Performed at block **7573400**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: 0X57C9487F30D04AEE52D323586EC9A23D05A1504E

## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity (“Rug Pull”), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

# Table of Contents

# Website Part 1 – Overview

[www.thehomecoin.co](http://www.thehomecoin.co)

## Website Preview & Mobile Test

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/11/2021, registration expires 05/11/2022.

**X** This is a possible flag. 3 years is the minimum we like to see on new projects.

# Website Part 2 – Checklist

- ! Responsive
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

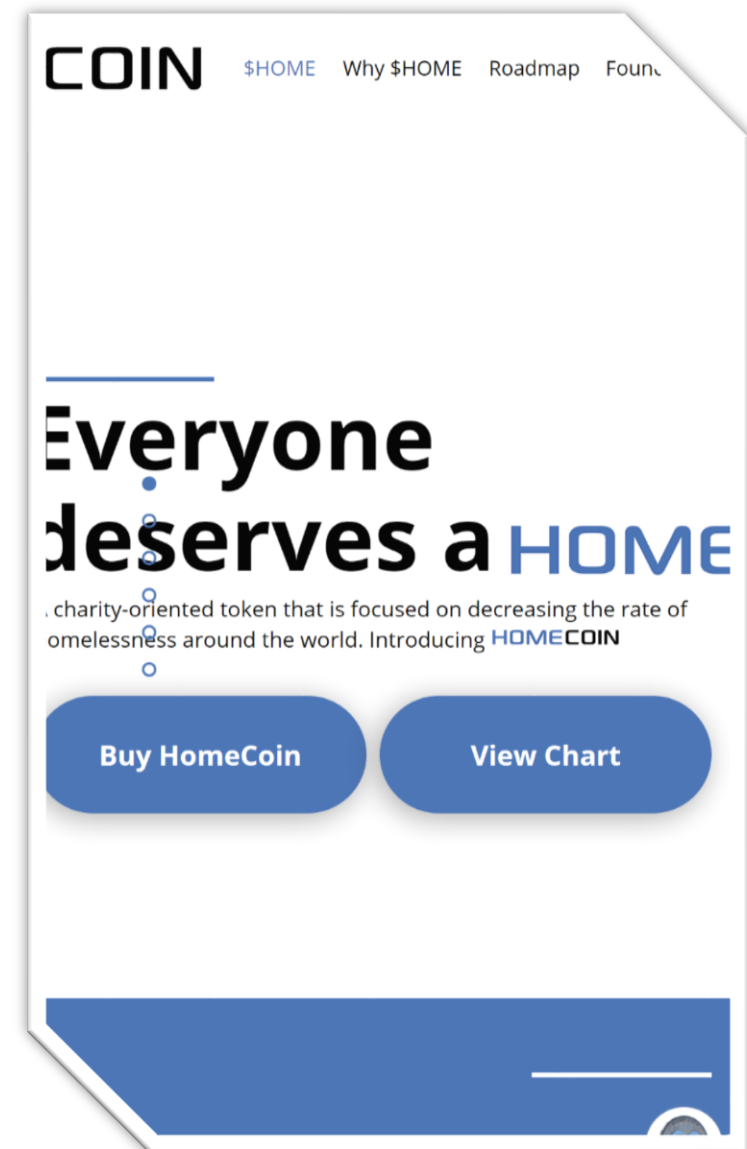

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

# Website Part 3 – Responsive HTML5 & CSS3

The website had some issues displaying on mobile. There were a few elements being cut off on browser resize as shown.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

