

### **INITIAL DISCLAIMER**

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

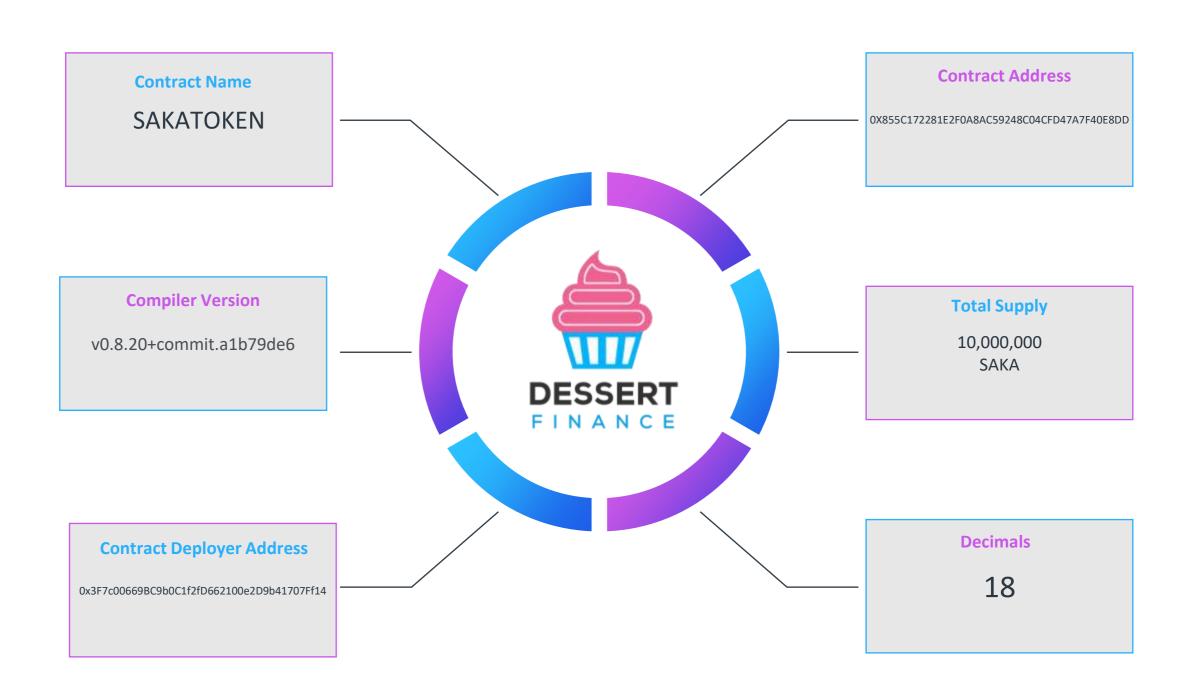

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

## **Contract Code Audit – Token Overview**

### **BEP-20 Contract Code Audit – Overview**

Dessert Finance was commissioned to perform an audit on SAKA

```
pragma solidity *0.8.20
import "@openzeppelin/contracts/token/ERC20/ERC20.sol";
import "@openzeppelin/contracts/token/ERC20/extensions/ERC20Burnable.sol";
contract SakaToken is ERC20, ERC20Burnable {
   constructor() ERC20("Saka Vault", "SAKA") {
        mint(msg.sender, 100000000 * 10 ** decimals());
```

### **Contract Address**

0x855C172281E2f0A8aC59248c04CfD47a7F40E8dD

#### TokenTracker

Saka Vault (SAKA)

#### **Contract Creator**

# **Contract Code Audit – Contract Ownership**

This contract does not have an owner.

The contract ownership is not currently renounced.

We have placed the contract owner address below for your viewing:

**NOT OWNABLE** 

# **Liquidity Ownership – Locked / Unlocked**

Locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information.

### **Pinksale**

https://bscscan.com/token/0x855c172281e2f0a8ac59248c04cfd47a7f40e8dd?a=0x4079 93575c91ce7643a4d4ccacc9a98c36ee1bbe

## **Contract Code Audit – Mint Functions**

This Contract Cannot Mint New SAKA Tokens.

