

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

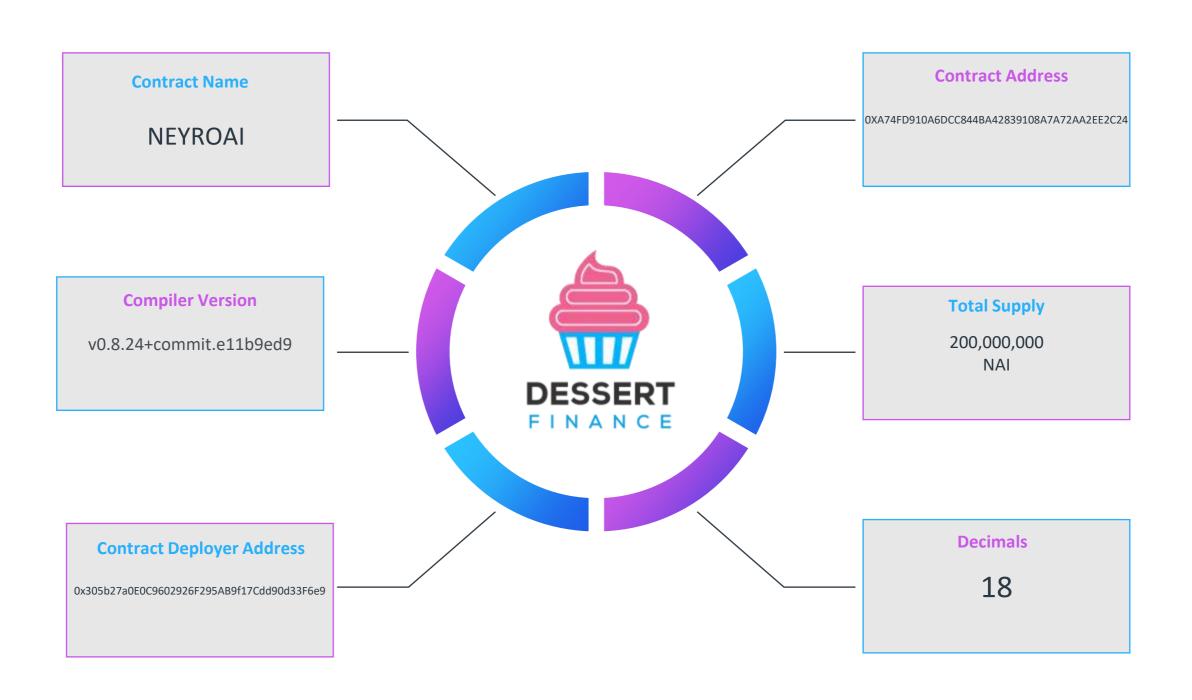

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

Compiler Version

v0.8.24+commit.e11b9ed9

Optimization Enabled

Yes with 200 runs

Code is truncated to fit the constraints of this document.

ERC-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	Al Scan	Human Review	Result
Compiler Errors	Complete	Complete	√ Low / No Risk
Outdated Compiler Version	Complete	Complete	√ Low / No Risk
Integer Overflow	Complete	Complete	√ Low / No Risk
Integer Underflow	Complete	Complete	√ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	√ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	√ Low / No Risk
Exposed _Transfer Function	Complete	Complete	√ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	√ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	√ Low / No Risk
Use of Deprecated Functions	Complete	Complete	√ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	√ Low / No Risk
State Variable Default Visibility	Complete	Complete	√ Low / No Risk
Deployer Can Access User Funds	Complete	Complete	√ Low / No Risk

Contract Code Audit – Contract Ownership

Contract does not have onlyOwner functions

The contract does not contain onlyOwner functions.

