BEP-20 Audit

Performed at block **13165300**

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: Repository Audited

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

DessertDoxxed

DessertDoxxed is a service offered by Dessert Finance that allows projects to do a private face reveal matched with an I.D to allow founders / team members to privately Doxx themselves to Dessert Finance. This allows an added layer of security to the projects team but also allows an added layer of confident to project supporters.

✓ The founder of this project has been DessertDoxxed

The contract code is **not verified** on BSCScan.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version	Complete	Complete	✓ Low / No Risk
Integer Overflow	Complete	Complete	✓ Low / No Risk
Integer Underflow	Complete	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility (x1)	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is **not verified** on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Mint Functions

This Contract Cannot Mint New Igni Finance Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees (“tax”) listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

Fees

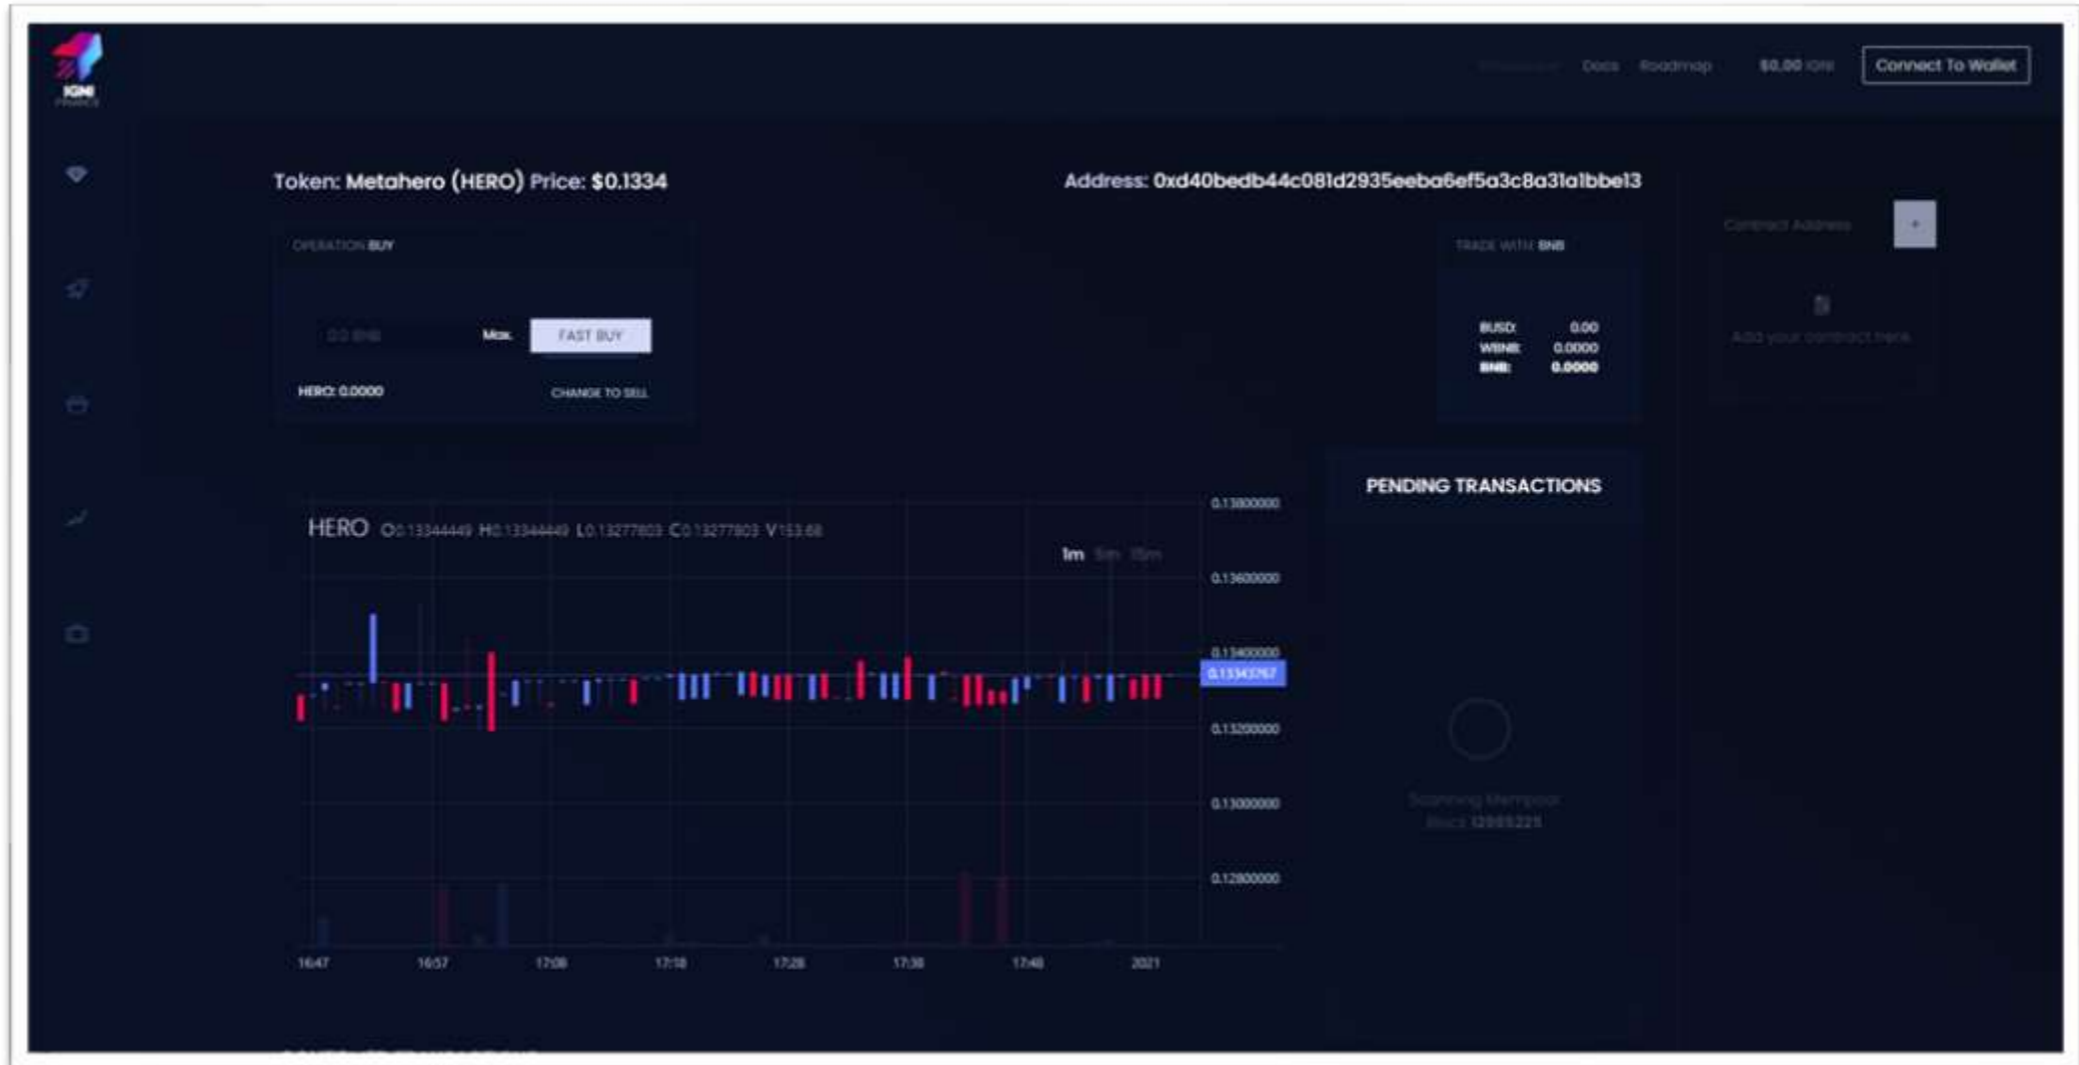

We believe that high fees keep investors away and this is a big problem, but we know how they can be essential for developing more utilities for the entire ecosystem and for holders. With this in mind, we planned a light fee system, which will be of great use to the entire community:

Total Buy/Sell Fee: **3.5%**

Fee %	Destination
0.25%	Liquidity
0.50%	Burn
1.25%	Marketing / Operation
1.50%	Community Funds

Website Part 1 – Overview

www.igni.finance

Above images are actual snapshots of the current live website of the project.

Website was registered on 09/23/2021, registration expires 09/23/2025.

✓ This exceeds the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: *igni.finance

Issued by: R3

Valid Until: 02/14/2022

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

info@igni.finance

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Instagram](#)

[Facebook](#)

✓ **At least 3 social media networks were found.**

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Q3 2021	
Conception of the initial project	<input checked="" type="checkbox"/>
Definition of mission, objectives, and long-term values	<input checked="" type="checkbox"/>
Hiring the initial team	<input checked="" type="checkbox"/>
