

SCOPX (SPX)

BEP-20 Audit

Performed at block **9586719**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: **0x7F973C7fFa8E2D2e1149550E4B8fe7E2E9d0e466**

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.scopxtoken.org

Above images are actual snapshots of the current live website of the project.

Website was registered on 07/07/2021, registration expires 07/07/2026, previously 07/07/2023.

✓ This **exceeds** the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

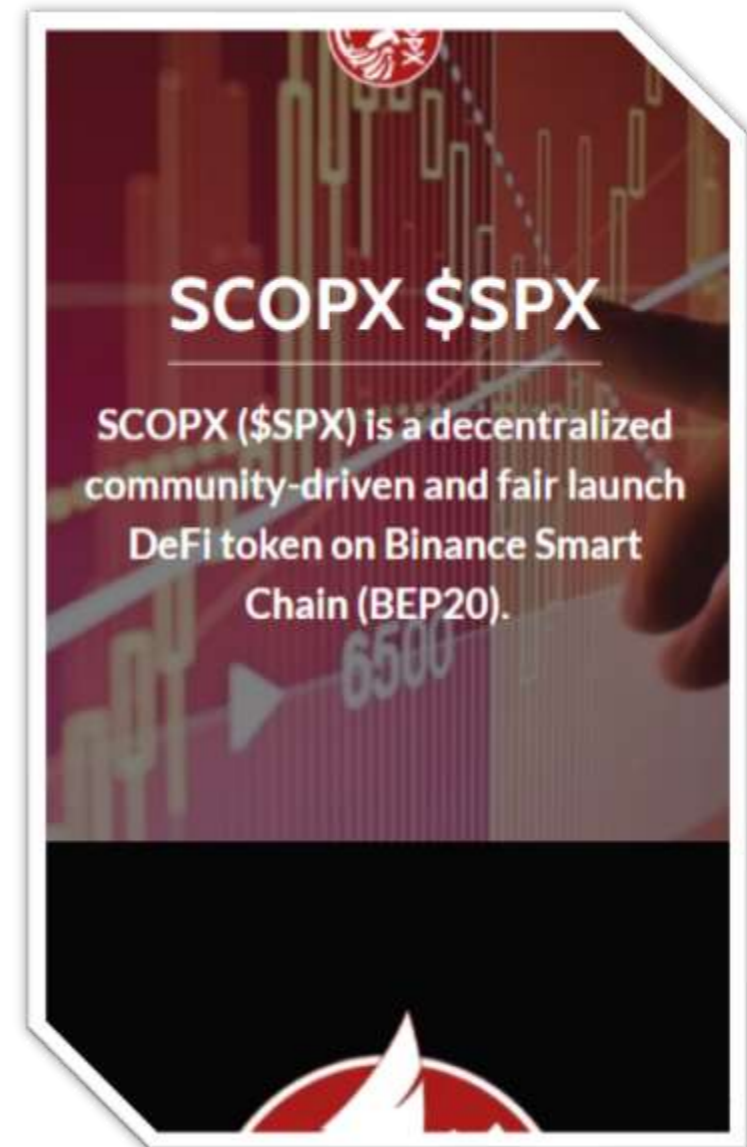

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: scopxtoken.org

Issued by: Go Daddy

Valid Until: 07/09/2022

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

admin@scopxtoken.org
scopxtoken@gmail.com

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

BEP-20 Contract Audit – Common Vulnerabilities

```

Twitter: https://twitter.com/scopxtoken
Email: scopxtoken@gmail.com

This SCOPX token created and Govern by SCOP Community.
Code edited by @LemanCrypto
KitaJagaKita AllahJagaKita
PCS V2 Router: 0x10eD43C718714eb63d5a457878054704E256024E
Marketing Mallet: 0x7f81af73889781923e1604A9ff2829A059eF81f

Great features:
-2% of each transaction contributes toward automatically generating liquidity locked inside PancakeS
-1% of each transaction is converted to BNB and used for marketing
-1% each transaction is distributed to the holders automatically

10,000 total supply

2% fee for liquidity will go to an address that the contract creates,
and the contract will sell it and add to liquidity automatically,
(it's the best part of the idea, increasing the liquidity pool automatically,
help the pool grow from the small init pool.
*/

 */
interface IBEP20 {
    /**
     * @dev Returns the amount of tokens in existence.
     */
    function totalSupply() external view returns (uint256);
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram, Facebook and YouTube. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Facebook](#)

[YouTube](#)

✓ **At least 3 social media networks were found.**

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, Facebook and YouTube. All social media channels had a healthy amount of activity.

It is important to note that there is an 4% tax on EVERY transaction including buys and sells. 2% goes to providing liquidity, and 1% is distributed to the token holders and 1% of is redistributed back to the development team to be used for marketing purposes.

The core team is listed on the website with many listing their Facebook profiles. This is not common for DeFi projects and Dessert Finance is glad to see this level of transparency from a project.

Suggestions for Improvement

1. Update domain registration to 3+ years ✓*Resolved*

Top Token Holders

The top token holders at the time of the audit are shown below.

[Click here to view the most up-to-date list of holders](#)

1. [Burn Address](#)– the top token holder was the burn address holding 50.19% of the total supply. These tokens are removed from circulation forever.
2. [PancakeSwap V2: SPX 49](#)– the 2nd largest holder was the PancakeSwap Liquidity pool containing 3.67% of the total supply.
3. [0xe2001936403bdac15beaa9ca2754da1f297a1a8d](#)– the 3rd largest holder was a wallet containing 2.43% on the total supply.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

We were able to locate photos and social media profiles for the team. You are able to view social media profiles by clicking the pictures below.

✓ **The Founder has been DessertDoxxed with a valid ID.**

Potential Signs of Risk

PROJECT HAS COMMON USE-CASE
(REFLECT TOKEN)

The above listed is the top 1 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

TEAM HAS BEEN VERY RESPONSIVE IN ADDRESSING QUESTIONS

2

TRANSPARENT FEE STRUCTURE

3

CONTRACT CODE VERIFIED ON BSCSCAN

4

TEAM HAS PUBLIC PERSONAL SOCIAL MEDIA PAGES

5

SSL CERTIFICATE WAS FOUND AND VALID

6

ACTIVE SOCIAL MEDIA PRESENCE

The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

You may view the Roadmap in its entirety [here](#).

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
