INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

BEP-20 Contract Audit – Common Vulnerabilities

The contract code is verified on BSCScan.

Common vulnerabilities were not found in the token’s Smart Contract as shown above.

The code in its entirety can be viewed here.
We were able to locate a variety of Social Media networks for the project including Twitter, Telegram and Instagram. All links have been conveniently placed below.
Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram and Instagram. All social media channels had a healthy amount of activity.

It is important to note that there is a 14% tax on EVERY transaction including buys and sells, sells also have an additional 1% tax to disincentivize selling. 3% goes to providing liquidity, 7% is distributed to the token holders in $CAKE and 5% is distributed to the team for marketing purposes.

As this token has not officially launched we expect many things on the website and social media to change, this is extremely common with newly launched projects as they work through improvements.

Suggestions for Improvement

1. Update domain registration to 3+ years ✓Fixed
Top Token Holders

The majority of the supply was in one wallet at the time of audit. We expect this to change as the different phases of distribution occur. Please use the link below to view the latest list.
