

Cryptoxi OXI (OXI)
POLYGON ERC-20
Audit
Performed at block **10398259**

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0x910083786EcC4d3844929631239e440d71D7C615

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various Cryptocurrency projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.cryptoxi.io

Above images are actual snapshots of the current live website of the project.

Website was registered on 08/06/2021, registration expires 08/06/2024, previously 08/06/2022.

✓ This meets the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

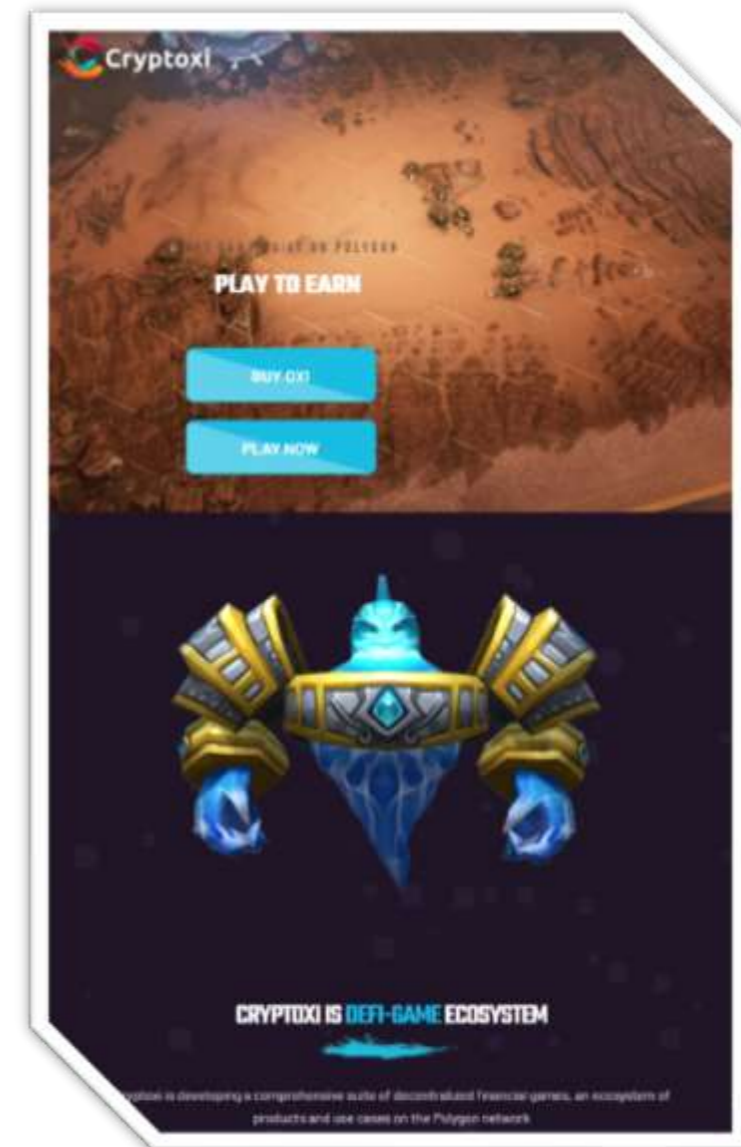

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: `cryptoxi.io`

Issued by: R3

Valid Until: 11/18/2021

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

[Contact](mailto:contact@cryptoxi.io)

`contact@cryptoxi.io`

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

ERC-20 Contract Audit – Common Vulnerabilities

```
pragma solidity ^0.8.0;
import "../openzeppelin/ERC20.sol";
import "../openzeppelin/SafeMath.sol";
import "../openzeppelin/Pausable.sol";

contract OxiToken is ERC20, Pausable {
    using SafeMath for uint256;

    address private governance;
    address private pendingGovernance;
    mapping(address => bool) public minters;

    // max amount token: 1 billion
    uint256 public cap = 1000000000 ether;

    constructor() Pausable() ERC20("OXI", "OXI") {
        governance = msg.sender;
    }

    modifier onlyGovernance() {
        require(msg.sender == governance, "OxiToken: !governance");
        _;
    }

    function setGovernance(address governance_) external virtual onlyGovernance {
        pendingGovernance = governance_;
    }

    function claimGovernance() external virtual {
        require(msg.sender == pendingGovernance, "OxiToken: !pendingGovernance");
        governance = pendingGovernance;
        delete pendingGovernance;
    }

    function addMinter(address minter_) external virtual onlyGovernance {
        minters[minter_] = true;
    }

    function removeMinter(address minter_) external virtual onlyGovernance {
        minters[minter_] = false;
    }

    function setCap(uint256 cap) external onlyGovernance {
        require(cap >= totalSupply(), "cap is below current total supply");
        cap = _cap;
    }

    /**
     * @dev Pauses all token transfers. See {Pausable-pause}.
     *
     * Requirements:
     * - the caller must be the governance.
     */
    function pause() external virtual onlyGovernance {
        _pause();
    }
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on PolygonScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram, Reddit and Discord. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Reddit](#)

[Discord](#)

✓ **At least 3 social media networks were found.**

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, Reddit and Discord. All social media channels had a healthy amount of activity.

The fee is 5% for selling and 2% for buying transactions, 10% of the total farmer's reward and a burn fee for Breeding. These fees are distributed back to the Treasury (team) and 30% of fees will be used for OXI stakers, 30% will be used for buy backs, 30% will be used for a prize pool for game play and 10% of the fees will be distributed to the team for expenses.

This project is being audited before launch. We expect many things to change post-launch. Please review the links on all the pages to make sure that the most up-to-date information is being reviewed. Dessert Finance conducts the audit at or prior to the block number written on the cover of this report.

Suggestions for Improvement

1. Update domain registration to 3+ years ✓ *Fixed*
2. Fix Javascript errors on website ✓ *Fixed*

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Potential Signs of Risk

1 YEAR DOMAIN
REGISTRATION

✓ *Fixed*

JAVASCRIPT ERRORS FOUND
ON WEBSITE

✓ *Fixed*

The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding Cryptocurrency projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR CRYPTOXI OXI (OXI). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CORRESPONDING CONTRACT ADDRESS ON BSC FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **10398259**
