

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

DessertDoxxed

DessertDoxxed is a KYC service offered by Dessert Finance that allows projects to do a private face reveal matched with an I.D to allow founders / team members to privately Doxx themselves to Dessert Finance.

Contract Code Audit – Token Overview

ERC-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on CryptoBlocks (BLOCKS)

Contract Address

0x2c6013a1a99e9370512C89569731c1b5a2aFEB19

TokenTracker

CryptoBlocks (BLOCKS)

Contract Creator

0x6a06a5d68c1f72c46a8c2bc35278a0a8b8349046

Source Code

Contract Source Code Verified

Contract Name

CryptoBlocks

Other Settings

default evmVersion, MIT

Compiler Version

v0.8.7+commit.e28d00a7

Optimization Enabled

No with 200 runs

Code is truncated to fit the constraints of this document. The code in its entirety can be viewed here.

ERC-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	Al Scan	Human Review	Result
Compiler Errors	Complete	Complete	√ Low / No Risk
Outdated Compiler Version	Complete	Complete	√ Low / No Risk
Integer Overflow	Complete	Complete	√ Low / No Risk
Integer Underflow	Complete	Complete	√ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	√ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	√ Low / No Risk
Exposed _Transfer Function	Complete	Complete	√ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	√ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	√ Low / No Risk
Use of Deprecated Functions	Complete	Complete	√ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	√ Low / No Risk
State Variable Default Visibility	Complete	Complete	√ Low / No Risk
Deployer Can Access User Funds	Complete	Complete	√ Low / No Risk

Liquidity Ownership – Locked / Unlocked

Locked liquidity information has been found.

76% of the supply of the project is held in Unicrypt – Token Vesting

1 Unicrypt : Token Vesting 182,200,000 76.5546%

Contract Code Audit – Mint Functions

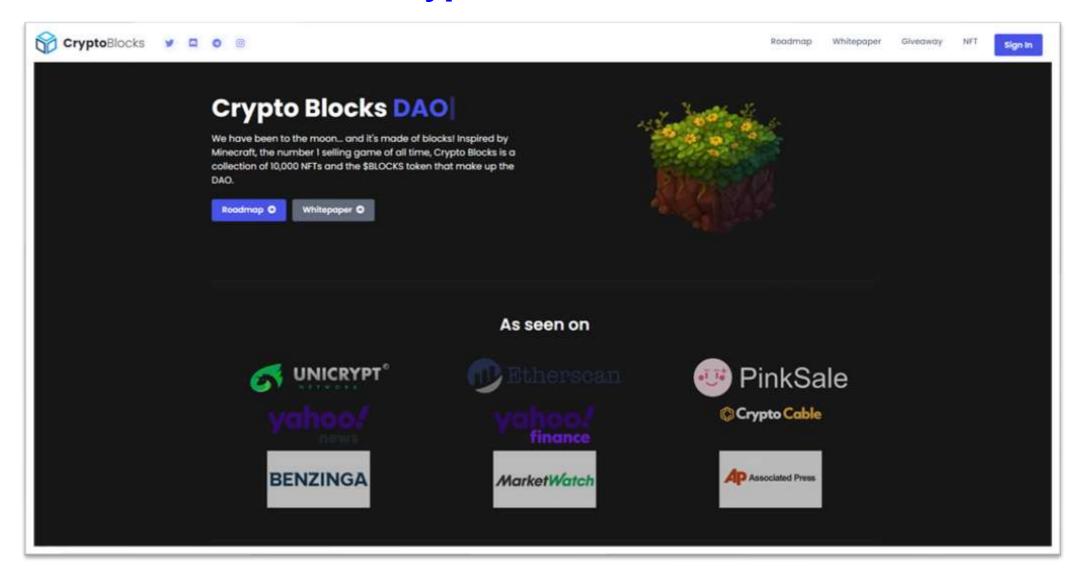

This Contract Cannot Mint New Blocks Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Website Part 1 – Overview www.cryptoblocksdao.com

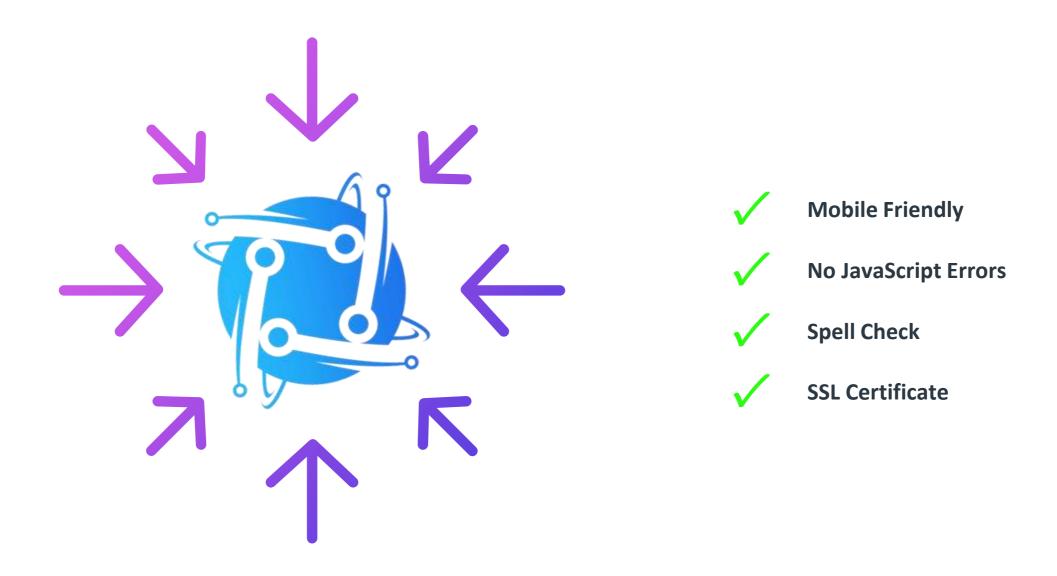

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/14/2022, registration expires 05/14/2025.

