INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram, Reddit, Facebook, Instagram and YouTube. All social media channels had a healthy amount of activity.

It is important that meme tokens identify themselves as such and we are happy to see that Shibonaut has taken the time to make sure it is extremely clear that they are a meme with no utility.

We were able to track down the marketing wallet set aside by the team which was transparently disclosed on the project's website. The marketing wallet and all of the transactions to and from it can be viewed [here](#).

It is important to note that there is an 6% fee on EVERY transaction including buys and sells. 3% gets burned (removed from circulation), and 3% is distributed to the token holders.

Suggestions for Improvement

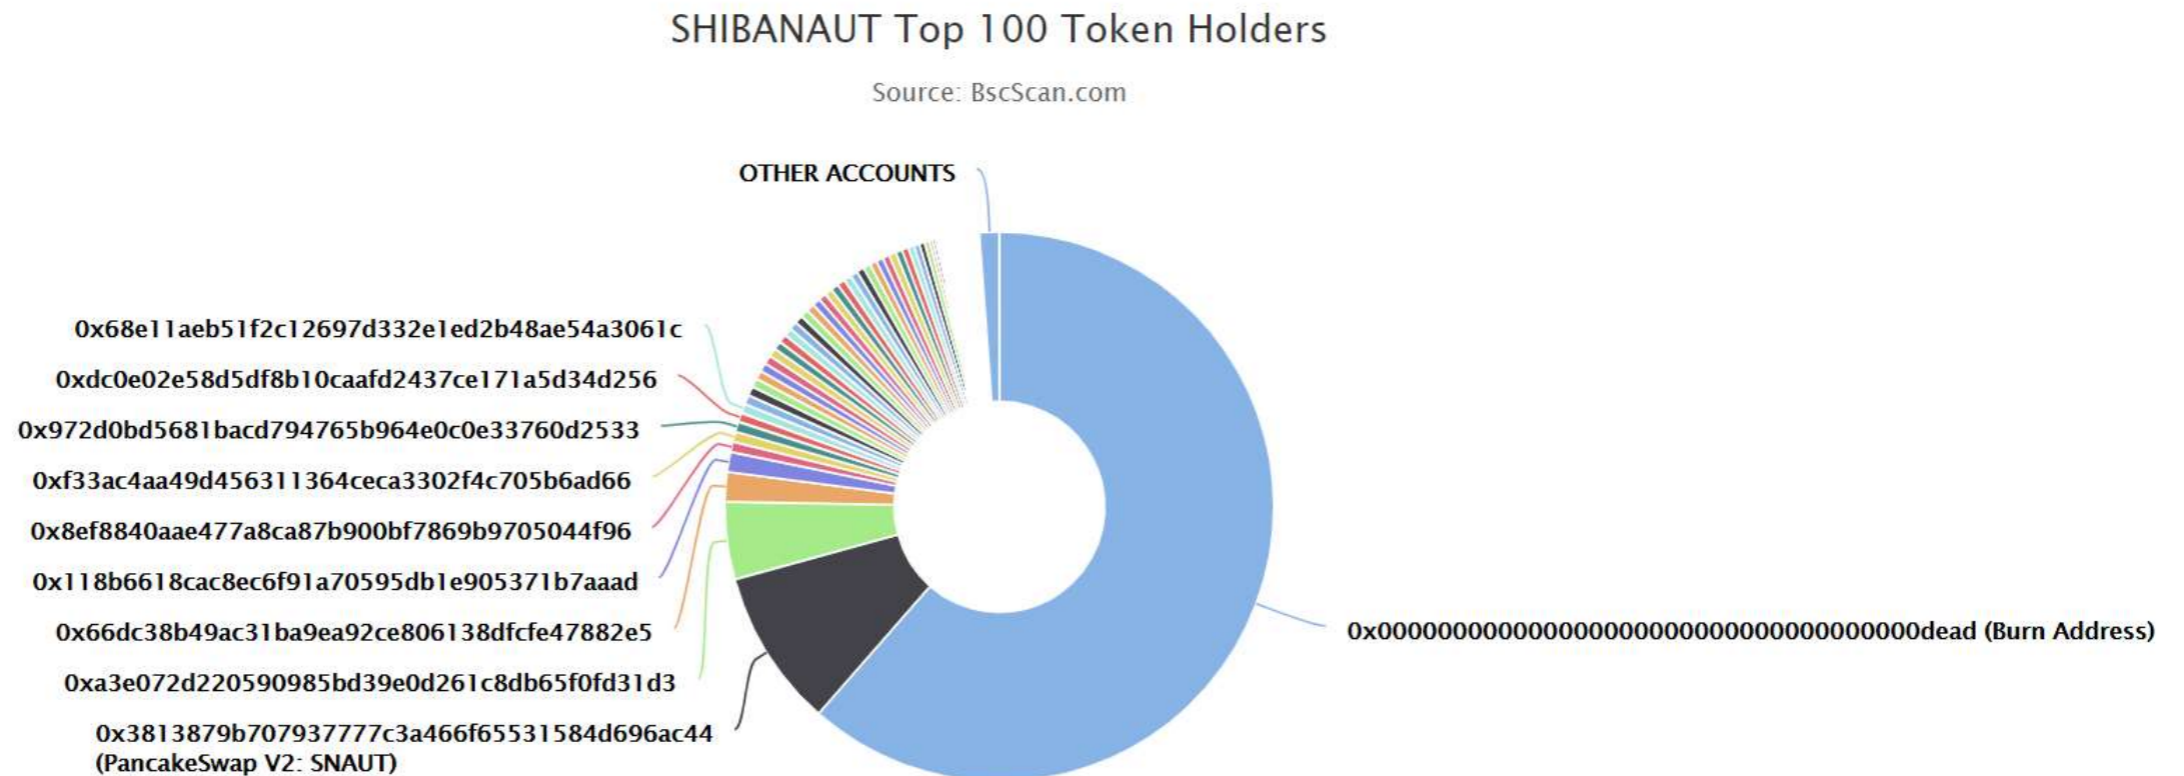

1. Update domain registration to 3+ years Issue *✓ Issue Resolved*

Top Token Holders

The top token holders at the time of the audit are shown below.