Liquidity Ownership – Locked / Unlocked

Locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information.

https://univ3.uncx.network/lock/univ3/explore/tokens/chain/1/address/0xa74fd910a6dcc844ba42839108a7a72aa2ee2c24

Contract Code Audit – Mint Functions

This Contract Cannot Mint New NAI Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees ("tax") listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

Tax Structure:

Buy and Sell Tax: Transactions involving the buying and selling of \$Neyro tokens are subject to a 5% tax. This tax is divided as follows:

1% COMMUNITY REWARDS

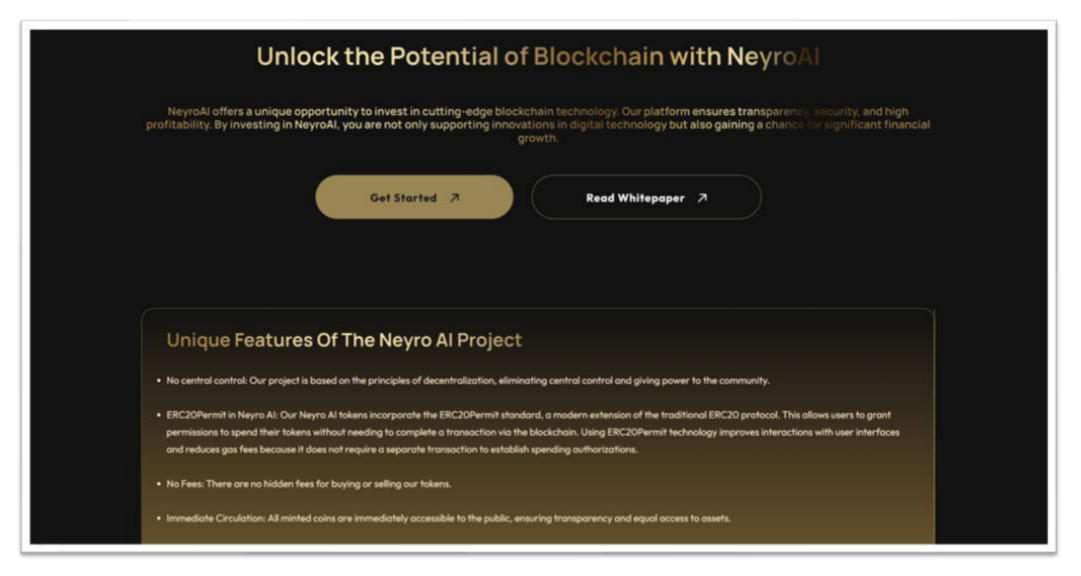

2% MARKETING AND PARTNERSHIPS 2% DEVELOPMENT FUNDS

One percent goes to rewarding the Neyro Al community, including content creators, active users, and ecosystem contributors, fostering engagement and participation.

Two percent goes to the marketing wallet in order to maintain a steady presence and promote awareness of our project over time, we implement strategies for ongoing promotion and visibility.

One percent of the transaction tax goes to the development fund, supporting ongoing research and development in the Neyro AI ecosystem for new features and improvements.

