

## Goodship (GOODSHIP)

BEP-20 Audit

Performed at block **7752382**

PERFORMED BY DESSERT FINANCE  
FOR CONTRACT ADDRESS: 0X1FC891697728639D959EE715FB27ED93DC320EEF

## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity (“Rug Pull”), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

# Website Part 1 – Overview

## www.goodshiptoken.com

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/12/2021, registration expires 05/12/2022.

**X** This is a possible flag. 3 years is the minimum we like to see for new projects.

**✓ Domain Registration has been increased to 3 years**

# Website Part 2 – Checklist

- ✓ Responsive
- \*X No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained one minor JavaScript error. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

*\* JavaScript Errors have been fixed*

## Website Part 3 – Responsive HTML5 & CSS3

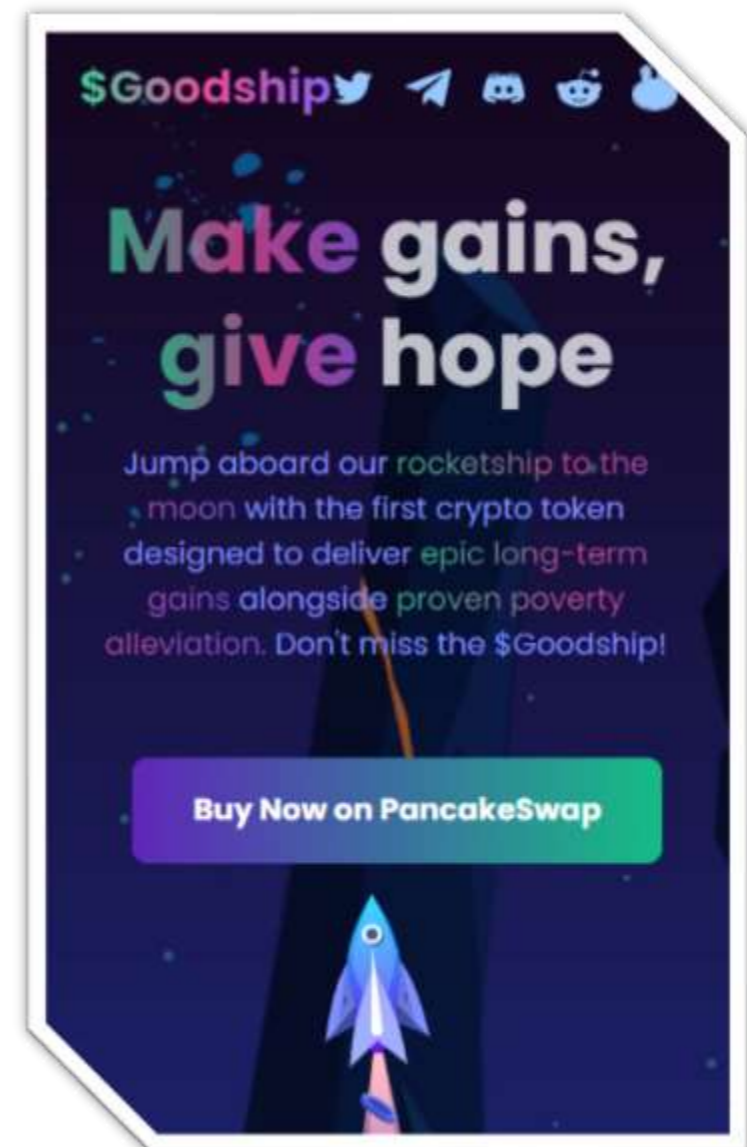

The website had no issues with the responsive check. The team has put in considerable effort into making sure the website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

One minor JavaScript error was found and shown below.

```
✖ Uncaught TypeError: Cannot read property 'offsetTop' of null  
at (index):55
```

✓ Fixed

# Website Part 4 (GWS) – General Web Security

## SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to:  
goodshiptoken.com

Issued by: R3

Valid Until: 08/10/2021

## CONTACT EMAIL

A valid contact email was not found on the official website. Contact email is listed as shown below:

Contact

# BEP-20 Contract Audit – Common Vulnerabilities

```

// ERC20 implementation as defined in EIP-20
//
// ERC20 Interface
//
// 100,000,000 total supply (100M tokens)
//
// 1% of supply held in lock by the charity (used to support operations, avoid price
// 10% of supply reserved in lock to ensure the project and give our community's issues
// there is a 10% fee on all transactions
//
// 100% of the transaction fee (10%) is automatically added to the locked liquidity pool
// 100% of the transaction fee (10%) is automatically distributed to all holders
//
// This is a fork of ERC20
//
pragma solidity ^0.4.18;
import "https://github.com/OpenZeppelin/zeppelin-contract/blob/master/contracts/ERC20.sol";

interface IERC20 {
    function totalSupply() external view returns (uint256);
    // @dev Returns the amount of tokens owned by 'owner'
    function balanceOf(address owner) external view returns (uint256);
    // @dev Returns 'amount' tokens from the caller's account to 'recipient'
    // @dev Returns a boolean value indicating whether the operation succeeded.
    // @dev Note: (recipient) must.
    function transfer(address recipient, uint256 amount) external returns (bool);
    // @dev Returns the remaining number of tokens that 'owner' still has.
    // @dev Returns the amount of tokens owned by 'owner' through transactions. This is
    // same as balanceOf.
    // @dev Note: (recipient) must.
    function allowance(address owner, address spender) external view returns (uint256);
    // @dev Returns 'amount' as the allowance of 'spender' over the caller's tokens.
    // @dev Returns a boolean value indicating whether the operation succeeded.
    // @dev Note: (spender) must.
}

```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Callstack Depth Attack
- ✓ Timestamp Dependency
- ✓ Parity Multisig Bug
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is verified on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

# Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram, Reddit, and Discord. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Reddit](#)

[Discord](#)

# Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Twitter, Telegram, Reddit, and Discord.

