

**Not Another Shit Altcoin
(NASA)**
BEP-20 Audit
Performed at block **8357731**

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0X70CF8D40A3D0F7BC88077BA7D103050D0001A653

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity (“Rug Pull”), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

<https://www.nasatoken.net/>

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/12/2021, registration expires 05/12/2022.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Responsive
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the responsive check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: nasatoken.net

Issued by: Sectigo RSA

Valid Until: 08/10/2021

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

[Contact](mailto:contact@nasatoken.net)

contact@nasatoken.net

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

BEP-20 Contract Audit – Common Vulnerabilities

```
/**
 *Submitted for verification at BscScan.com on 2021-06-05
 */
/**
 *Submitted for verification at BscScan.com on 2021-05-14
 */
pragma solidity 0.6.12;
// SPDX-License-Identifier: Unlicensed
interface IERC20 {
    function totalSupply() external view returns (uint256);
    /**
     * @dev Returns the amount of tokens owned by 'account'.
     */
    function balanceOf(address account) external view returns (uint256);
    /**
     * @dev Move 'amount' tokens from the caller's account to 'recipient'.
     * Returns a boolean value indicating whether the operation succeeded.
     * Emits a {Transfer} event.
     */
    function transfer(address recipient, uint256 amount) external returns (bool);
    /**
     * @dev Returns the remaining number of tokens that 'spender' will be
     * allowed to spend on behalf of 'owner' through {transferFrom}. This is
     * zero by default.
     * This value changes when {approve} or {transferFrom} are called.
     */
    function allowance(address owner, address spender) external view returns (uint256);
    /**
     * @dev Sets 'amount' as the allowance of 'spender' over the caller's tokens.
     * Returns a boolean value indicating whether the operation succeeded.
     * IMPORTANT: Beware that changing an allowance with this method brings the risk
     * that someone may use both the old and the new allowance by unfortunate
     * transaction ordering. One possible solution to mitigate this race
     * condition is to first reduce the spender's allowance to 0 and set the
