BEP-20 Audit

Performed at block 15039577

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0xd570a15C34021a92690b85660a25Ced45C5278c9

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

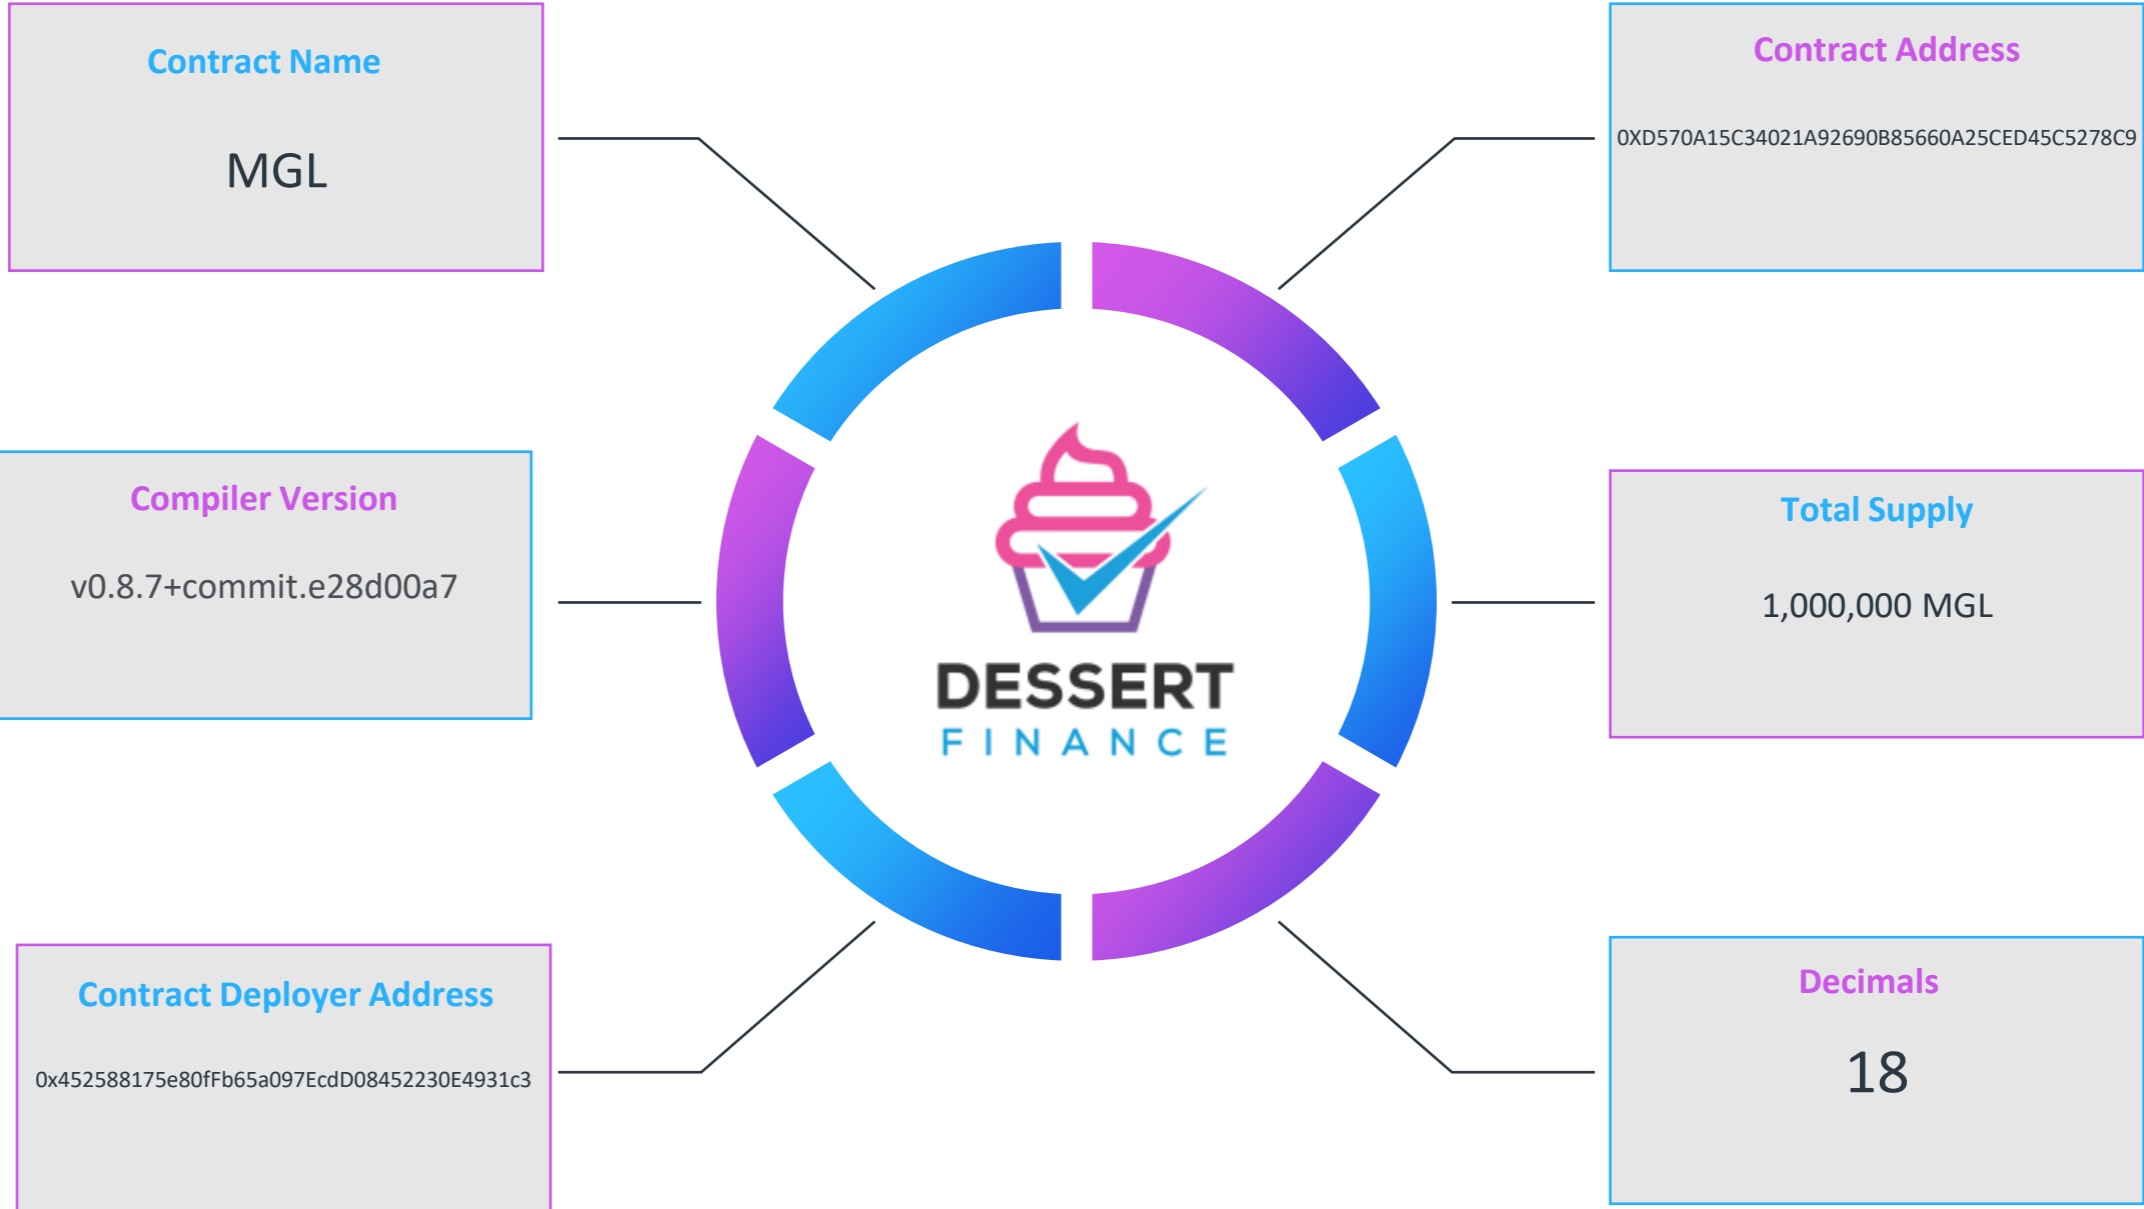

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

Contract Code Audit – Token Overview

BEP-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on Meta Game Launcher (MGL)

```
pragma solidity ^0.8.0;
import './BEP20.sol';
import './SafeMath.sol';
import './Context.sol';
import './Ownable.sol';
import './IPancakeswapV2Factory.sol';
import './IPancakeswapV2Router01.sol';

contract MGL is Context, IBEP20, Ownable {

    using SafeMath for uint256;

    bool _isSwapAndLiquify;
    bool public swapAndLiquifyEnabled = false;

    address public teamAddr;
    address public airdropAddr;
    address public ecoFundAddr;
    address public partnersAddr;
    address public offPoolAddr;
    address public proSaleAddr;

    mapping (address => uint256) private _balances;
    mapping (address => mapping (address => uint256)) private _allowances;

    mapping (address => bool) private _isExcludedFromFee;

    mapping (address => bool) isGuard;

    uint256 private _total = 100 * 10**4 * 10**18;
    uint256 private constant MAX = ~uint256(0);

    string private _name = "Meta Game Launcher";

    string private _symbol = "MGL";
    uint8 private _decimals = 18;

    uint256 public _mintPoolFee = 0;