Development of visual identity	<input checked="" type="checkbox"/>
Detailed project execution	<input checked="" type="checkbox"/>
Initial dAPP UX sketch	<input checked="" type="checkbox"/>
Initial draft of NFTs	<input checked="" type="checkbox"/>

Q4 2021	
Design of the 8 ecosystem smart contracts	<input checked="" type="checkbox"/>
Creation of the unit tests	<input checked="" type="checkbox"/>
Beta version of the trading platform	<input checked="" type="checkbox"/>
Development Marketplace NFT (dApp)	<input checked="" type="checkbox"/>
Launchpad Development (dApp)	<input checked="" type="checkbox"/>
Development of NFT Stake and Token (dApp)	<input checked="" type="checkbox"/>
NFT Mint Platform (dApp)	<input checked="" type="checkbox"/>
Start pre-launch marketing	<input type="checkbox"/>
Mint Period NFT / Initial Token Offering (ITO BEP721)	<input type="checkbox"/>
New product frontend	<input type="checkbox"/>
CERTIK audit on contracts BEP 20 and 721	<input type="checkbox"/>
Public Pre Sale and Listing - Initial Token Offering (ITO BEP20)	<input type="checkbox"/>
Open Community Investment Funds (beta)	<input type="checkbox"/>

Q1 2022	
First stable version of high-performance trading platform	<input type="checkbox"/>
Start of permanent community funds operation	<input type="checkbox"/>
Portal discovery and exploration of new tokens	<input type="checkbox"/>
Android and IOS applications	<input type="checkbox"/>
Listings on CEXs	<input type="checkbox"/>
Module that protects your investments against RUG and liquidity theft	<input type="checkbox"/>
Automated buying and selling based on events and blockchain metrics	<input type="checkbox"/>
Limit and stop orders	<input type="checkbox"/>
Dashboard with rankings of the best traders on the platform	<input type="checkbox"/>
Blog geared towards increasing organic search engine marketing	<input type="checkbox"/>
dApp upgrade to new version	<input type="checkbox"/>

Q4 2022	
Trader community with signals and clubs, using the NFTs as a unique identification Trader community with the possibility of private posts, signals, and clubs, using the NFTs as a unique identification	<input type="checkbox"/>
Strategic partnerships for insertion into the metaverse	<input type="checkbox"/>
New decentralized financial services	<input type="checkbox"/>

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR IGNI FINANCE 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **13165300**