✓ This meets the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

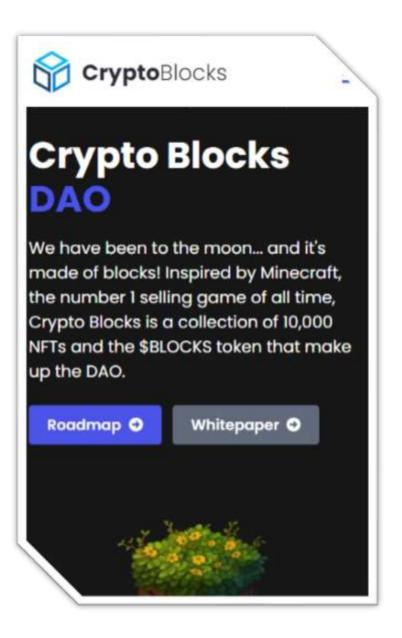

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

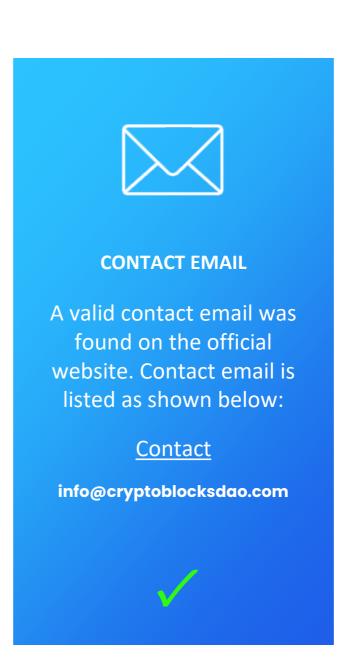

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

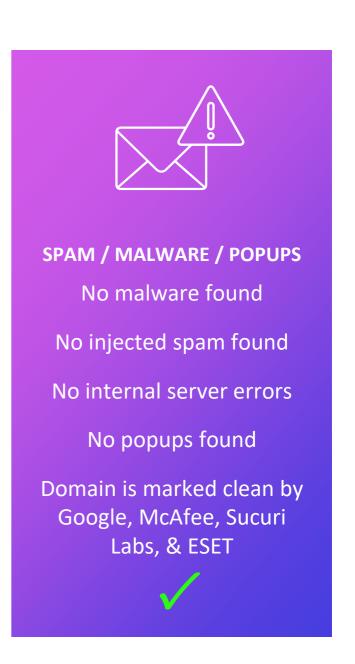

Website Part 4 (GWS) – General Web Security

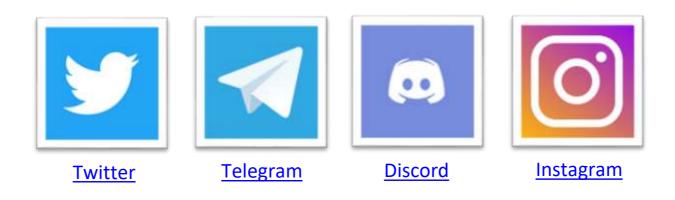

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

✓ At least 3 social media networks were found.

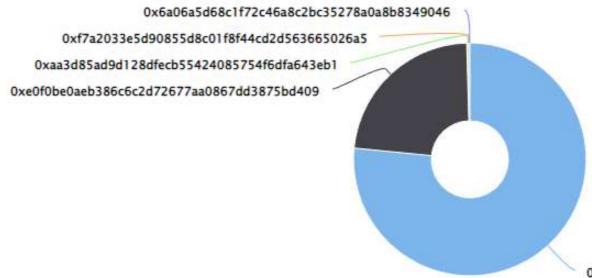

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

Location Audit

The primary location of the company is Delaware, USA.

Team Overview

The following information has been found on the projects website.

OUR TEAM

THE CAPTAIN

Highly experienced in managing hundreds of personnel and multibillion dollar international government contracts to deliver and distribute products on a firm deadline. Influential leader who knows how to focus his team's attention onto a path towards success. Forward thinking strategist that looks to the future and adjusts plans to reach goals.

THE ENGINEER

A dynamic and motivated senior software engineer with a proven track record of success in designing, implementing, integrating, testing and supporting impactful applications developed for mobile, web and tablet devices on multiple platforms. Talented and innovative engineer with focused analytical skills, interpersonal strengths and a deep background in quickly assessing and solving complex design and operational issues with expertise.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

ROAD MAP

Phase 1:

- Initial DAO Idea
- Team Formation
- Whitepaper Written
- Website Launch
- Social Media Launch

Phase 3:

- NFT/Token ICO
- Coingecko Listing
- DAO Testing
- Launching "Crypto Blocks Educate"
- Influencer Ad Campaign
- NFT Utility

Phase 5:

 Community Led Growth To The Moon!

Phase 2:

- Community Telegram/
- Discord
- Token And NFT Contract Testing
- Aggressive Ad Campaign
- Project Auditing
- Coinmarketcap Partnership
- Whitelisting Event

Phase 4:

- DAO Launch
- First DAO Vote
- Token Tax/Burn Rate Established By DAO
- DAO Begins Spending Campaign
- DAO Payouts To Holders

Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
