DESSERT FINANCE

Trap Cardz (TRAP)

LIGHT AUDIT

LIGHT AUDIT PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0x941D07C10B3Cf9C8b84e7fa641EB9c6c470f0395

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove **all** liquidity ("Rug Pull"), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Table of Contents

BEP-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on Trap Cardz (TRAP)

Contract Address
0x941D07C10B3Cf9C8b84e7fa641EB9c6c470f0395

TokenTracker
Trap Cardz (TRAP)

Contract Creator
0xc5daad7454e7978e7555d7841e3a4e14639f4d5d

Source Code
Contract Source Code Verified

Contract Name
TrapCardz

Other Settings
default evmVersion, MIT

Compiler Version
v0.8.9+commit.e5eed63a

Optimization Enabled
Yes with 200 runs

Code is truncated to fit the constraints of this document.
The code in its entirety can be viewed here.

The contract code is **verified** on BSCScan.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Result
Integer Overflow	Complete	✓ Low / No Risk
Integer Underflow	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	NOT CHECKED	N/A
Unchecked Call Return Variable	NOT CHECKED	N/A
Use of Deprecated Functions	NOT CHECKED	N/A
Unprotected SELFDESTRUCT Instruction	NOT CHECKED	N/A
State Variable Default Visibility	NOT CHECKED	N/A
Deployer Can Access User Funds	NOT CHECKED	N/A

The contract code is **verified** on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Recommendations

Dessert Finance has performed a "Light Audit" for this project.

The Light Audit is a scaled down version of our full audit reports at an affordable price for projects just getting off the ground but don't have the budget for a full contract & project audit.

We recommend upgrading to our full audit as this audit has been completed using only AI which has not been perfected to properly audit smart contracts.

In the full report our auditors manually review line by line code and scan for vulnerabilities that we have not checked for here as well as give you a full overview of all aspects of the project.

Items covered by our full audits that are NOT covered by this report:

Smart Contract Vulnerabilities:	Token Overview	Javascript Error Check
Exposed _Transfer Function	Mint Function Present	SSL Certificate Check
Transaction-Ordering	Liquidity Locking	Website Overview
Dependency	Contract Ownership	Valid Contact Found
Unchecked Call Return Variable	Contract Transaction Fees	Spam / Malware Check
Use of Deprecated Functions	Website Overview	Social Media Review
Unprotected SELFDESTRUCT	Domain Registration Length Check	Location Audit
Instruction	Mobile Friendliness	Team Overview
State Variable Default Visibility		Roadmap Overview
Deployer Can Access User Funds		

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR TRAP CARDZ (TRAP) 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **DRAFT**