    uint256 private _previousMintPoolFee = _mintPoolFee;
    IPancakeswapV2Router01 public pancakeswapV2Router;
    address public pancakeswapV2Pair;

    uint256 public _maxTxAmount = 100 * 10**4 * 10**18;

    uint256 private lastSwapTime;
    mapping(address => uint256) private lastTxTimes;

    event SwapAndLiquifyEnabled(bool enabled);
    event SwapAndLiquify(
        uint256 tokensSwapped,
        uint256 ethReceived,
        uint256 tokensTotalLiquidity
    );
}
```

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version	Complete	Complete	✓ Low / No Risk
Integer Overflow	Complete	Complete	✓ Low / No Risk
Integer Underflow	Complete	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility (x2)	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is verified on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Contract Ownership

Contract Ownership has not been renounced at the time of Audit

The contract ownership is not currently renounced.

We have placed the contract owner address below for your viewing:

[0x452588175e80ffb65a097ecdd08452230e4931c3](https://www.etherbase.net/etherbase-token/contract-ownership)

The address above has authority over the ownable functions within the contract.

This allows the owner to call certain functions within the contract. Any compromise to the owner wallet may allow these privileges to be exploited.

We recommend:

- Establishing a Time-Lock with reasonable latency
- Assignment of privileged roles to multi-signature wallets

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
excludeFromFee	address account	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
includeInFee	address account	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setFees	uint256 mintPoolFee	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setMaxTxAmount	uint256 maxTxAmount	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setSwapAndLiquifyEnabled	bool _enabled	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setGuard	address addr, bool defend	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setAddr	address _teamAddr, address _airdropAddr, address _ecoFundAddr, address _partnersAddr, address _nftPoolAddr, address _preSaleAddr	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
renounceOwnership		public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
transferOwnership	address newOwner	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
lock	uint256 time	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The functions listed above can be called by the contract owner.

If contract ownership has been renounced there is no way for the above listed functions to be called.

Liquidity Ownership – Locked / Unlocked

No locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information. Locked liquidity information was not found on the project's website.

Contract Code Audit – Mint Functions

This Contract Cannot Mint New MGL Tokens.

