SafeScam (SAFESCAM)

BEP-20 Audit

Performed at block 14138043

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0xd991a702146826f203f2549e46d5B5B7aA7848d8

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

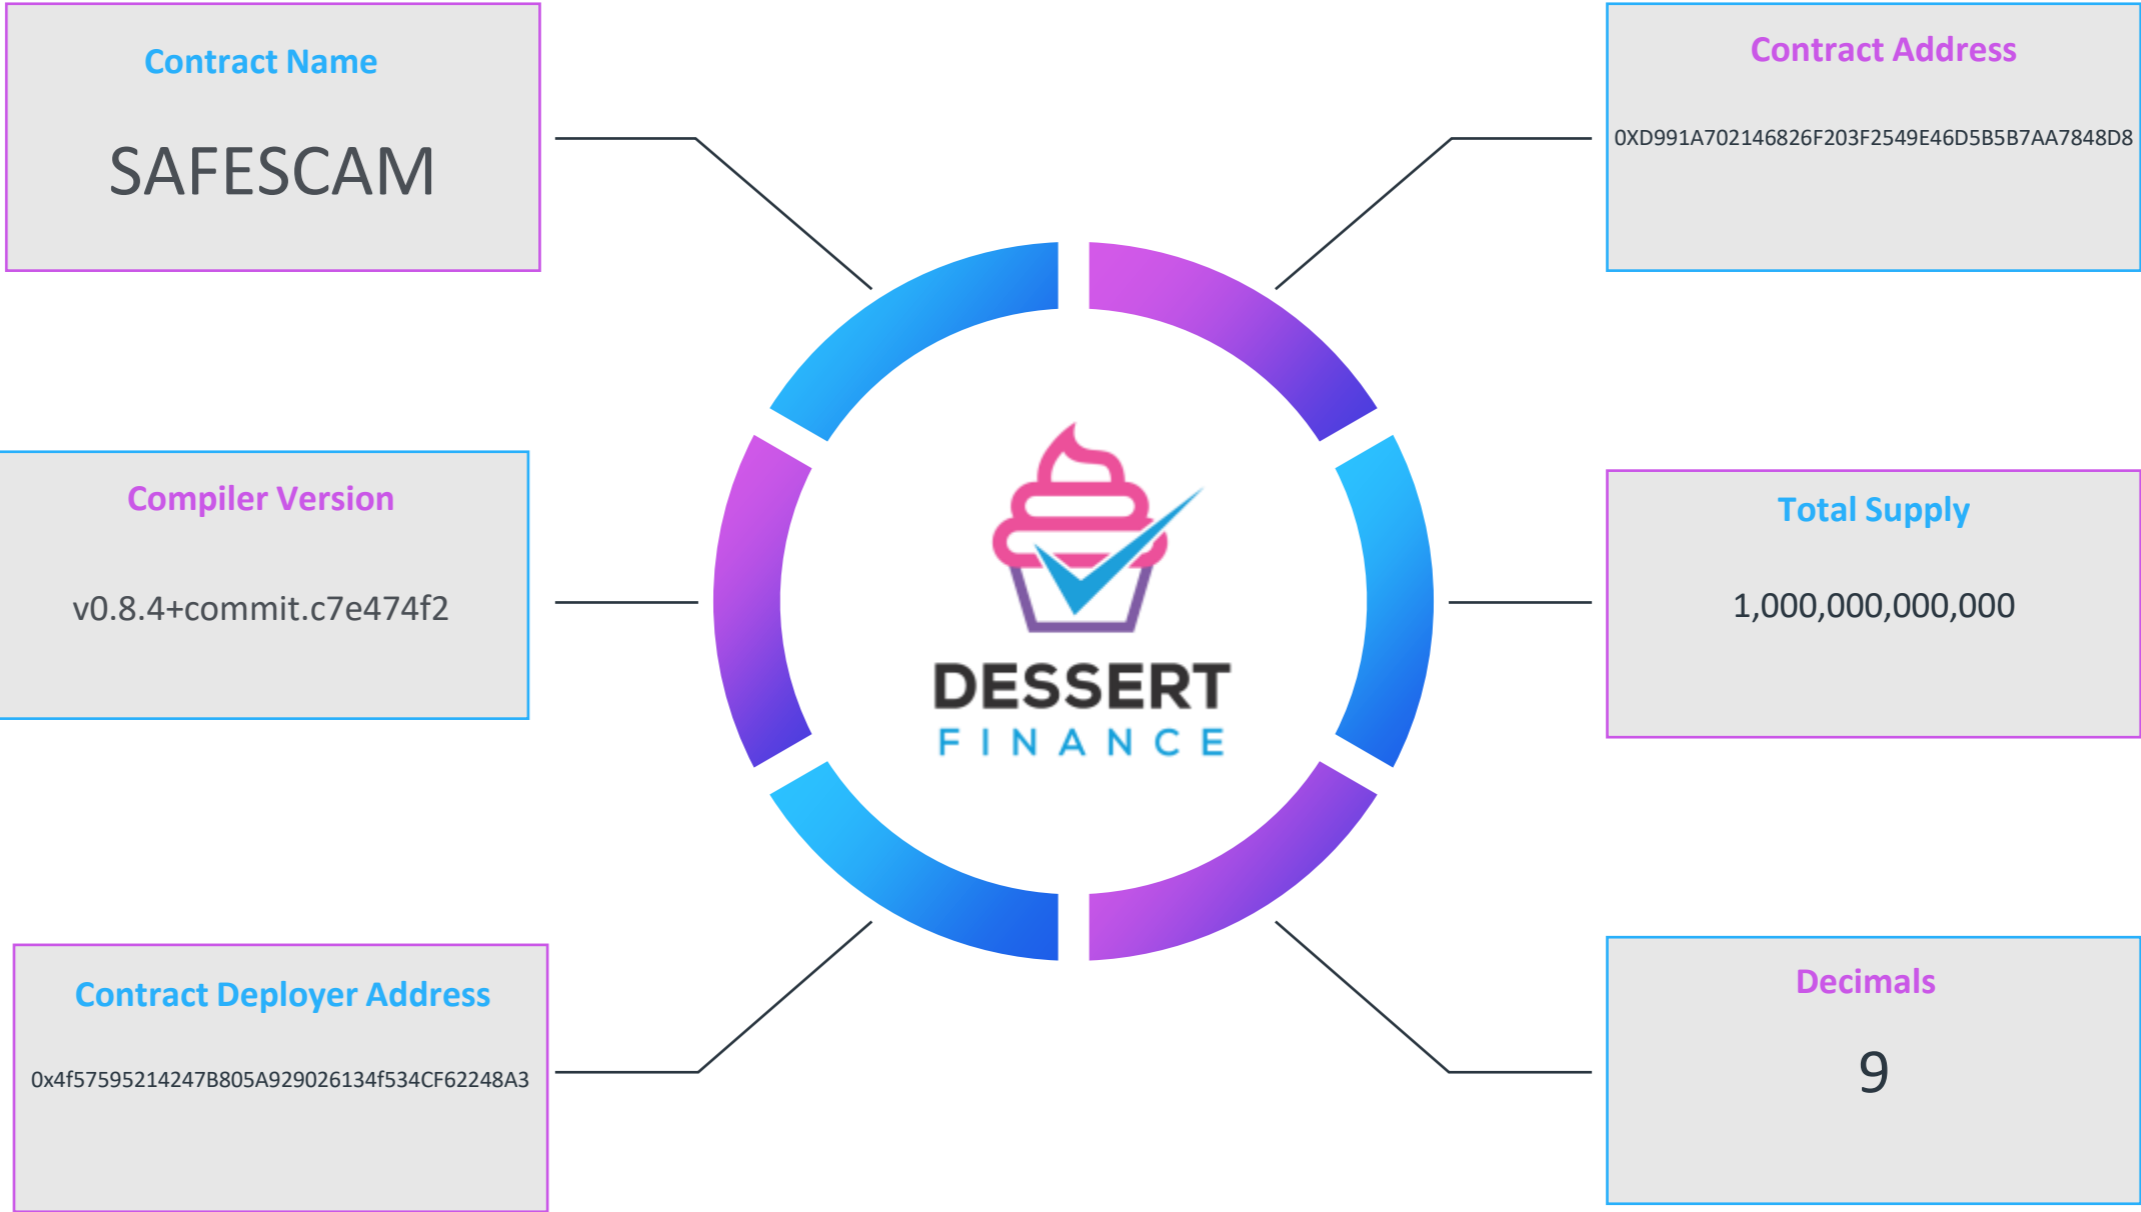

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

Contract Code Audit – Token Overview

Contract Code Audit – Contract Ownership

Contract Ownership has not been renounced at the time of Audit

The contract ownership is not currently renounced.