Website Part 1 – Overview https://neyroai.org/

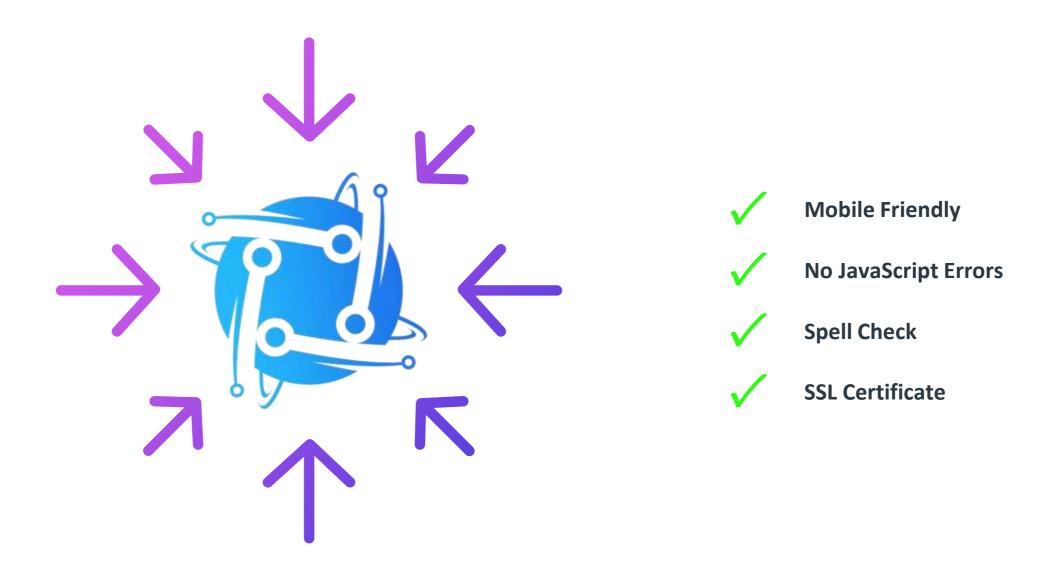

Above images are actual snapshots of the current live website of the project. Website was registered on 05/29/2024, registration expires 06/03/2025.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

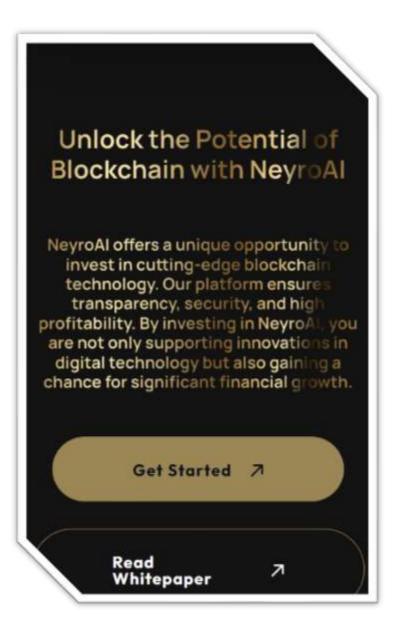

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

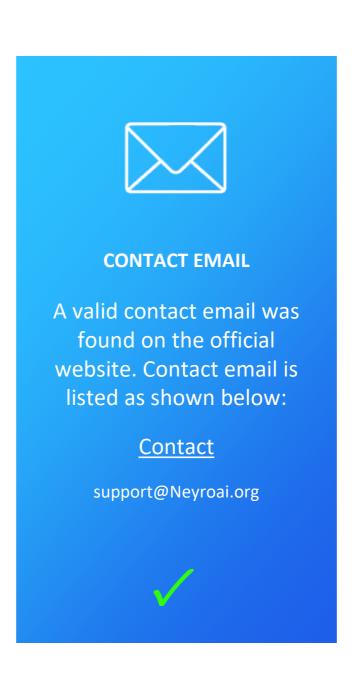

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) - General Web Security

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

X At least 3 social media networks were found.

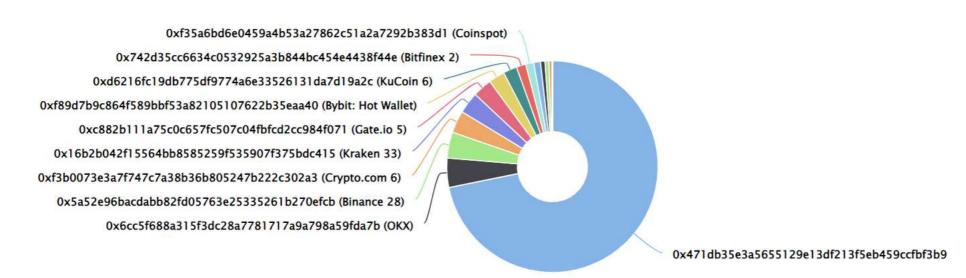

Top Token Holders

The top token holders at the time of the audit are shown below.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

Fostering Crypto Excellence, Together...

Our founding team comprises former colleagues and close friends, boasting extensive experience in developing blockchain applications over several years.

The team behind the **Neyro AI** is made up of dedicated crypto enthusiasts skilled in blockchain technology, software development, and business operations. Our goal is to cultivate an active, welcoming, and secure community-driven space that adds value to the wider crypto community. We are driven by a vision of sustained project growth and are diligently preparing for an ambitious journey to success.

Roadmap

A roadmap was found on the official website.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
