**BEP-20 Audit**

Performed at block **8725475**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: **0x330540a9d998442dcbc396165D3dDc5052077bB1**

## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

# Website Part 1 – Overview

[www.shibafloki.com](http://www.shibafloki.com)

Above images are actual snapshots of the current live website of the project.

Website was registered on 06/25/2021, registration expires 06/25/2025, previously 06/25/2022.

✓ This exceeds the 3 year minimum we like to see on new projects.

# Website Part 2 – Checklist

- ✓ Responsive
- ! No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained one minor JavaScript error. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

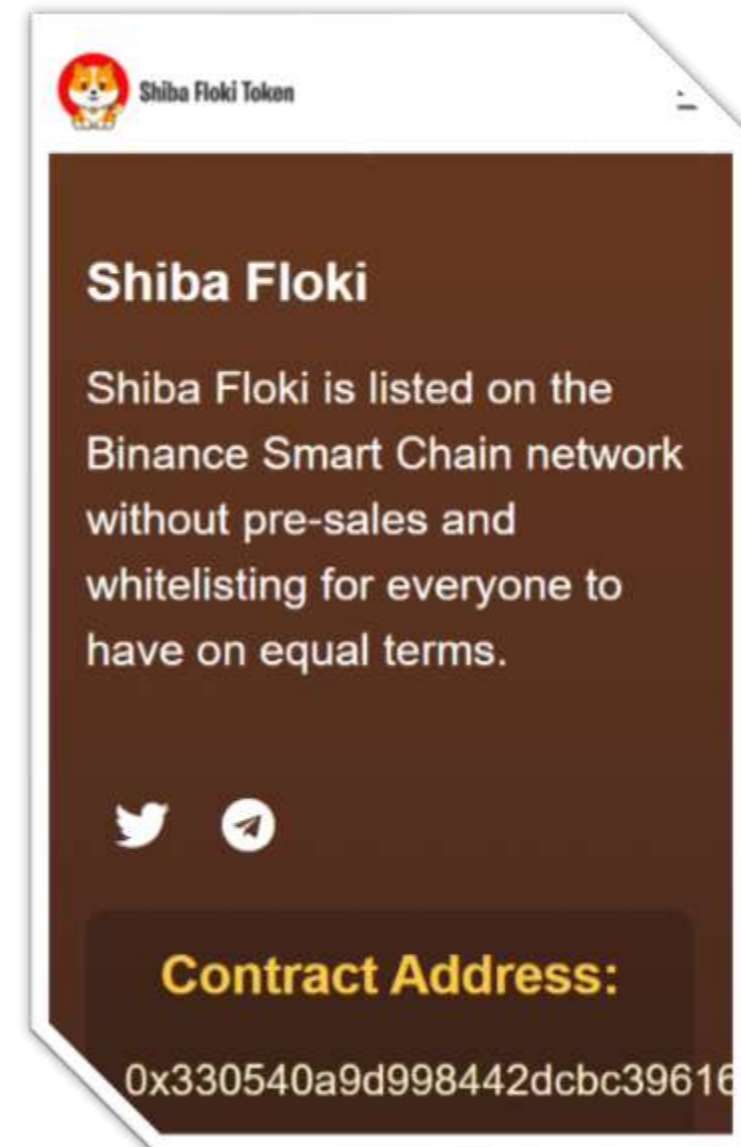

No additional issues were found on the website.

# Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the responsive check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. One minor JavaScript error was found and shown below.

```
jQuery Migrate: Migrate is installed, version 3.3.2 | jquery-migrate.min.js?ver=3.3.2&id=1
GET https://shibafloki.com/plugins/js_composer/assets/lib/bower/chartjs/Chart.min.js?ver=6.6.0 shibafloki.com/:1024
net::ERR_ABORTED 404
```