We have placed the contract owner address below for your viewing:

[0x4f57595214247b805a929026134f534cf62248a3](https://www.etherbase.org/address/0x4f57595214247b805a929026134f534cf62248a3)

The address above has authority over the ownable functions within the contract.

This allows the owner to call certain functions within the contract. Any compromise to the owner wallet may allow these privileges to be exploited.

We recommend:

- Establishing a Time-Lock with reasonable latency
- Assignment of privileged roles to multi-signature wallets

The project dev told us “LOL NAH” on the above recommendation.

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
openTrading	bool _status, uint256 _rugMeDaddy	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setZeroBuyTaxmode	bool _status	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setNewRouter	address newRouter	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeFromReward	address account	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
includeInReward	address account	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeMultiple	address account	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeFromFee	address[] calldata addresses	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
includeInFee	address account	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setWallets	address _marketingWallet, address _lamboCharityWallet, address _feedVillageWallet	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
manage_Snipers	address[] calldata addresses, bool status	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
manage_trusted	address[] calldata addresses	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
withDrawLeftoverETH	address payable recipient	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
withdrawStuckTokens	IERC20 token, address to	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The functions listed above can be called by the contract owner.

If contract ownership has been renounced there is no way for the above listed functions to be called.

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
setMaxWalletPercent_base1000	uint256 maxWallPercent_base1000	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setMaxWalletExempt	address _addr	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setSwapSettings	uint256 thresholdPercent, uint256 thresholdDivisor	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
airdrop	address from, address[] calldata addresses, uint256 tokens	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. Owner can unauthorize a wallet
authorize	address adr	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. Owner can authorize a wallet
unauthorize	address adr	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setTaxesBuy	uint256 _liquidityFee, uint256 _marketingFee, uint256 _primaryFee, uint256 _secondaryFee	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. Buy taxes have an upper limit of 50%.
setTaxesSell	uint256 _liquidityFee, uint256 _marketingFee, uint256 _primaryFee	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. Sell taxes have an upper limit of 50%
renounceOwnership		public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced. This function has not been called
transferOwnership	address newOwner	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The functions listed above can be called by the contract owner.

If contract ownership has been renounced there is no way for the above listed functions to be called.

BEP-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on SafeScam (SAFESCAM)

```

submitted for verification at BscScan.com on 2022-01-03

SafeScam

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version	Complete	Complete	✓ Low / No Risk
Integer Overflow	Complete	Complete	✓ Low / No Risk
Integer Underflow	Complete	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility (x2)	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is verified on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Liquidity Ownership – Locked / Unlocked

No locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information. Locked liquidity information was not found on the project's website.

Liquidity will be fully unlocked for 100 years, Dev has let us know there are no plans to ever lock liquidity and responded with "Yah, I'm taking that to buy a lambo"

Contract Code Audit – Mint Functions

This Contract Cannot Mint New SAFESCAM Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees ("tax") listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

SHITTYNOMICS

A Binance smart chain based token BSC BEP20 NFA DYOR (RMT AND FOMO AS USUAL)

Lazy contract by lazy dev, even the sell feature won't be written.

- ✓ 5% Lambo charity wallet (7% for dumpers)
- ✓ 3% LP (to be ruged)
- ✓ 2% Feed village wallet

Enough supply on dev wallet, liquidity fully unlocked for 100 years.
Decimal is 2, slippage between 0-99%.

Website Part 1 – Overview

www.safescam.plustokens.io

Above images are actual snapshots of the current live website of the project.

Website was registered on 10/27/2021, registration expires 10/27/2022.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. **There are multiple claims of partnerships on the website that are unconfirmed and highly unrealistic. When asked to prove partnership claims the dev responded with “Bro no cap”**

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: safescam.plustokens.io

Issued by: R3

Valid Until: 03/22/2022

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

plustokens21@gmail.com

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

X At least 3 social media networks were found.

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

[Click here to view the most up-to-date list of holders](#)

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

ROBBERY PLAN

PHASE 1

Use the word with your model

Every step is fully describe in the video.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank
You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR SAFESCAM (SAFESCAM) 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **14138043**