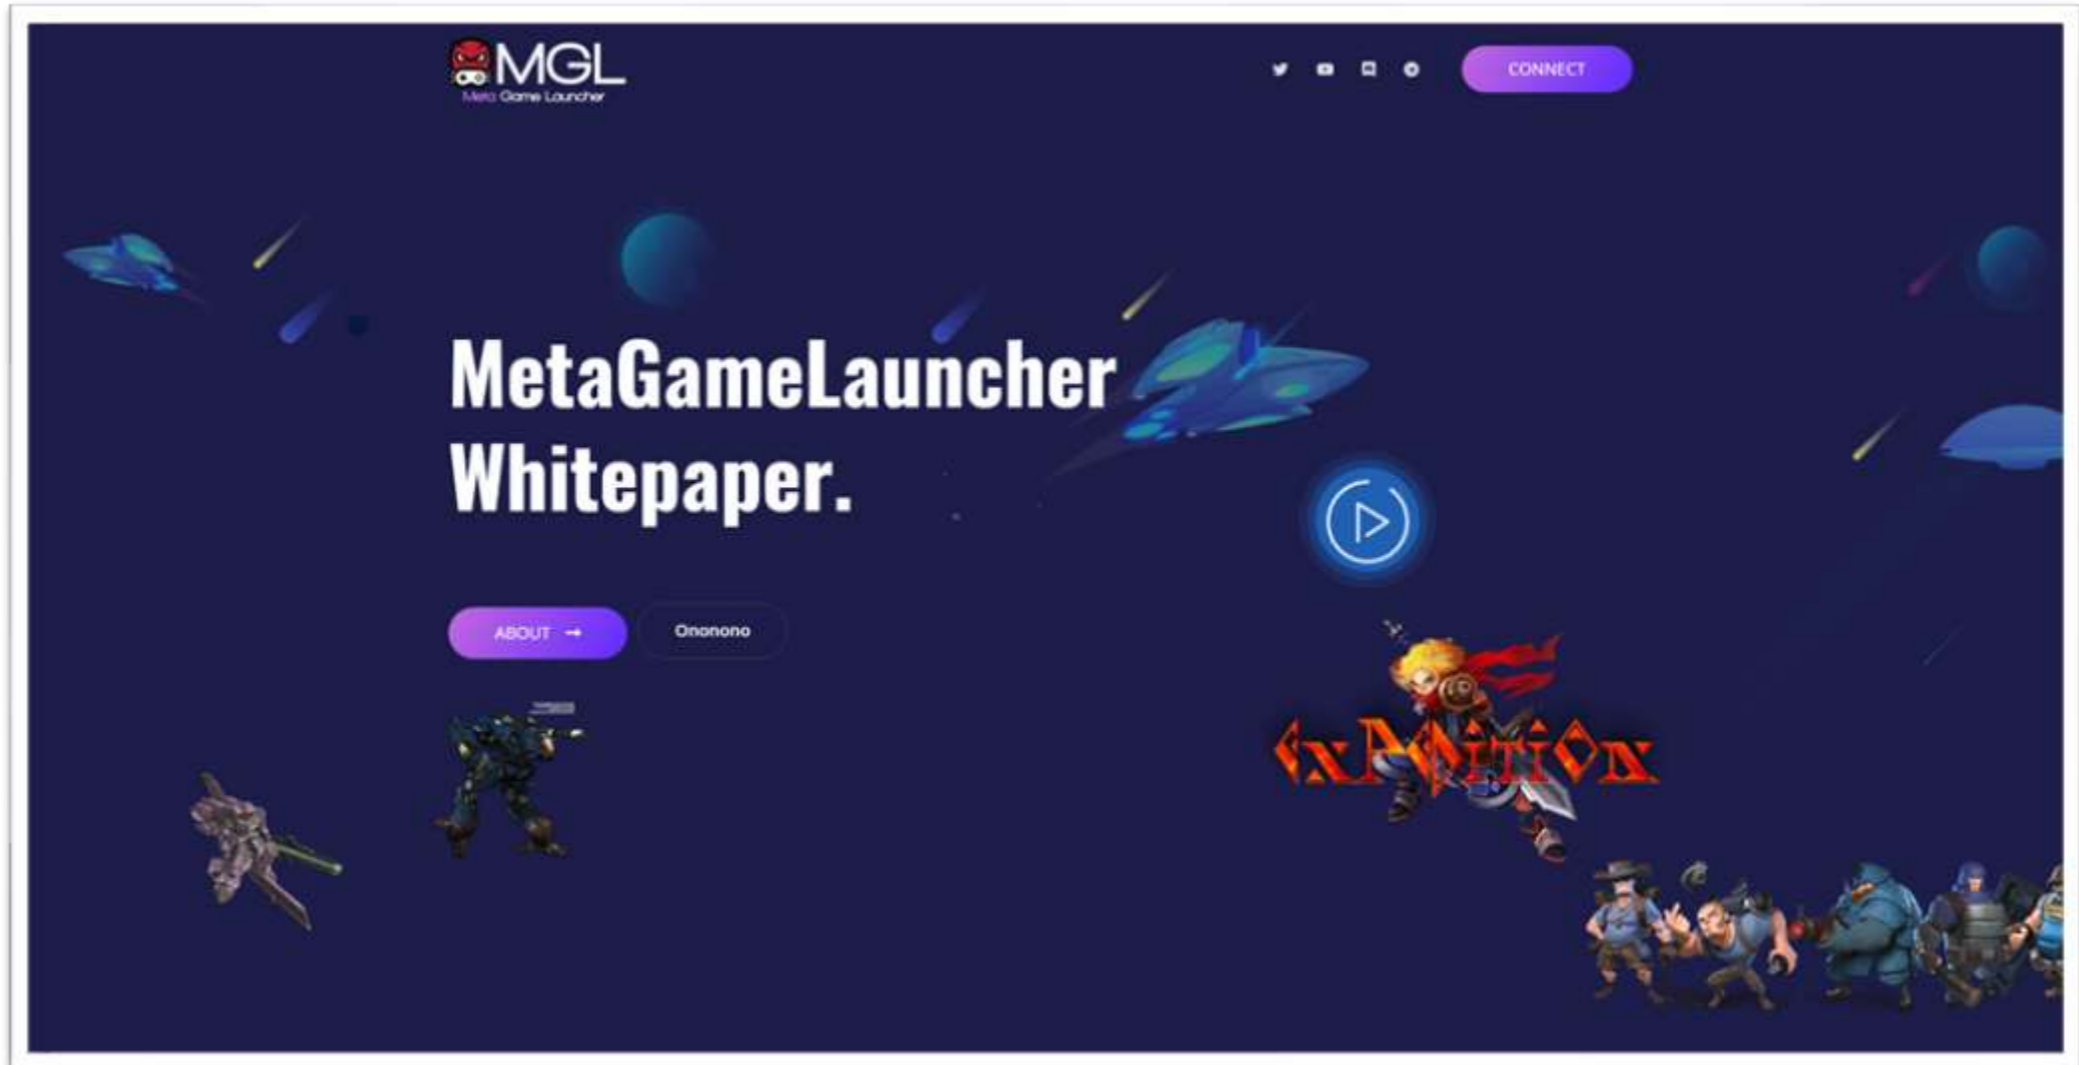

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Website Part 1 – Overview

www.mglauncher.com

Above images are actual snapshots of the current live website of the project.