# Website Part 4 (GWS) – General Web Security

## SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: thehomecoin.co

Issued by: Sectigo

Valid Until: 08/11/2021

## CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

**info@thecoin.com**

## SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

# BEP-20 Contract Audit – Common Vulnerabilities

```
/**
 *Submitted for verification at BscScan.com on 2021-05-16
 */
/**
 *Submitted for verification at BscScan.com on 2021-05-10
 */
pragma solidity ^0.6.12;
// SPDX-License-Identifier: Unlicensed
interface IERC20 {
    function totalSupply() external view returns (uint256);
    /**
     * @dev Returns the amount of tokens owned by 'account'.
     */
    function balanceOf(address account) external view returns (uint256);
    /**
     * @dev Moves 'amount' tokens from the caller's account to 'recipient'.
     * Returns a boolean value indicating whether the operation succeeded.
     * Emits a {Transfer} event.
     */
    function transfer(address recipient, uint256 amount) external returns (bool);
    /**
     * @dev Returns the remaining number of tokens that 'spender' will be
     * allowed to spend on behalf of 'owner' through {transferFrom}. This is
     * zero by default.
     * This value changes when {approve} or {transferFrom} are called.
     */
    function allowance(address owner, address spender) external view returns (uint256);
    /**
     * @dev Sets 'amount' as the allowance of 'spender' over the caller's tokens.
     * Returns a boolean value indicating whether the operation succeeded.
     * IMPORTANT: Beware that changing an allowance with this method brings the risk
     * that someone may use both the old and the new allowance by unfortunate
     * transaction ordering. One possible solution to mitigate this race
     * condition is to first reduce the spender's allowance to 0 and set the
     * desired value afterwards:
     * https://github.com/ethereum/EIPs/issues/20#issuecomment-263524729
     * Emits an {Approval} event.
     */
    function approve(address spender, uint256 amount) external returns (bool);
    /**
     * @dev Moves 'amount' tokens from 'sender' to 'recipient' using the
     * allowance mechanism. 'amount' is then deducted from the caller's
     * allowance.
     * Returns a boolean value indicating whether the operation succeeded.
     */
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Callstack Depth Attack
- ✓ Timestamp Dependency
- ✓ Parity Multisig Bug
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is verified on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

# Social Media

We were able to locate a vast variety of Social Media networks for the project including Twitter, Telegram, Twitch, Reddit, Discord, Facebook, Instagram, and Youtube. All links have been conveniently placed below.

# Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Twitter, Telegram, Twitch, Reddit, Discord, Facebook, Instagram, and YouTube were found.

It is important to note that there is an 10% tax on EVERY transaction including buys and sells. 5% goes to liquidity, and 5% is distributed to the token holders.

As this is a project with a charity aspect, we would like to see a letter from a charity providing proof of origination of donations made as an added layer of transparency to let users know that their money is going where it should. At this time we have no reason to suspect any misuse of funds, this is simply suggested best practices for cryptocurrencies with charity aspects.

## Suggestions for Improvement

1. Update domain registration length to 3+ years
2. Consider obtaining proof of origination of funds from a charity for added trust
3. Fix website loading on mobile devices/smaller browsers

# Top Token Holders

The top token holders at the time of the audit are shown below.

At the time of audit, the top 3 holders were the burn address (35.18% - tokens removed from circulation forever), Liquidity Pool (11.3%), and the charity and marketing wallet (5.14%).

## Location Audit

*We have identified the primary location of the project to be in Toronto, Canada based on the website*

# Team Overview

The team has self doxxed and provided a link to a video where they show their faces on the homepage of their website:

<https://www.youtube.com/watch?v=RjOdcP3in38>

# Potential Signs of Risk

DOMAIN REGISTRATION  
LENGTH

RECEIVE PROOF OF DONATIONS  
(EXPECTED SOON)

PROJECT HAS COMMON USE-CASE  
(REFLECT TOKEN W/CHARITY)

*The above listed are the top 3 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.*

# Potential Signs of Confidence

1

TIMELY REPLIES TO  
QUESTIONS ASKED BY  
DESSERT FINANCE

2

TX FEES ARE TRANSPARENT

3

MANY SOCIAL MEDIA  
PLATFORMS

4

CONTRACT CODE IS PUBLISHED  
AND VERIFIED ON BSCSCAN

5

SSL CERTIFICATE WAS  
FOUND AND VALID

6

TEAM HAS PUBLICLY DOXXED

*The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.*

# Roadmap

*A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.*

## Roadmap

As HomeCoin progresses and grows, we will be adjusting this roadmap to stay up to date with the needs and wants of our community. We would love to hear ideas and suggestions from you as this is our coin. Everyone should have a say.

### Q2 2021

#### May

- ✓ SHOME Launch
- ✓ Audit Results
- ✓ First AMA (DevDox)
- ✓ Community Giveaways
  - Community Contests
  - First Donation (Live streamed)
  - Whitebit Listing
  - CoinGecko Listing
  - Influencer Marketing

#### June

- Marketing Budget Increased
- More community Contests and Giveaways
- Blockfolio Listing
- Hotbit Exchange Listing
- CMC Listing
- Merch Release
- Partnerships
- Youtube vlogs
- First set of NFT's

Nothing is perfect in this world, and neither are we. The team is working diligently on the project and we ask that you be understanding and patient as we attempt to make a tremendous change in the world.

The HomeCoin team is focused on making a solid foundation first instead of "pumping" and marketing without a clear target. That way we have a chance to grow bigger. Slow and steady wins the race, and we believe that this strategy will place us above other coins in the market. Our team will be working day and night on many great things to come your way, with a motivated community supporting us.

We will start marketing later than most tokens will since we believe that building a community which shares the same goals as a foundation is more important than focusing only on the price of our token at first. We will do everything we can on our end to get this going, but we need your help!

### Q3 2021

#### July

- Development of HomeCoin Shelter
- More NFT's
- Bigger Partnerships
- Coming Soon.

# Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

# Thank You
