

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity ("Rug Pull"), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Table of Contents

Website Part 1 – Overview www.therogantoken.com

Website Preview & Mobile Test

Above images are actual snapshots of the current live website of the project.

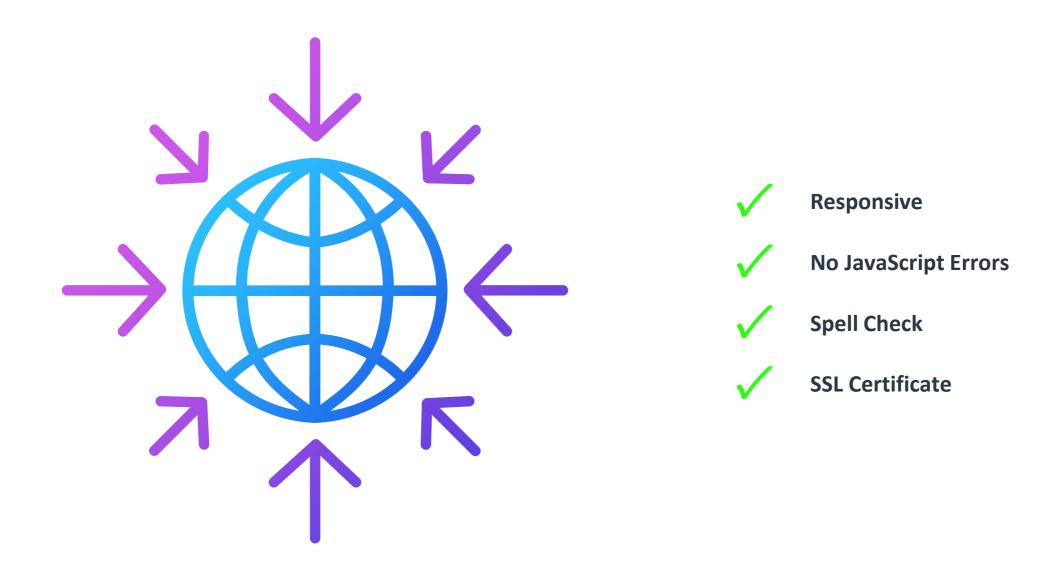

Website was registered on 04/27/2021, registration expires 04/27/2022.

This is a possible flag, we like to see registrations for a minimum of 3 years.

✓ Registration has been updated. It now expires 04/27/2025

Website Part 2 – Checklist

The website contained a no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

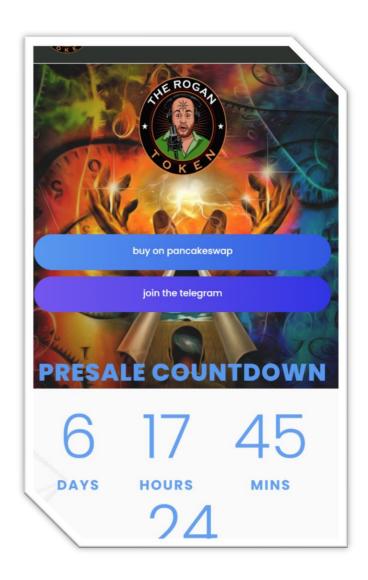

No issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the responsive check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

Minor issue was found with the main text in the dark gray section having the first letter of most words capitalized but it is not consistent throughout.

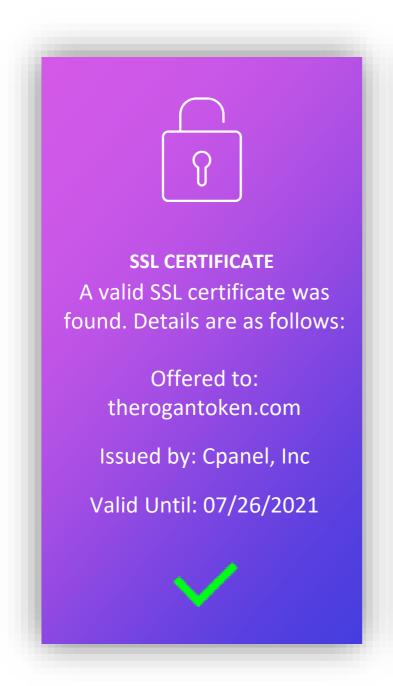

Console check for any severe JavaScript errors came back clean. No issues with loading elements, code, or stylesheets.