# Website Part 4 (GWS) – General Web Security

## SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: shibafloki.com

Issued by: Sectigo RSA

Valid Until: 06/25/2022

## CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

        require(b != 0, errorMessage);
        return a % b;
    }
}
```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Callstack Depth Attack
- ✓ Timestamp Dependency
- ✓ Parity Multisig Bug
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

# Social Media

We were able to locate a vast variety of Social Media networks for the project including Twitter, Telegram, and Medium. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Medium](#)

✓ **At least 3 social media networks were found.**

# Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, and Medium. All social media channels had a healthy amount of activity.

It is important to note that there is an 10% tax on EVERY transaction including buys and sells. 5% is added to the liquidity pool (noted in whitepaper) and 5% is distributed to the token holders. The website states that 5% goes to the burn wallet as well but the whitepaper clarifies that 30% (since 30% of tokens are burned) of the 5% **reflection fee** is burned at each transaction. We would like to see this clarified for supporters.

Upon reading the whitepaper, we are introduced with a marketing wallet which holds 2.2% of the total supply. As this is a project with a charity aspect, we would like to see a letter from a charity providing proof of origination of donations made as an added layer of transparency to let users know that their money is going where it should. At this time we have no reason to suspect any misuse of funds, this is simply suggested best practices for cryptocurrencies with charity aspects.

## Suggestions for Improvement

1. Update domain registration to 3 years ✓ **Resolved**
2. Consider using a dynamic logo with white text while background is dark colored for easier readability
3. Add medium link to website
4. Clarify reflection/burn/liquidity fees on homepage.