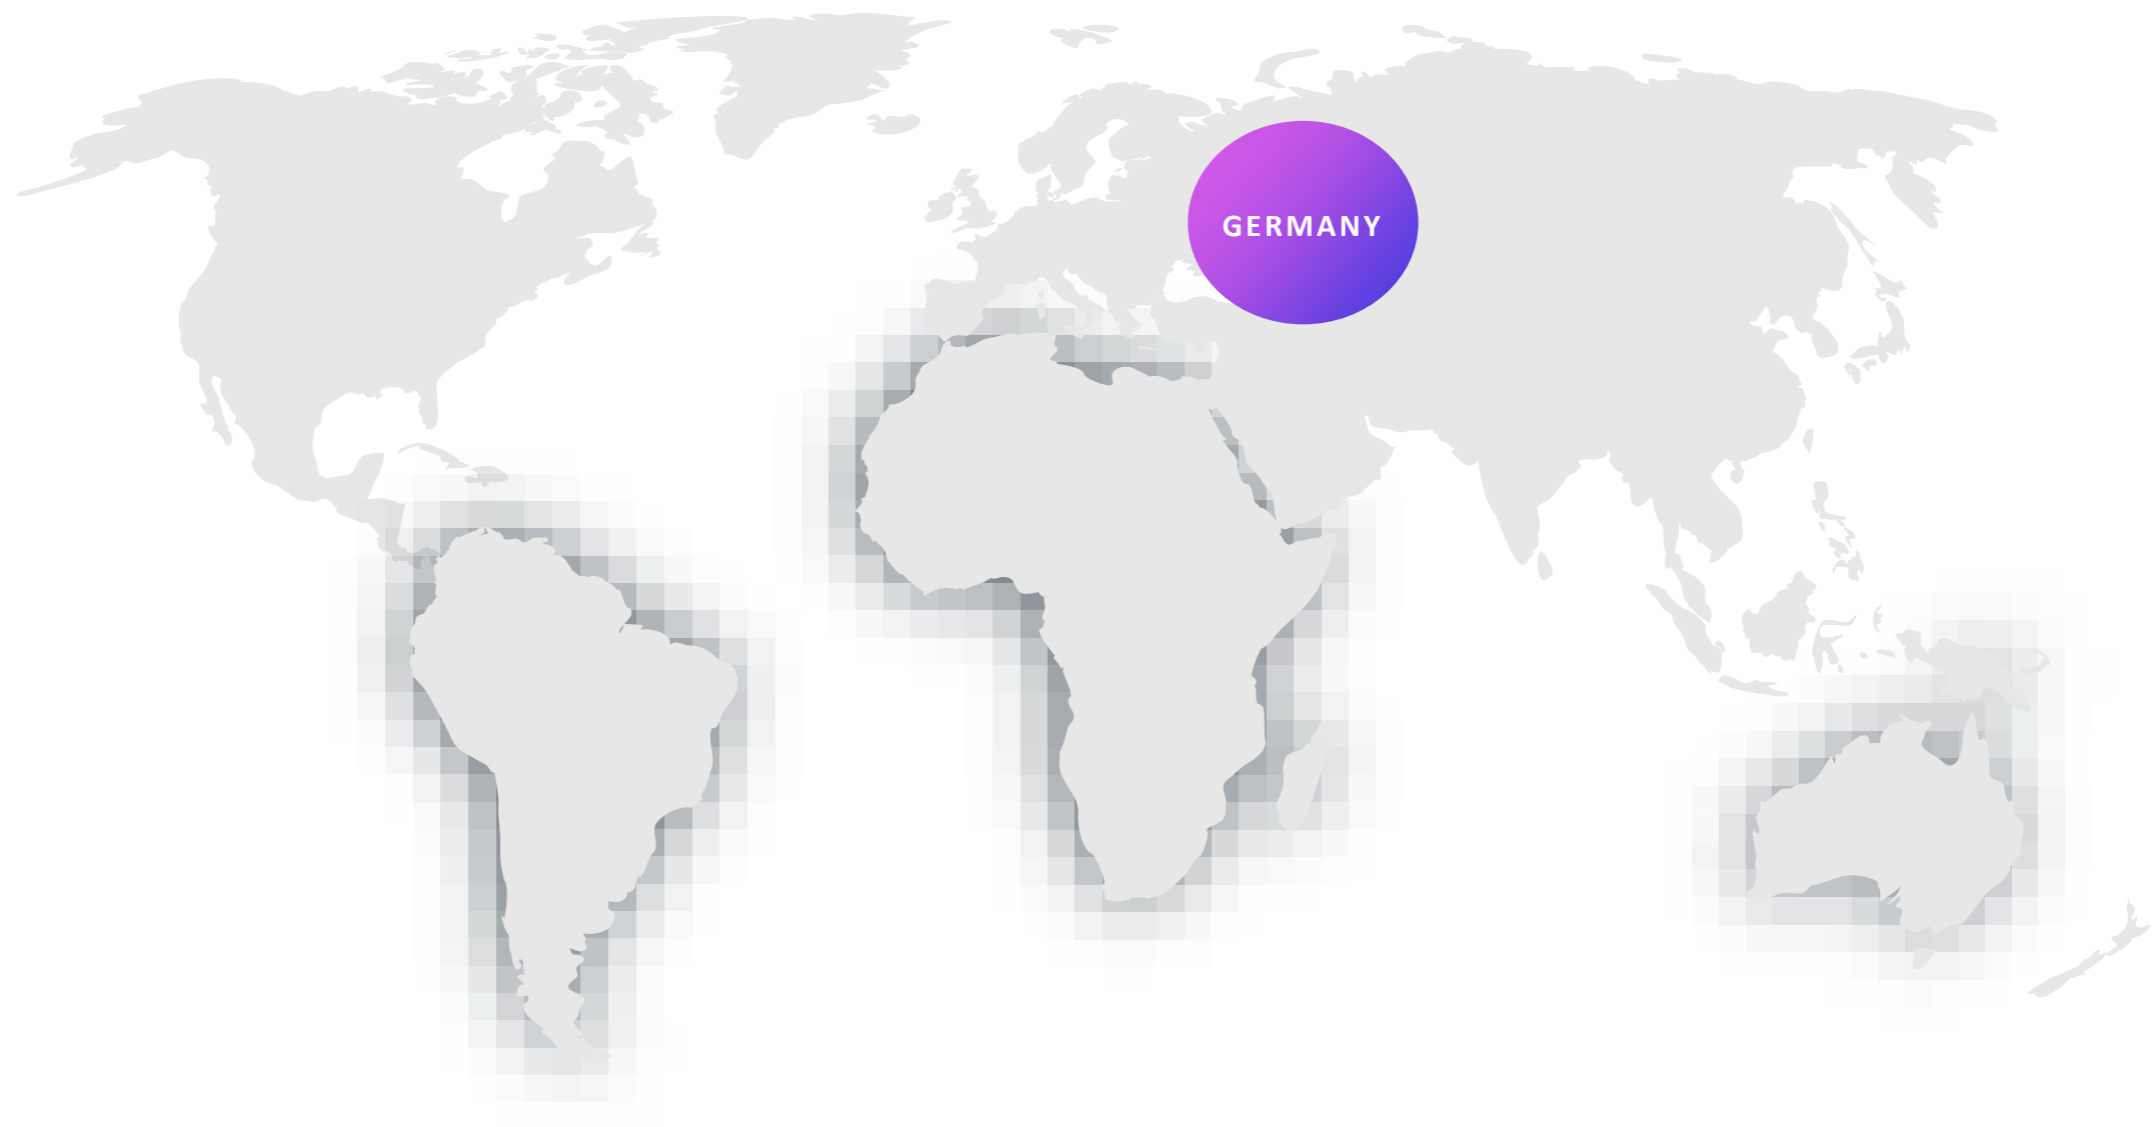

[Click here to view the most up-to-date list of holders](#)

1. [Burn Address](#)– the top token holder was the burn address holding 61.46% of the total supply. These tokens are removed from circulation forever.
2. [PancakeSwap V2: SNAUT](#)– the 2nd largest holder was the PancakeSwap liquidity pool. The pool contained 9.3% of the total supply at the time of audit.
3. [0xa3e072d220590985bd39e0d261c8db65f0fd31d3](#)– the 3rd largest holder was a wallet containing 4.5% of the supply. We have been informed by the team that this is the official marketing wallet.

Location Audit

The team has confirmed that their primary location is Germany.

Team Overview

Shibanaut has stated to Dessert Finance that they are a two person team from Germany, a founder and a developer.

Founder: Experience in marketing, trading and management. Crypto trader for over 7 years, trained insurance broker.

Developer: Working programmer in a large company.

It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