Website was registered on 0122/2022, registration expires 01/22/2023.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✗ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained some JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

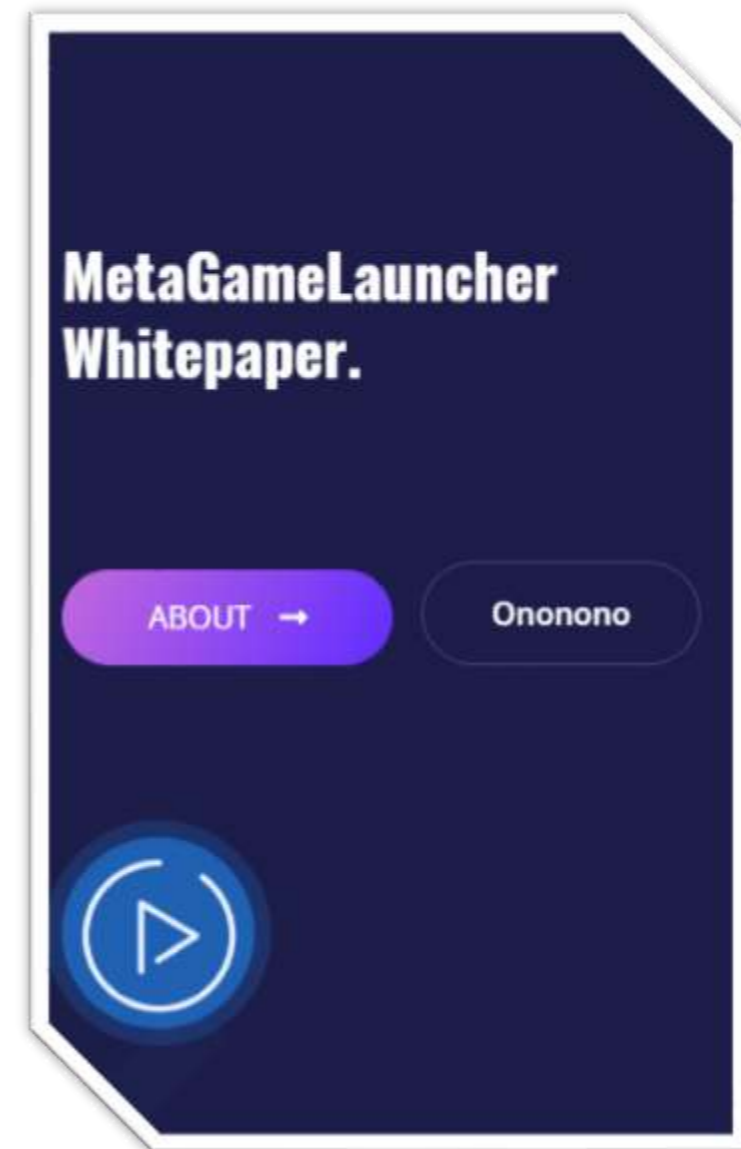

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

Some JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: mglauncher.com

Issued by: SSL.com

Valid Until: 01/22/2023

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

N/A

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Reddit](#)

✓ **At least 3 social media networks were found.**

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Phase 1

- Audit Contract
- Deploy website and functional blocks
- Test Web-side MGLCEX, MGLMC
- Smart Contract build
- Launch an open social platform
- MGF1 internal test round two
- Arca Pirate League beta game released
- Private Sale
- Battle of Zeus beta game released
- Liquidity on Pancakeswap
- Playtest feedback
- Start a financial platform and platform social network
- MGL Platform Marketing
- Publish community financial rewards
- Startup bonus pool and fund pool
- Listing on CoinMarketCap / CoinGecko
- Launch MGL NFT internal trading market
- Reorganize the game development team

Phase 2

- Game Finance Closed-Loop Test
- MGLM MGLG official version released
- MGF1 Social Finance Launch
- Release the official version of MGLCEX
- Launch MGLMC
- Launch MGL NFT sale
- Metaverse Social Finance Test
- DAO and ATI rewards
- Investor Agreement Dividend Incentive
- MGLM MGLD MGLL Gaming System
- CEX Listing
- ETF Internal Listing
- MGL platform financial, social and game system officially established
- Landing and ETF Funding

Phase 3

- MGLCEX, MGLMC funds reach \$500,000,000
- MGF1 user scale reaches 350,000
- Social Feedback at Scale
- Social Scenario Application Test
- Gaming Fund Pool Expands
- The scale of pledge funds of financial platforms
- NFT Prospects for MGL Platform Games
- Investor 35% Season Dividend

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