# Top Token Holders

The top token holders at the time of the audit are shown below.

[Click here to view the most up-to-date list of holders](#)

## Shiba Floki Top 100 Token Holders

Source: BscScan.com

1. [Burn Address](#)– the top token holder was the burn address holding 50.91% of the total supply. These tokens are removed from circulation forever.
2. [0x5cb760abe650e2ac1ebe2703f8077dec349d839a](#) – the 2<sup>nd</sup> largest holder was a wallet the PancakeSwap liquidity pool holding 4.7% of the supply.
3. [0xd09b9de71b46e17544a7b91bd065718ce4fff71f](#)– the 3<sup>rd</sup> largest holder was a wallet containing 4.1% of the supply. We are told that this wallet was used for airdrops and to do buybacks.

## Location Audit

*We are told that Shiba Floki has a global team. There are team members from the USA, Germany, and UK.*

# Team Overview

We are unable to find any information about the team on the website at this time.

We are provided some additional details about the team. Shiba Floki currently claims to have 6 team members, two programmers, and four other members with experience in social media, web development, and communications. The team claims to have four years of blockchain experience.

# Potential Signs of Risk

1 YEAR DOMAIN REGISTRATION

✓ *Fixed*

PROJECT HAS COMMON USE-CASE  
(REFLECT TOKEN W/CHARITY)

CONTRADICTING INFORMATION ON  
TRANSACTION FEES

*The above listed are the top 3 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.*

# Potential Signs of Confidence

1

TEAM HAS BEEN VERY RESPONSIVE IN ADDRESSING QUESTIONS

2

TRANSPARENCY WITH CHARITY WALLET IN WHITE PAPER

3

LIQUIDITY POOL IN TOP 3 HOLDERS

4

SELF IDENTIFYING MEME

5

SSL CERTIFICATE WAS FOUND AND VALID

6

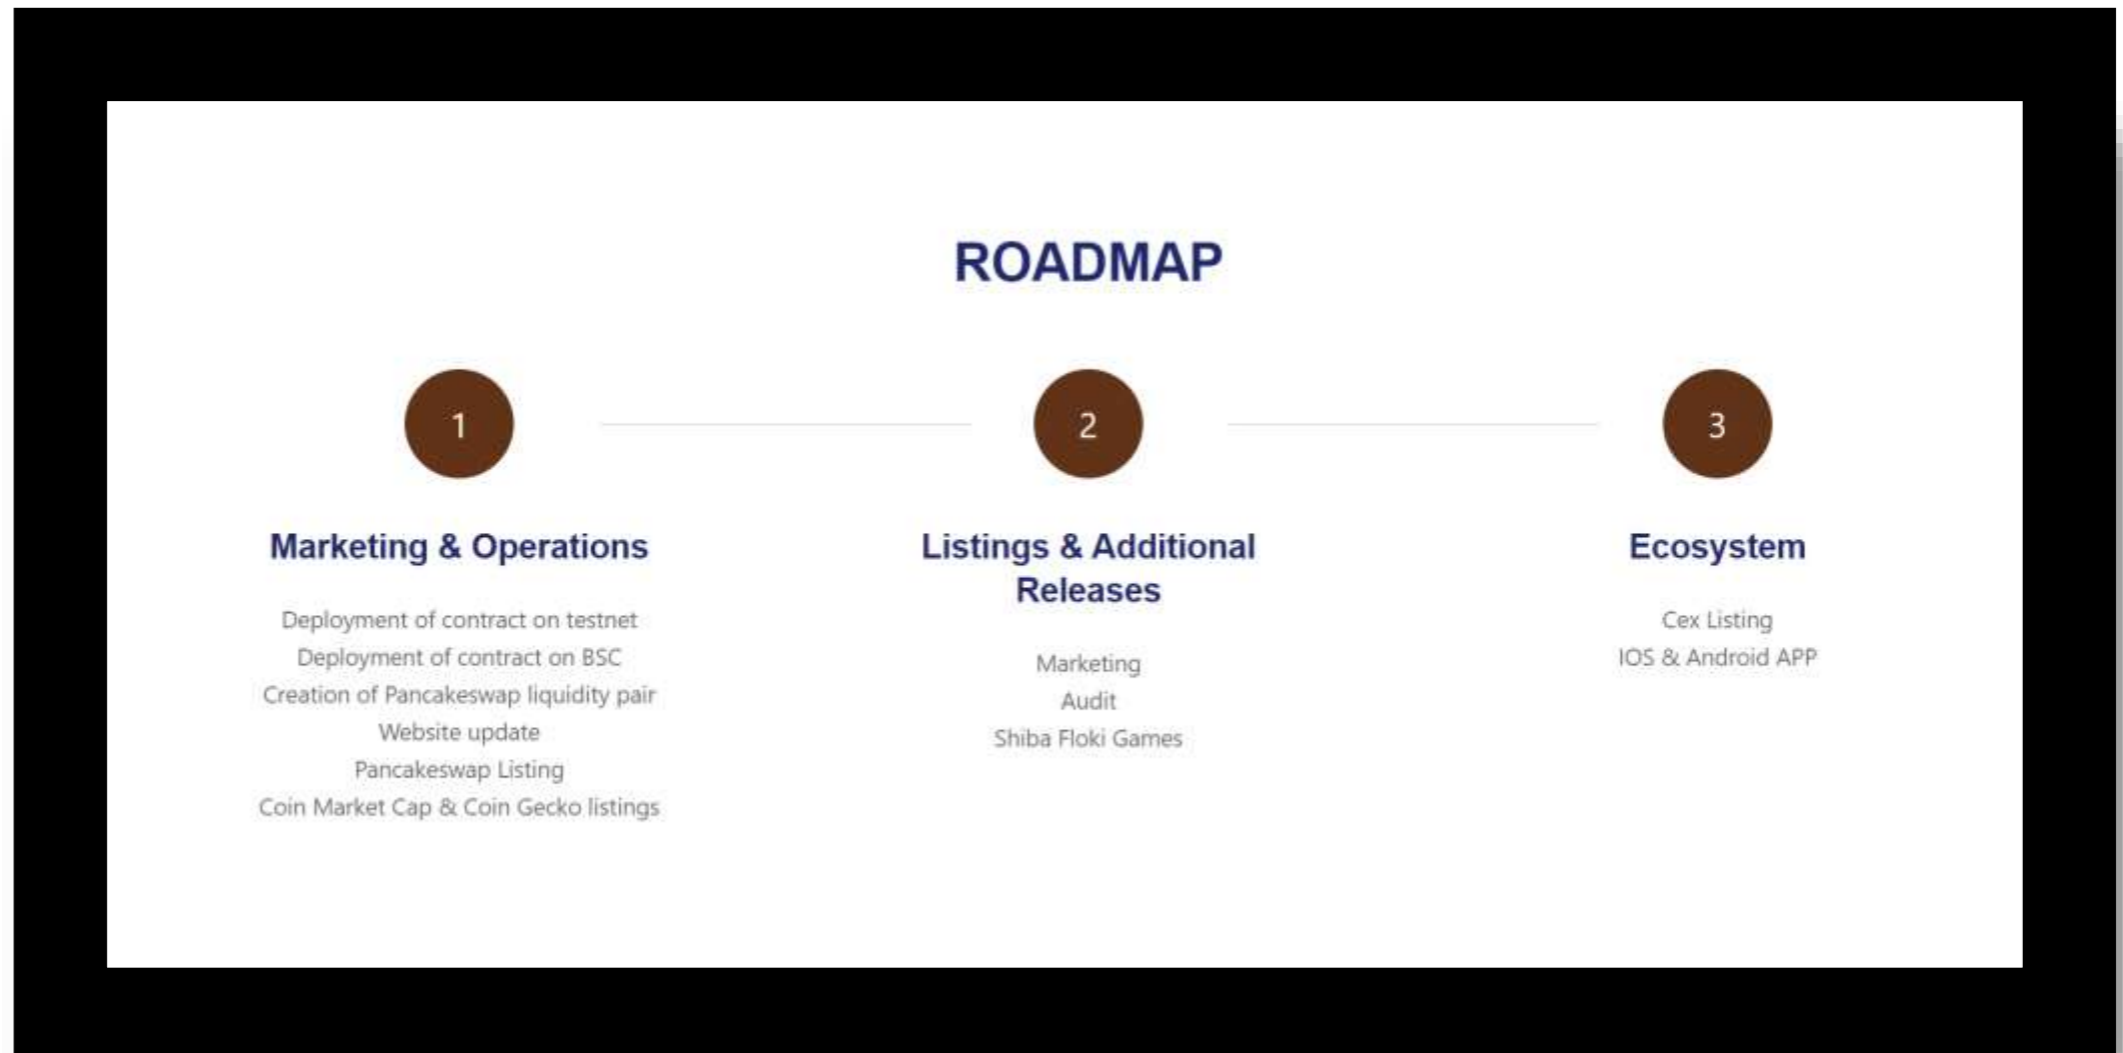

ACTIVE SOCIAL MEDIA PRESENCE

*The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.*

# Roadmap

*A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.*

# Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

# Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR SHIBA FLOKI (FLOKI). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **8725475**