     * desired value afterwards.

- ✓ Callstack Depth Attack
- ✓ Timestamp Dependency
- ✓ Parity Multisig Bug
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram, Tiktok, Reddit, Discord, and Instagram. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Tiktok](#)

[Reddit](#)

[Discord](#)

[Instagram](#)

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, Tiktok, Reddit, Discord, and Instagram. All social media channels had a healthy amount of activity.

It is important to note that there is an 10% tax on EVERY transaction including buys and sells. 5% goes to providing liquidity, and 5% is distributed to the token holders.

We were able to find missing or broken links in the footer for the following:

- 1) How to buy
- 2) Whitepaper
- 3) Branding

Suggestions for Improvement

1. Fix broken links on homepage footer.
2. Update domain registration to 3+ years

Top Token Holders

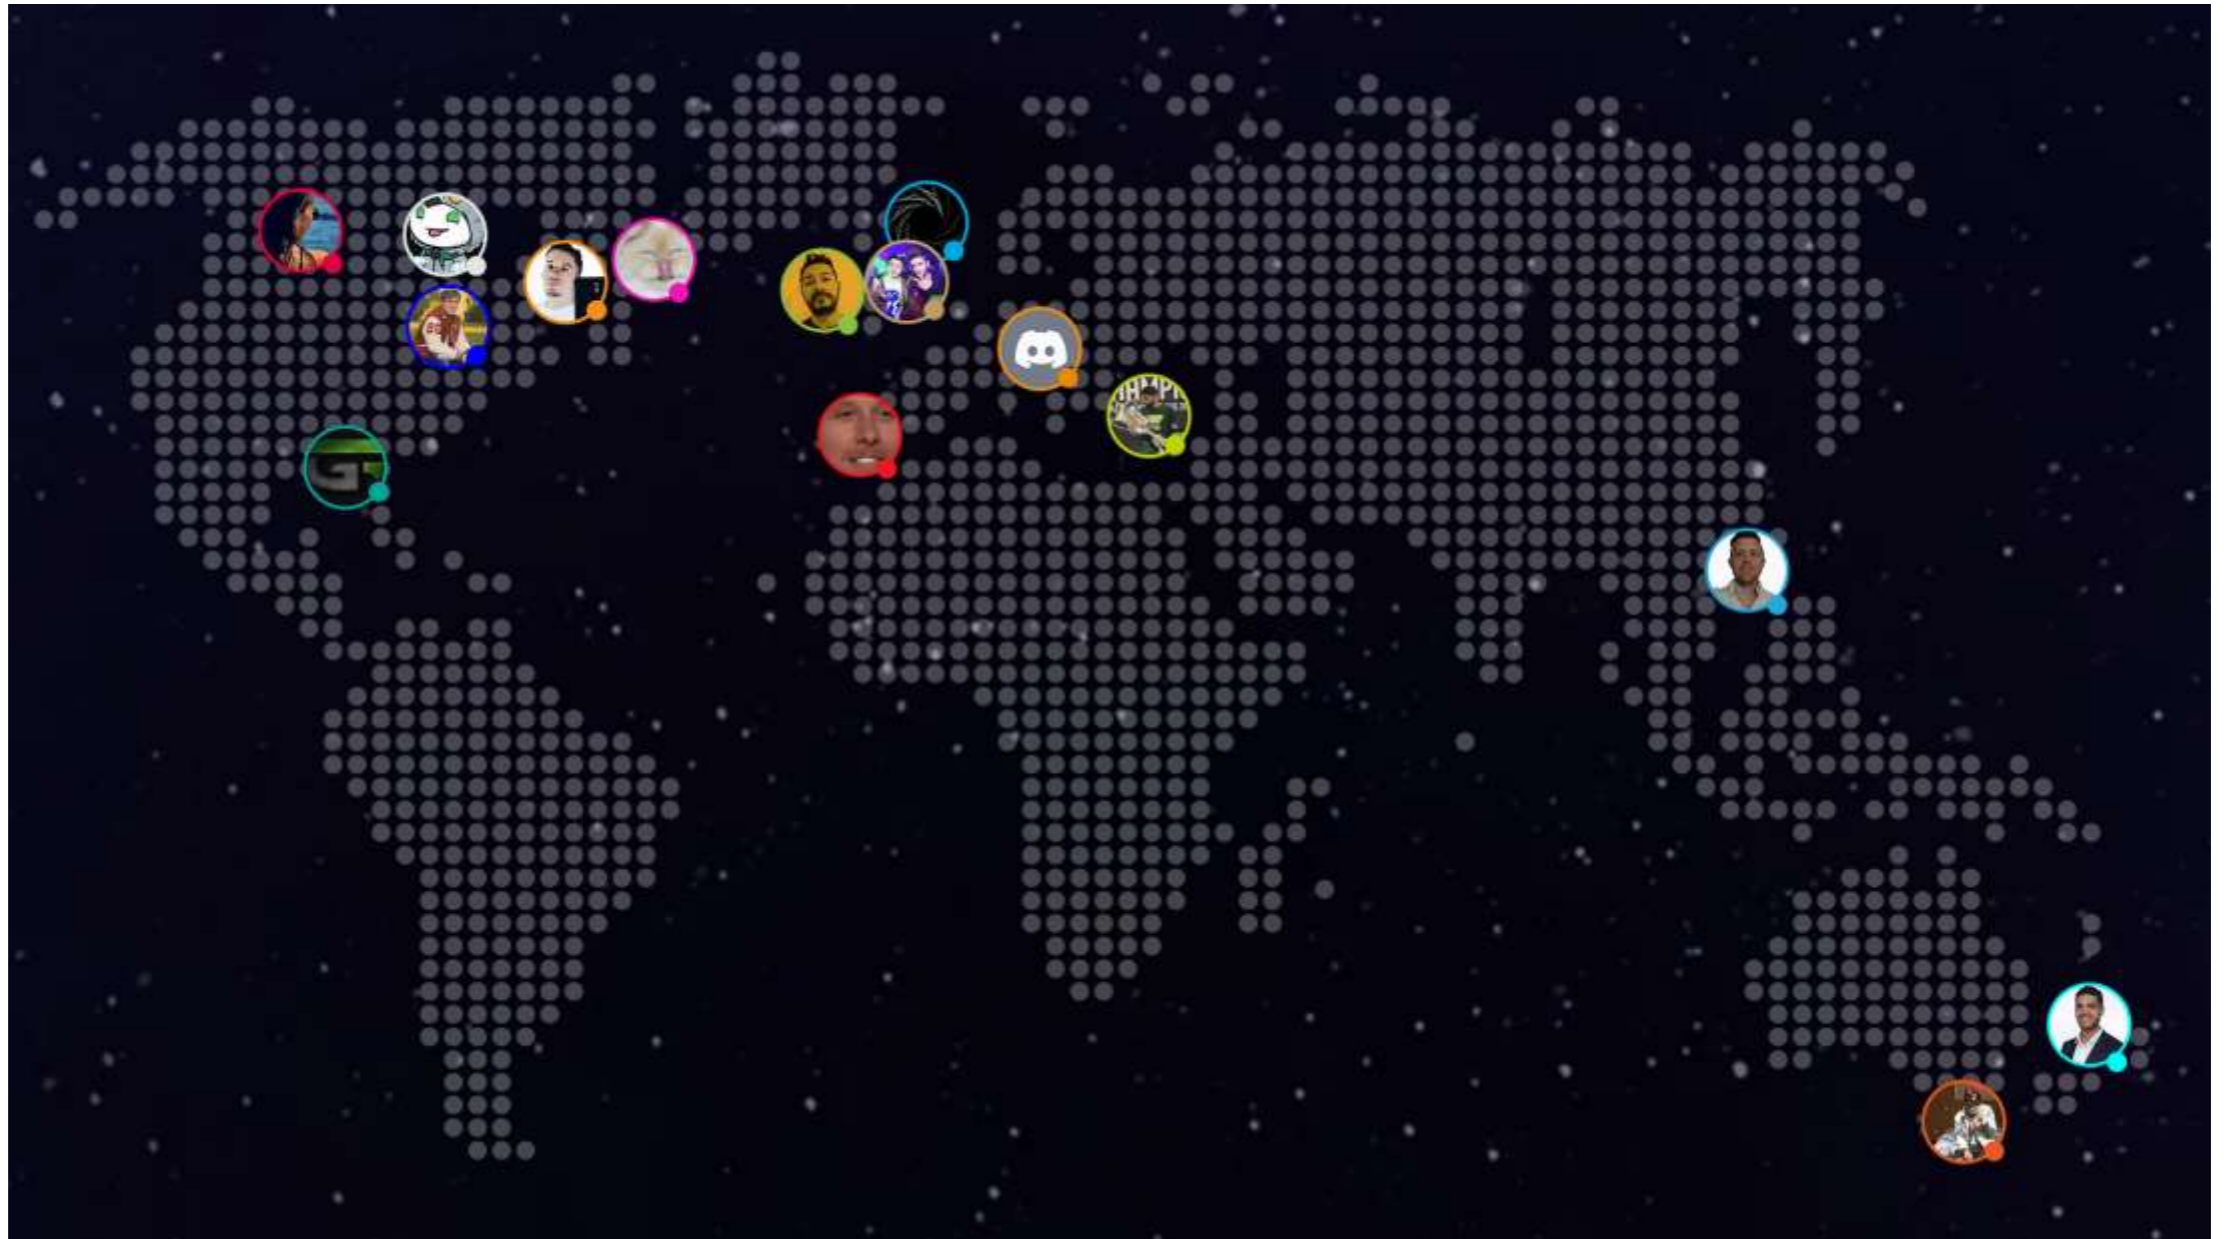

The top token holders at the time of the audit are shown below.

1. [PancakeSwap V2: NASA 26](#)— the top token holder was the PancakeSwap liquidity pool holding 20.2% of the total supply.
2. [Burn Address](#)— the 2nd largest holder was the burn address containing 5.4% of the supply. These tokens are removed from circulation forever.
3. [0xb9674382d5ef5264a6f65b5216e48d5dcf65d66a](#)— the 3rd largest holder was a wallet containing 5.1% of the supply. We have confirmed with the team that this is a marketing and development wallet.

Location Audit

The team is a global team with locations in New Zealand, UK, Portugal, The United States, Canada, Australia, Ireland and Canada

Team Overview

We were able to find detailed team information on the website.

✓ Dessert Finance has a government issued ID on file for the founder.

<p>● Founder CEO Jesse Heather - @essey_nz Auckland, New Zealand Linkedin</p>	<p>● Application Dev Reuben - @ltzreuben Wolverhampton, United Kingdom</p>	<p>● Art Development Gara - @Samegaradin Porto, Portugal</p>	<p>● Community Director Sean - @Spoony Muskegon, MI, US Instagram</p>

Potential Signs of Risk

1 YEAR DOMAIN REGISTRATION

PROJECT HAS COMMON USE-CASE
(REFLECT TOKEN)

The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

TEAM HAS BEEN VERY
RESPONSIVE IN
ADDRESSING QUESTIONS

2

TRANSPARENT FEE STRUCTURE

3

TEAM IS PUBLIC

4

GOVERNMENT ISSUED ID ON FILE
FOR FOUNDER

5

SSL CERTIFICATE WAS
FOUND AND VALID

6

ACTIVE SOCIAL MEDIA PRESENCE

