ERC-20 Audit

Performed at block **7811944**

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0X1681BCB589B3CFCF0C0616B0CE9B19B240643DC1

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity (“Rug Pull”), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.islandcoin.rocks

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/03/2021, registration expires 05/03/2024.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Responsive
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the responsive check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: islandcoin.rocks

Issued by: R3

Valid Until: 07/31/2021

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

ERC-20 Contract Audit – Common Vulnerabilities

```
Submitted for verification on Etherscan.io on 2021-06-24
//
pragma solidity 0.8.0;
// ERC-20 Name: Identicon - Identicon

//
// This contract implements the ERC-20 interface, including the
// number of the transaction and its data. While these are generally available
// via msg.sender and msg.data, they should not be accessed in any a direct
// manner. When using msg.sender and msg.data, the account sending the
// message for verification may not be the actual sender (as far as an application
// is concerned).
//
// This contract is only required for intermediate, library-like contracts.
abstract contract Context {
    function _msgSender() internal view virtual returns (address) {
        return msg.sender;
    }

    function _msgData() internal view virtual returns (bytes calldata) {
        return msg.data;
    }
}

interface IERC20 {
    // Returns the amount of tokens in existence.
    function totalSupply() external view returns (uint256);

    // Returns the amount of tokens owned by 'account'.
    function balanceOf(address account) external view returns (uint256);

    // Returns 'amount' tokens from the caller's account to 'recipient'.
    // Returns a boolean value indicating whether the operation succeeded.
    // Sets a {transfer} event.
    function transfer(address recipient, uint256 amount) external returns (bool);

    // Returns the remaining number of tokens that 'spender' will be
    // allowed to spend on behalf of 'owner' through {transferFrom}. This is
    // zero by default.
    // This value changes when {approve} or {transferFrom} are called.
    function allowance(address owner, address spender) external view returns (uint256);
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Callstack Depth Attack
- ✓ Timestamp Dependency
- ✓ Parity Multisig Bug
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is verified on Etherscan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate 3 Social Media networks for the project including Twitter, Telegram, and Reddit. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Reddit](#)

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down 3 social media channels for the project. Social Media channels included Twitter, Telegram, and Reddit. All social media channels had a healthy amount of activity. We would like the team to consider adding at least 1 additional social media platform such as Medium.

It is important to note that there is an 11% tax on EVERY transaction including buys and sells. 5% goes to a pool to be burned every Friday, 1% goes to marketing expenses, and 5% accrues to SAND events.

What is SAND?

Sand is a distribution/disbursement method of rewarding token holders. Every time the SAND wallet reaches 40 trillion tokens, disbursement will commence as following:

1. 20 Trillion ISLE is distributed among 100 RANDOM wallets holding 100 million ISLE or more.
2. 10 Trillion ISLE is distributed among the remaining holders.
3. 10 Trillion ISLE is rolled into the next SAND event.

Suggestions for improvement:

1. Consider adding another social media platform
2. Update domain registration to 3+ years

Top Token Holders

The top token holders at the time of the audit are shown below.

- 1) 0xbdafa15af189556b61dc0a9b7a0ae0d60a4bebe69 (3.33% of supply) – The team has stated that they have no affiliation with this wallet.
- 2) 0xe3844798d265a064d66575894013d85f091c41d5 (2.77% of supply) - The team has stated that they have no affiliation with this wallet.
- 3) 0xa952b577a51330b40dd456972dd3c7c3281d3616 (2.66% of supply) - The team has stated that they have no affiliation with this wallet.

Location Audit

The primary project location is unknown at this time.

Team Overview

We were unable to find team information at this time. Teams may decide to stay anonymous for a number of reasons.

Potential Signs of Risk

ONLY 1 YEAR
REGISTRATION

LIMITED SOCIAL MEDIA PLATFORMS

PROJECT HAS COMMON USE-CASE

The above listed are the top 3 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

TEAM HAS BEEN VERY RESPONSIVE IN ADDRESSING QUESTIONS

2

TEAM REACHED OUT FOR ASSISTANCE PRIOR TO MAINNET DEPLOYMENT

3

HIGH COST OF DEPLOYMENT ON ETHEREUM

4

CONTRACT CODE IS PUBLISHED AND VERIFIED ON ETHERSCAN

5

SSL CERTIFICATE WAS FOUND AND VALID

6

TX FEES ARE TRANSPARENT

The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Roadmap

Phase 1: Lanai	Phase 2: Fiji	Phase 3: Maldives
<ul style="list-style-type: none">• Mint \$ISLE (COMPLETE)• Celebrate our first burn event• Celebrate our first SAND disbursement (COMPLETE)• Lock liquidity pool (COMPLETE)• Complete audit• Renounce developer wallet• Grow hodlers to 1,000 (COMPLETE)• \$5M market cap (COMPLETE)	<ul style="list-style-type: none">• CoinGecko listing (COMPLETE)• CoinMarketCap listing (COMPLETE)• Marketing campaign• Grow hodlers to 10,000• \$25M market cap	<ul style="list-style-type: none">• WhiteBIT CEX listing• Grow hodlers to 25,000• \$250M market Cap

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR ISLAND (ISLE). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CORRESPONDING BSC CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **7811944**