It is important to note that there is a 10% tax on all transactions including buys and sells. 5% is added to liquidity and 5% is automatically distributed among the token holders.

Normally we like to see charity projects request a letter from the nonprofits they have donated to sourcing them as the origin of donations. Goodship has provided a video by Joe Huston of GiveDirectly announcing the partnership which can be viewed here: [https://www.youtube.com/watch?v=1l9dDEZn-IY&t=26s&ab\\_channel=GoodshipAdmin](https://www.youtube.com/watch?v=1l9dDEZn-IY&t=26s&ab_channel=GoodshipAdmin)

## Suggestions for Improvement

1. Get contract code verified fully on BSCScan
2. Add contact email to website ✓ *Fixed*
3. Fix JavaScript error on website ✓ *Fixed*

# Top Token Holders

The top token holders at the time of the audit are shown below.

Goodship Top 100 Token Holders

Source: BscScan.com

- 1) [0x2a8d37532bea3f6aef8f0b89de02e377fda55047](#) - The largest wallet contains 7.49% of the total supply. We are notified by the team that this wallet is in no way controlled by the team.
- 2) [0x1fc891697728639d959ee715fb27ed93dc320eef](#) – the 2<sup>nd</sup> largest wallet was the PancakeSwap liquidity pool with 7.39% of the total supply.
- 3) [0xc29a7813f1a18a7c2e8c7499f3eb0278c70404cc](#) – the 3<sup>rd</sup> largest wallet contains 7.24% of the supply. We are notified by the team that this wallet is in no way controlled by the team.

## Location Audit

*We are unable to identify the primary location for the project.*

# Team Overview

Dessert Finance was able to find information on two team members on the website. The information has been added below. Dessert Finance has verified a government issued ID for the CEO.

**Christian Petroske**

CEO

[LinkedIn](#)

Hi, Christian here! I'm an entrepreneur who has founded several successful businesses, including a global software agency that scaled up to 300 engineers, and I was designated a Global Shaper by the World Economic Forum. I got my start in the nonprofit world and my heart has never left.

**Buddhika Perera**

CTO

[LinkedIn](#)

Hello, I'm Buddhika. I am an experienced technology founder who has been starting software businesses for over 12 years, including groundbreaking new technologies in virtual reality, machine learning, and voice technology. I think we should improve our home planet while exploring the universe.

# Potential Signs of Risk

NO CONTACT EMAIL ON WEBSITE

✓ *Fixed*

LARGE NON-TEAM WALLET HOLDER

PROJECT HAS COMMON USE-CASE (REFLECT TOKEN W/CHARITY)

*The above listed are the top 3 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.*

# Potential Signs of Confidence

# Roadmap

*A valid roadmap was found on the Goodship website. It has been pasted below for your convenience.*

## Phase 1 — Pre-Launch — Q2 2021

- Fair launch the \$Goodship token
- Launch website
- Launch white paper
- Launch the community
- Start partnership talks with GiveDirectly (they are pumped!)
- Hit \$1M market cap and \$25,000 in the charity wallet
- Apply for CoinGecko listing
- Grow the Goodship core team
- Conclude phase 1 of GiveDirectly partnership (talks in progress)
- Prep for marketing launch on May 21st (in progress)
- Apply for CoinMarketCap listing

## Phase 2 — Marketing Launch — Q2-3 2021

- Go public with GiveDirectly partnership and plan for use of charity wallet funds
- Grow the community (#GoodshipCrew) by ramping up marketing through all social channels (Telegram, Reddit, Discord, Twitter, TikTok, Instagram, Facebook, etc.)
- Get audited (Certik, Dessert, etc.)
- Apply for more listings on more crypto exchanges
- Launch public relations campaign to get press in media outlets of increasing size
- Launch influencer marketing (YouTube, Instagram, TikTok, etc.)
- Create UX flow, wireframes and v1 designs for *Goodship Send*, a Transferwise-like remittances platform designed to bring DeFi to the bottom billion with ultra-low fees

## Phase 3 — Goodship Send + DAO Launch — Q3 2021 - Q1 2022

- Start development on *Send*
- Finalize launch partners for *Send*
- Finalize the *Send* marketing plan
- Launch *Send* alpha version
- Improve it, and launch *Send* beta version
- Improve that, and launch *Send* to the public
- Achieve at least 1m+ transactions powered by *Send*
- Build out the Goodship DAO to allow Goodship token holders to exercise governance control over the Goodship Foundation's growing suite of products and services

## Phase 4 — Goodship Savings — Q2 2022 - Q1 2023

- Finalize launch plan and spec for *Goodship Savings*, a high-yield savings account designed to bring DeFi's high APYs to the world's poorest.
- Start development on *Savings*
- Launch *Savings* alpha version, beta version, then launch to the public
- Achieve at least \$10m in accounts under management through *Savings*

## Phase 5 — Goodship Credit — Q1 2023 - Q4 2023

- Finalize launch plan and spec for *Goodship Credit*, a microcredit platform designed to offer ultra-low-interest loans to help people in poverty level up through starting small businesses, buying livestock, and more. [Learn more about the power of microfinance here](#)
- Start development on *Credit*
- Launch *Credit* alpha version, beta version, then launch to the public
- Achieve at least \$1m loaned to people living in poverty through *Credit*

## Phase 6 — Global Expansion — Q1 2024 - Q4 2026

- Deliver Goodship products in 50+ countries
- Continually improve products based on feedback from users and the market
- Reach 1+ billion users of Goodship products & services

# Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

# Thank You