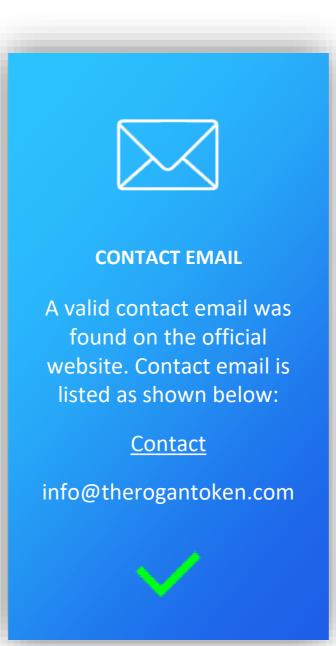

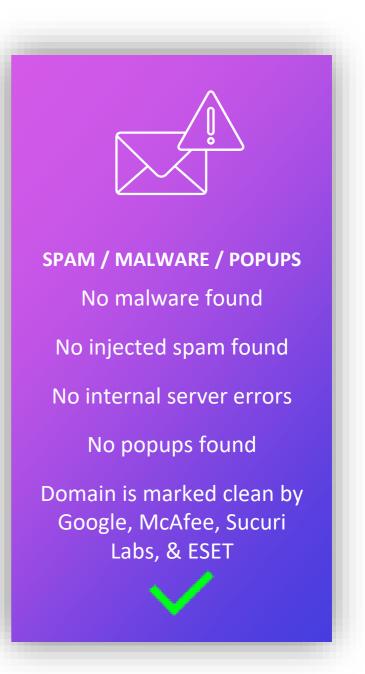

GWS REPORT

Website Part 4 (GWS) – General Web Security

BEP-20 Contract Audit – Common Vulnerabilities

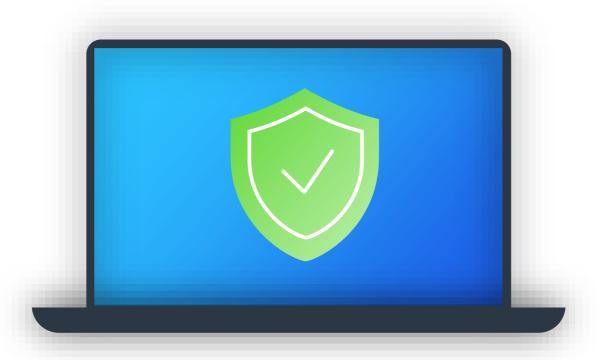

Code is truncated to fit the constraints of this document.

The code in its entirety can be viewed here.

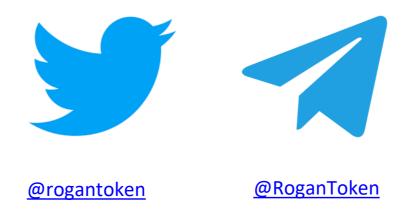

The contract code is verified on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate two Social Media networks for the project including Twitter and Telegram. All links have been conveniently placed below.

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down only two social media profiles for the project, we would like to see more added in the near future.

The team originally reached out to see how they could make the project as rugproof as possible. While it's never possible to guarantee any project being rugproof the team has stated that they will be locking liquidity and burning all team supply prior to launch.

The domain is set to expire in less than 1 year, we would like to see that updated.

It is important to note that there is a 10% tax on EVERY transaction including buys and sells. 4% is burned, 2% goes to a marketing wallet, and 4% is distributed to the token holders.

Suggestions for Improvement

- 1. Update domain registration to a minimum of 3 years. ✓ Fixed
- 2. Add social media links to website.
- 3. Fix inconsistent capitalization on website.

