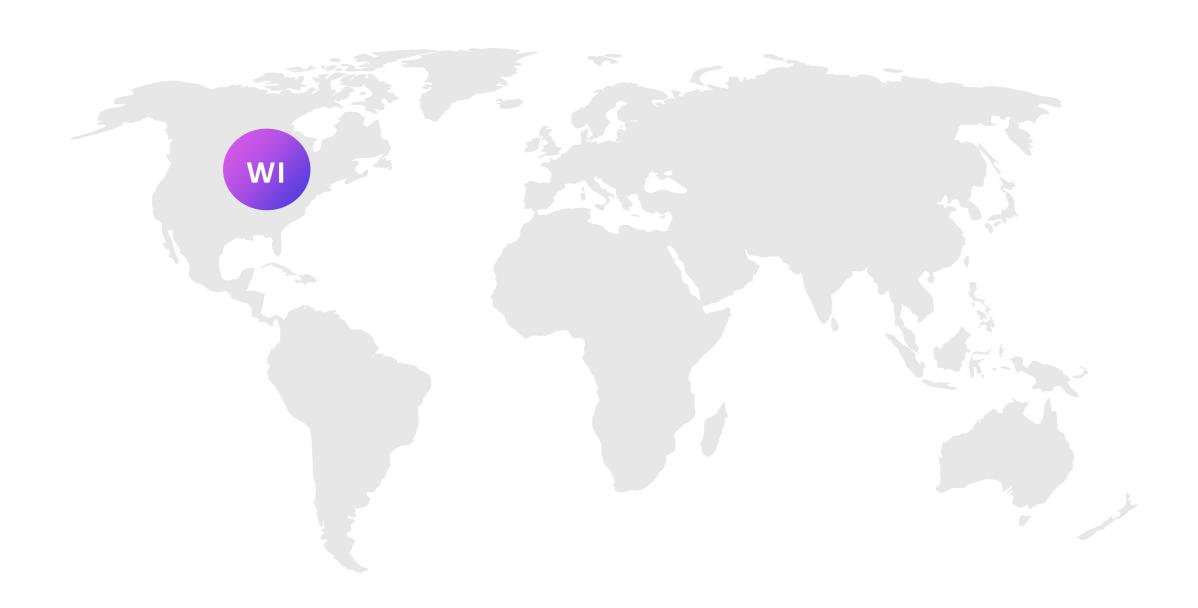

Cryft Top 100 Token Holders

Source: BscScan.com

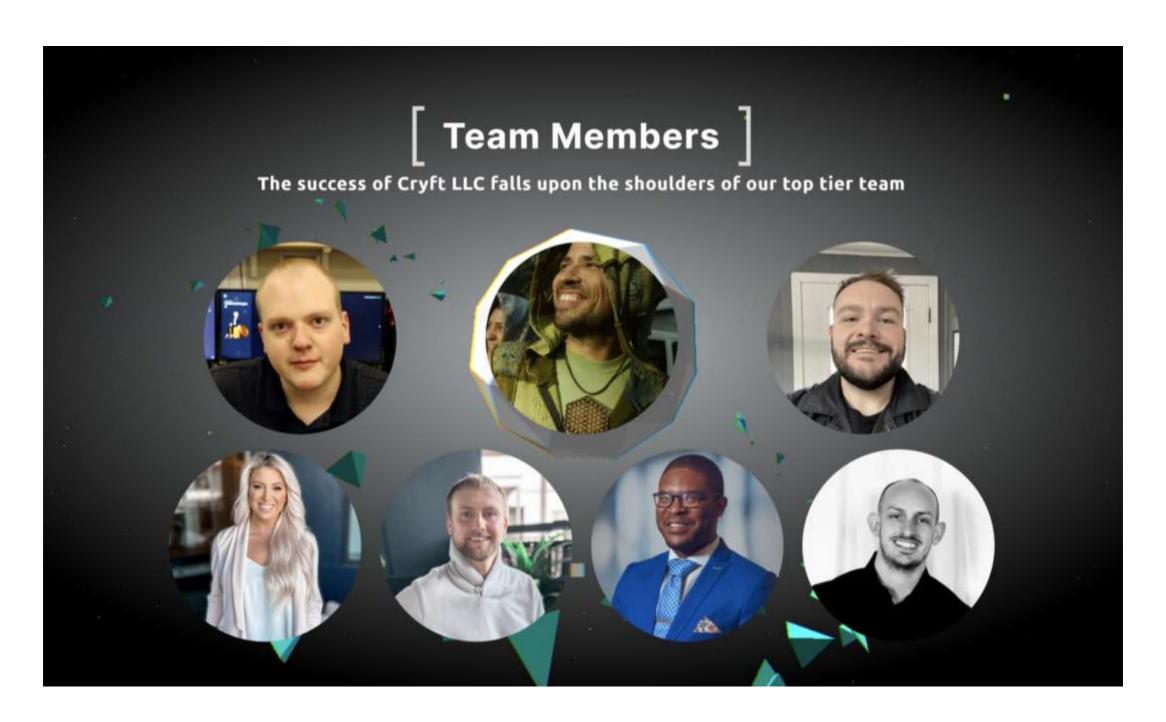

Location Audit

The primary location for the team is Wisconsin, USA.

Team Overview

The following information about the projects team was found on the website.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