The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

ROADMAP

WHAT'S COMING UP IN 2021/22

Q3 2021

This point in time marks the start of something truly amazing - the birth of \$NASA. Marketing efforts will be in full force as we attempt to make a name for ourselves within a market saturated with shitcoins. No stone will be left unturned as we start our rigorous marketing and advertising campaign.

As demand continues to rise we will begin liaising with exchanges in order to facilitate our growth.

Development on our own dedicated app has begun, which if all goes according to plan, would end up offering users a unique experience that they have not yet witnessed or received from any token thus far - stay tuned for more details.

We intend to invest large amounts of time and resources into our community to ensure that all investors feel welcome, safe, and free to openly share ideas.

Q4 2021

After a bullish start things will begin to quiet down a wee bit as we periodically hit important milestones week after week. It is important that our marketing campaign stays strong and we don't let the foot off the pedal in order to ensure we're steadily increasing on the charts, in total number of holders and followers across social media platforms.

Beta testing on our app will be completed, with a final working product being made available to the public early on in this quarter. The app will also contain an element that we're quite excited to share with you all when the time is right, this is what will ultimately differentiate us from all the other shitcoins in the market.

Development into the \$NASA brand will be taking shape as we look to transcend crypto and bring our offering to the general public.

Q1 2022

By this stage the cryptoworld will be well aware of who we are and what we stand for. Our use cases will be in full force which will only help continue to solidify us as officially Not Another Shit Altcoin in the eyes of many.

With that said, there is still no slowing down for \$NASA. There is more to the solar system than just the moon. Partnerships with influencers, other tokens and exchanges will be lined up to work with us and we will be more than happy to oblige.

No doubt our team will shift around as time goes on, some will stay and some will go. However, be rest assured the core members of the team will still be intact and as bullish about the project as they were on Day 1.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
