

## Success Token (SCS)

BEP-20 Audit

Performed at block **10168814**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: **0x9BBD2be9d3d2Dec6C9772aC4b94F66a60627A058**

## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

# Website Part 1 – Overview

[www.successtoken.io](http://www.successtoken.io)

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/23/2021, registration expires 05/23/2022.

*✓ Proof of payment for 2 additional years was sent.*

## Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

## Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

## Website Part 4 (GWS) – General Web Security

### SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: successtoken.io

Issued by: R3

Valid Until: 11/06/2021

### CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

contact@successtoken.io

### SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

# BEP-20 Contract Audit – Common Vulnerabilities

```

* SuccessToken is a project where we will earn BNB per transaction together as an holder. With the BNB reflections
*
* With 38 BNB coin reflections and 28 SCS tokens reflections to our holders.
*
* Website: successToken.io
* Telegram: t.me/SuccessToken
*/
pragma solidity ^0.6.2;

import "./DividendPayingToken.sol";
import "./IterableMapping.sol";

// SPDX-License-Identifier: MIT
/**
 * @dev Collection of functions related to the address type
 */
library Address {
    /**
     * @dev Returns true if 'account' is a contract.
     *
     * [IMPORTANT]
     * It is unsafe to assume that an address for which this function returns
     * false is an externally-owned account (EOA) and not a contract.
     *
     * Among others, 'isContract' will return false for the following
     * types of addresses:
     *
     * - an externally-owned account
     * - a contract in construction
     * - an address where a contract will be created
     * - an address where a contract lived, but was destroyed
     */
    function isContract(address account) internal view returns (bool) {
        // According to EIP-1052, 0x0 is the value returned for not-yet-created accounts
        // and 0x5d2460186f7233c927e7db2dc703c0e500b653ca82273b7bfad8045d85a470 is returned

        // solhint-disable-next-line no-inline-assembly
        assembly {

```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

# Social Media

We were able to locate a variety of Social Media networks for the project including Twitter, Telegram and Discord. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Discord](#)

✓ **At least 3 social media networks were found.**

# Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media channels for the project. Social Media channels included Twitter, Telegram and Discord. All social media channels had a healthy amount of activity.

It is important to note that there is an 20% tax on EVERY transaction including buys and sells. 3% goes to providing liquidity, 3% is to be used for marketing, 1% is sent back to the team, 2% is used for charity and 11% is distributed to the token holders with 2% in Success token and 9% in BNB.

As this is a project with a charity aspect, we would like to see a letter from a charity providing proof of origination of donations or a social media post tagging the project made as an added layer of transparency to let users know that their money is going where it should. At this time we have no reason to suspect any misuse of funds, this is simply suggested best practices for cryptocurrencies with charity aspects.

## Suggestions for Improvement

1. Create plan to receive a donation origination letter from charities that are being donated to or social media post mentioning the project by the charity.
2. Update domain registration to 3+ years
3. Fix SSL forwarding on website

# Top Token Holders

The entire supply was in a few wallets at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

[Click here to view the most up-to-date list of holders](#)

## Success Token Top 100 Token Holders

Source: BscScan.com

## Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

# Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

# Potential Signs of Risk

1 YEAR DOMAIN REGISTRATION

✓ *Fixed*

PROJECT HAS COMMON USE-CASE  
(REFLECT TOKEN W/CHARITY)

*The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.*

# Roadmap

*A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.*

## Quarter 3, 2021

- ✓ The idea of Success Token is born
- ✓ Domain names are reserved
- ✓ €6000,- euro investment is set apart for the project
- ✓ Mods from different regions for Telegram Group
- ✓ Hosting is paid for website with Ddos protection
- ✓ Developer and Web Designers are paid
- ✓ Sticker collection for Telegram is paid
- ✓ Website is live
- ✓ Contract is made on Binance Smart Chain
- ✓ Audit by Dessert Finance is paid
- ☺ Paid marketing start Coinsniper.com, Coinhunt.cc & Reddit
- ☺ Cryptomoonshots trending
- ☺ 17th of August Presale SuccessToken start
- ☺ 18-19th August Launch Success Token
- Marketing possibility for Youtube & Twitter
- Potential first charity donations
- Try to get trending on Dextools
- Aiming for 2500 holders
- Apply to Coingecko.com & Coinmarketcap.com
- Aim for \$ 1M market cap
- Apply for Whitebit & Bitmart
- Strategic marketing & connections
- Ads on BTOK
- Aim for 10 million market cap
- Develop an IOS and Android app for educational games for kids
- Expand team in different timezones
- Do giveaways for holders of SuccessToken

# Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

# Thank You