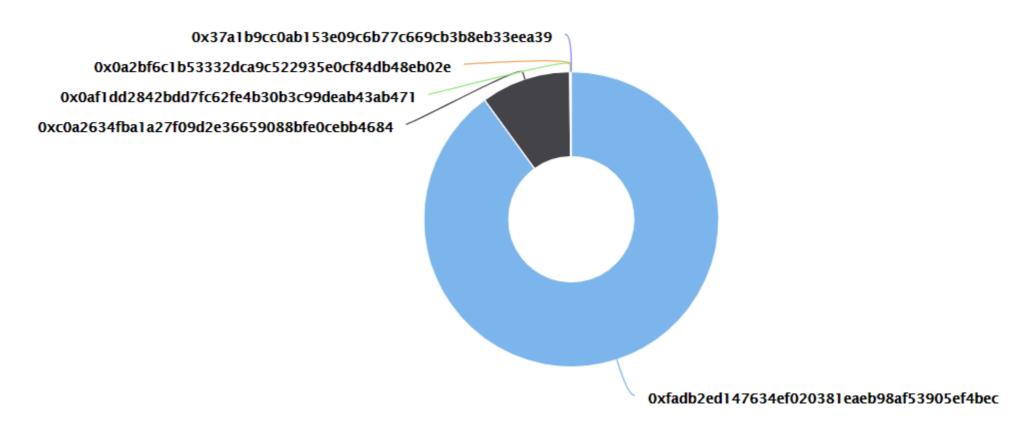

Top Token Holders

The majority of the supply (90%) was in one wallet at the time of the audit however it is important to note that the project has not begun its presale or launch yet.

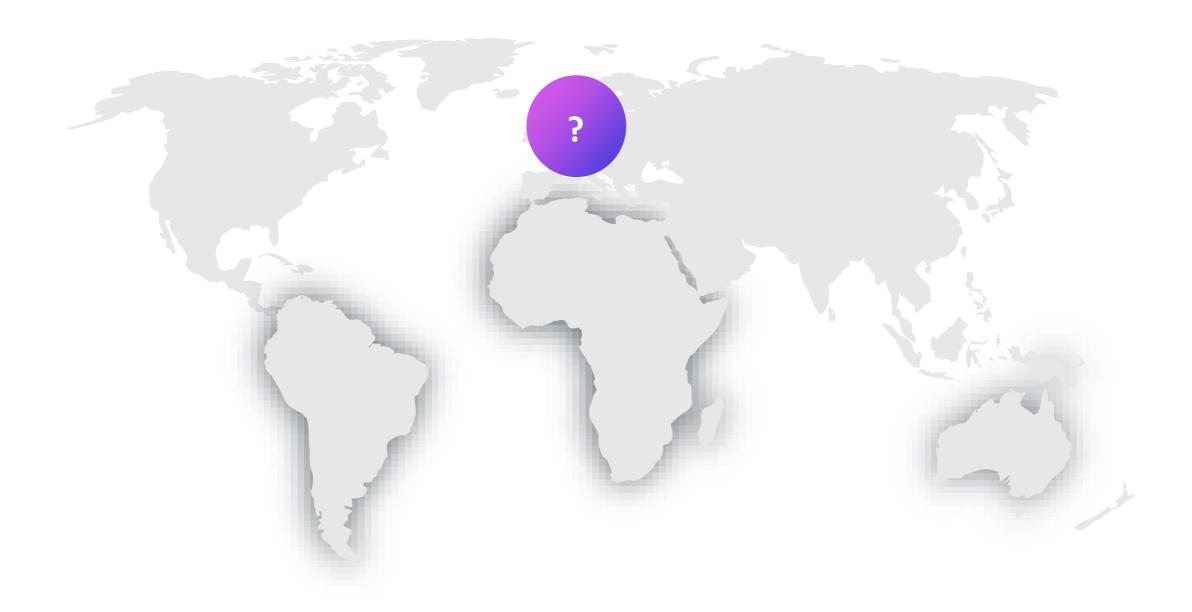

ROGAN Top 100 Token Holders

Roadmap

A roadmap was found on the official project website, it has been added here for your convenient viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
