## INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity (“Rug Pull”), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

 Our vision is a future with sustainable, equitable and resilient transportation,
 buildings and communities, transforming markets to clean energy requires wide-ranging
 program leadership layered with initiatives that advance individual behaviors.

 Raised funds will go to the development of sustainable energies on low-income communities.

The contract code is verified on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

# Social Media

We were able to locate one Social Media network for the project which was telegram. There is a healthy amount of activity in the telegram. We would like to see additional social networks added in the near future.

# Social and Web – Final Thoughts & Suggestions for Improvement

We were only able to track down one Social Media platform from the main website. We would like to see a bigger social media presence going forward.

It is important to note that there is a 10% tax on **EVERY** transaction including buys and sells. 5% is distributed to the holders and another 5% is added to liquidity. It is also important to note that 10% of the initial supply is set aside for marketing and donations.

As this is a project with a charity aspect, we would like to see a letter from a charity providing proof of origination of donations made as an added layer of transparency to let users know that their money is going where it should. At this time we have no reason to suspect any misuse of funds, this is simply suggested best practices for cryptocurrencies with charity aspects.

## Suggestions for Improvement

1. Consider adding additional social media platforms. ✓ *Fixed*
2. Add an official contact email to the homepage. ✓ *Fixed*
3. Consider getting proof of origination of funds letter from a charity that has been donated to.

# Top Token Holders

At the time of audit, the top holder was the Burn Wallet holding 31.5% of the supply.

Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.
