

TEST_DO_NOT_BUY (TEST)

BEP-20 Audit

Performed at block **7404629**

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0X3FAF7E4FE6A1C30F78CC3A83755E33364BAB77ED

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove liquidity (“Rug Pull”), sell off tokens, or completely exit scam. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Table of Contents

Website Part 1 – Overview

www.donotbuythetoken.com

Website Preview & Mobile Test

Above images are actual snapshots of the current live website of the project.

Website was registered on 05/03/2021, registration expires 05/03/2024.

TEST token is registered for 3 years until 2024 which is the minimum registration length we like to see.

Website Part 2 – Checklist

- ✓ Responsive
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained a few minor JavaScript errors however they are in the poocoin iframe. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the responsive check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

Console check for any severe JavaScript errors came back clean. No issues with loading elements, code, or stylesheets.

Minor JavaScript errors were found as a result of the poocoin iframe.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to:
donotbuythetoken.com

Issued by: Cloudflare

Valid Until: 05/02/2022

CONTACT EMAIL

A valid contact email was not found on the official website. Contact email is listed as shown below:

Contact

Dependency**

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is verified on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate a vast variety of Social Media networks for the project including Twitter, Telegram, YouTube, Discord, and Reddit. All links have been conveniently placed below.

[@TheTESTToken](https://twitter.com/TheTESTToken)

[@theTestToken](https://t.me/theTestToken)

[YouTube](https://www.youtube.com)

[/r/ThisIsTESTTOKEN](https://www.reddit.com/r/ThisIsTESTTOKEN)

[Discord](https://discord.com)

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down multiple social media platforms with a healthy amount of activity on all of them. We found a Twitter, Telegram, Discord, Subreddit, and YouTube channel.

Dessert Finance has been in touch with the team. We were informed that the project started out as a meme which has helped with marketing with minimum cost however the team has been working to further develop the project as momentum and community involvement builds up. Dessert Finance was given access to the Fool's Tools which may be accessed by owning TEST tokens.

It is important to note that there is a 12% tax on EVERY transaction including buys and sells. 9% goes to providing liquidity, and 3% is distributed to the token holders.

Suggestions for Improvement

1. Add contact email to main website ✓ *Fixed*

Top Token Holders

At the time of audit, the top holder was the PancakeSwap liquidity pool – holding 5.32% of the entire TEST token supply.

TEST_DO_NOT_BUY Top 100 Token Holders

Source: BscScan.com

1. [0x995cfc41583cb9ade375f168ec4800fdc9b3ed55](#) – PancakeSwap Liquidity Pool
2. [0xd072027fb1b082f083cb0b2d5fa19f4882950f78](#) – 3.74% of the total supply
3. [0xca17ec0747ae14ed62a63db6f6c022b59a5982c2](#) – 3.70% of the total supply

The top token holders at the time of the audit are shown as above.

Location Audit

Dessert Finance has confirmed the primary project location to be Italy.

Team Overview

Dessert Finance has verified a government issued ID for the CEO. An overview of the entire team is included for your convenience.

ffrappo

Greg A

David Bertucci

Martin Pham

Valerio Capogna

Evan Smith

Adam F

Marco Pezzano

Team Overview

Frappo (Francesco Frapporti) – Accidental Creator

Besides being the hapless creator of the TEST token, Frappo is the CEO of Fornace, an Italian digital marketing agency working with major brands, which he founded 10 years ago. He's also an active developer, designer, uxer, strategist, director, editor, writer, client account, very bad actor and ukulele player/singer, and keeps learning new things as time goes by.

SafeGreg (Greg A) - Creative Director / Head of Story

Greg enjoyed a successful career in Hollywood as an award-winning filmmaker, screenwriter and digital marketing guy. Then Frappo made him join the Test team.

LunchBox (David Bertucci) - Marketing Manager

David has been in the Crypto Scene for over 4 years and has helped to bring many Crypto Start ups to the forefront, most recently as the head of the Admin team for PooCoin.

Ciso (Luca Cisorio) - CFO

Luca is co-founder of Fornace agency and partner in crime with Frappo since day 1. At Fornace, he oversees the P&L and so he does for the TEST token project. Needless to say he's been quite busy lately with all those green candles.

M (Martin Pham) – Full Stack Developer

A guy who loves coding. He meets other crazy guys, and together, they develop random stuff for other guys. Turned out that people love that stuff so much that one of them is now reading this bio.

Team Overview (cont)

Vale (Valerio Capogna) – Frontend Developer

Valerio is a senior frontend developer hailing from the sunny Puglia in the south of Italy. He's in this to buy his dream boat and sail in crystal clear waters. That's why he always says "WEN SCHIFARIEDDU?"

TUKYO (Evan Smith) – VP of Social

He is an artist and so are you! TUKYO is from Fort Worth, TX and currently located in Seattle, WA. TUKYO is VP of Social for Test Token and PooCoin Marketing.

TradeAF (Adam F) – Head of Strategy

Financial & Commercial responsibilities by day, Tokens and Fun at night. TradeAF enjoys Tokenomics, connecting and teamwork. Located in Calgary, Ab, Trade is a contributor to Test Token strategy and PooCoin marketing.

Pez (Marco Pezzano) – Marketing Advisor

Marco is here by accident, being relatively new to crypto. But he's been working in digital marketing for the last 17 years for brands like Coca Cola, Lamborghini, Mars, Carlsberg and many more, so it made sense to have him onboard.

Production support: Fornace

Fornace works for major national and international brands developing digital products such as websites and apps, social media campaigns and video content through their in-house production studio. The other things they do aren't done by accident.

Potential Signs of Risk

1

NO CONTACT EMAIL ON
WEBSITE

✓ *Fixed*

2

PROJECT HAS COMMON USE-CASE
(REFLECT TOKEN)

The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

PROJECT IS RECEPTIVE TO
CRITICISM

2

GOVERNMENT ISSUED ID ON FILE

3

CLEAR TOKENOMICS

4

PROJECT IS INTERESTED IN
FURTHER DEVELOPMENT AND
ADDED UTILITY

5

SSL CERTIFICATE WAS
FOUND AND VALID

6

TRANSPARENT DISCLOSURE OF
BEING A MEME TOKEN (FOR NOW)

The above listed are the top 6 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was not found on the official website, however we are notified that there is further development ongoing and we have been given access to Fool's Tools which is a project of TEST Token. The team is continuously releasing new features.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
