

OLYMPUS (OLYMPUS)

BEP-20 Audit

Performed at block 8963409

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0x18b426813731C144108c6D7FAf5EdE71a258fD9A

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.olympustoken.io

Above images are actual snapshots of the current live website of the project.

Website was registered on 06/19/2021, registration expires 06/19/2022.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✗ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets. Minor JavaScript errors below:

```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token’s Smart Contract as shown above.

Social Media

We were able to locate three Social Media networks for the project including Twitter, Telegram and Instagram. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Instagram](#)

✓ **At least 3 social media networks were found.**

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, and Instagram. All social media channels had a healthy amount of activity.

Olympus is a project founded by the creators of BogTools, Gabe, and Bingus. Olymus has built a platform to purchase the token directly from their website. The team has put considerable effort to maintaining consistency in design and language throughout their entire project including the website, litepaper, and social media platforms.

It is important to note that there is an 14% tax on EVERY transaction including buys and sells. 4% goes to buybacks, 4% goes to liquidity, 4% is automatically converted to BUSD and distributed back to holders, and 2% is sent back to the team for development and marketing. Also note that after every buyback, fees are doubled for 30 minutes on sells only.

Multiple minor JavaScript errors were found on the website.

Suggestions for Improvement

1. Fix JavaScript errors
2. Update domain registration to 3+ years

Top Token Holders

The top token holders at the time of the audit are shown below.

[Click here to view the most up-to-date list of holders](#)

OLYMPUS Top 100 Token Holders

Source: BscScan.com

1. [0x9c51034c57dc2e1ea55944a1ecb2912cecfcb757](#)– the top token holder was the PancakeSwap liquidity pool, holding 16.75% of the total supply.
2. [Burn Address](#)– the 2nd largest holder was the burn address containing 16.4% of the total supply. These tokens are removed from circulation forever.
3. [0xdc0a7fe55670de0ead8777432701fc2815eb6b1e](#)– the 3rd largest holder was a wallet containing 5% of the total supply. We have confirmed that this is a team wallet.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We were able to find the following team information on the project website:

Tales From The Pantheon

As the legend goes, BogTools, Gabe, and Bingus together searched far and wide for the Myth of the Buyback Token. To their dismay, they found only pretenders.

Thus Jonathan Bog, founder of the mighty Bogged corporation, took it upon himself to rip open the doors of Olympus and share the power of the gods.

Along with the marketing prowess of the Gabe team and the integrity of the Bingus team, Olympus is ready for its trip to visit Selene (Goddess of the Moon).

Potential Signs of Risk

1 YEAR DOMAIN REGISTRATION

PROJECT HAS COMMON USE-CASE
(REFLECT TOKEN)

The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

TEAM HAS BEEN VERY RESPONSIVE IN ADDRESSING QUESTIONS

2

TRANSPARENT FEE STRUCTURE

3

TEAM PART OF PREVIOUS SUCCESSFUL PROJECT LAUNCHES

4

TRANSPARENT REDEVELOPMENT TEAM

5

SSL CERTIFICATE WAS FOUND AND VALID

6

ACTIVE SOCIAL MEDIA PRESENCE

The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

- ⚡ Whitelist pre-sale launch on Sabaka
- ⚡ 15,000 telegram members
- ⚡ Liquidity Locked
- ⚡ 5,000 holders
- ⚡ Coingecko (Pre-listing)
- ⚡ 2.5% of Olympus tokens burned
- ⚡ CoinMarketCap Listing
- 10,000 holders
- Dashboard (BUSD Earnings, Zeus, Hades Tracker)
- Techrate Audit
- Locker of Ananke (Pillar I)
- \$25 Million Marketcap -> 250 BNB Zeus purchase

- 50,000 holders
- \$50 Million Marketcap -> 300 BNB Zeus purchase
- 5% of Olympus tokens burned
- Central Exchange Listings
- Merchandise Store
- 2nd Pillar: Wheel of Kronos
- 3rd Pillar: Shield of Athena

- 100,000 holders
- Additional CEX Listings
- 4th Pillar: Lightning of Zeus
- Much more to come...

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR OLYMPUS (OLYMPUS). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **8963409**