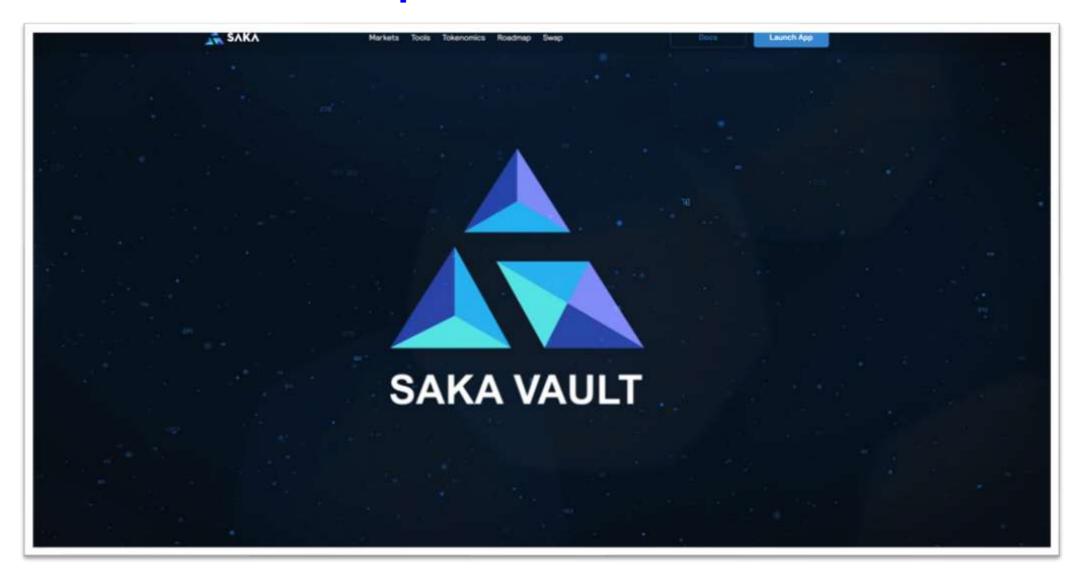

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

## **Website Part 1 – Overview**

https://sakavault.io/

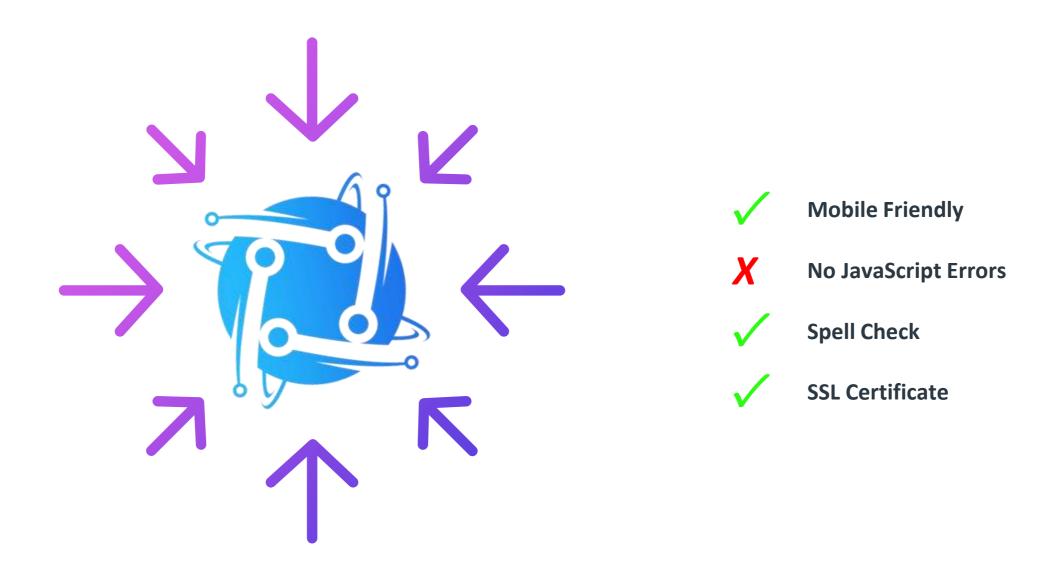

Above images are actual snapshots of the current live website of the project.

Website was registered on 02/15/2024, registration expires 02/15/2030.

✓ This meets the 3 year minimum we like to see on new projects.

## **Website Part 2 – Checklist**

The website contained many JavaScript errors and would not load on a javascript enabled browser. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

# Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

JavaScript errors were found. The website will not load on a JavaScript enabled browser.

# Website Part 4 (GWS) - General Web Security

## **Social Media**

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

**X** At least 3 social media networks were found.

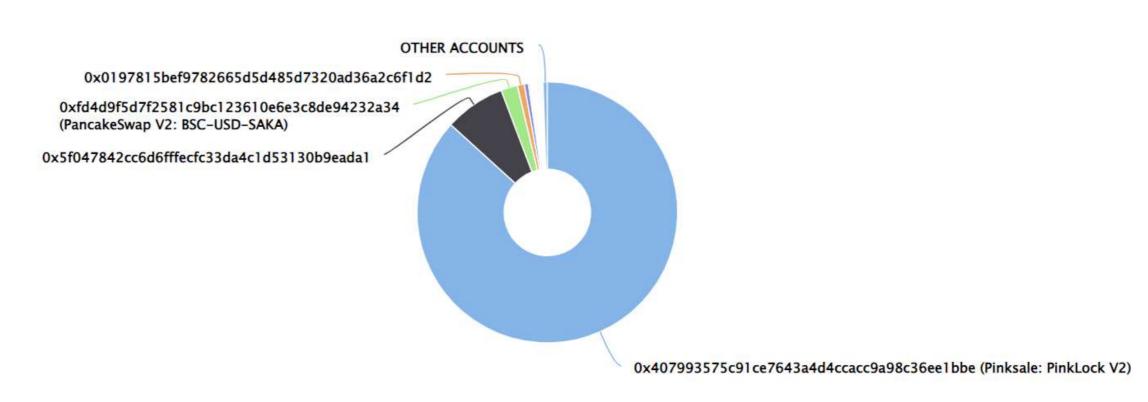

# **Top Token Holders**

The top token holders at the time of the audit are shown below.

Click here to view the most up-to-date list of holders

### Saka Vault Top 100 Token Holders

Source: BscScan.com

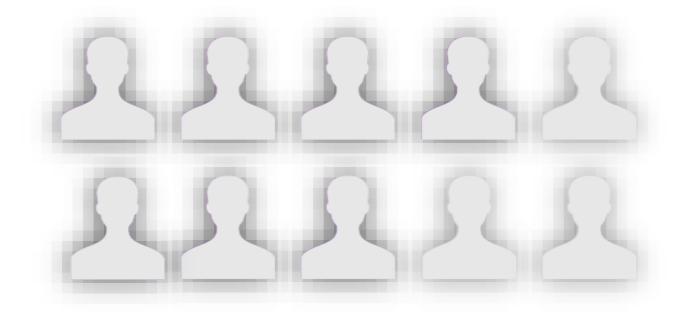

# **Location Audit**

We were unable to identify a primary location for the project at this time or a location has not been declared.

## **Team Overview**

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

# Roadmap

A roadmap was not found on the official website.

### Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
