

UKA DOGE COIN (UDOGE)

BEP-20 Audit Performed at block 18412714

PERFORMED BY DESSERT FINANCE FOR CONTRACT ADDRESS: 0x698111b771363B81D1179AD102e3d8B9cD093a11

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove *all* liquidity ("Rug Pull"), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

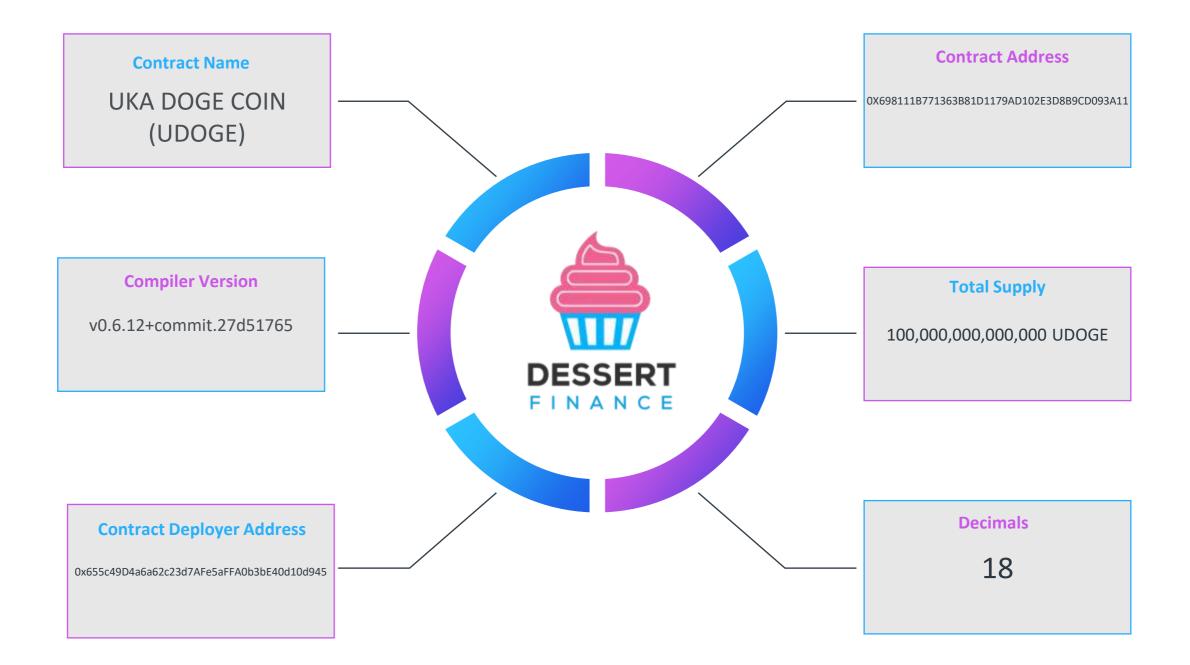

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

Contract Code Audit – Token Overview

BEP-20 Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on UKA DOGE COIN (UDOGE)

Contract Address 0x698111b771363B81D1179AD102e3d8B9cD093a11

TokenTracker UKA DOGE COIN (UDOGE)

Contract Creator 0x655c49d4a6a62c23d7afe5affa0b3be40d10d945

Source Code Contract Source Code Verified

Contract Name Uka

Other Settings Default evmVersion

Compiler Version v0.6.12+commit.27d51765

Optimization Enabled Yes with 200 runs

Code is truncated to fit the constraints of this document. The code in its entirety can be viewed here.

- OVERVIEW

The contract code is **verified** on BSCScan.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	Al Scan	Human Review	Result
Compiler Errors	Complete	Complete	√ Low / No Risk
Outdated Compiler Version	Complete	Complete	√ Low / No Risk
Integer Overflow	Complete	Complete	√ Low / No Risk
Integer Underflow	Complete	Complete	√ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	√ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	√ Low / No Risk
Exposed _Transfer Function	Complete	Complete	√ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	√ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	√ Low / No Risk
Use of Deprecated Functions	Complete	Complete	√ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	√ Low / No Risk
State Variable Default Visibility	Complete	Complete	√ Low Risk
Deployer Can Access User Funds	Complete	Complete	√ Low / No Risk

The contract code is **verified** on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Contract Ownership

Contract Ownership has been renounced at the time of Audit

The contract ownership is currently renounced.

8

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
renounceOwnership		public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
transferOwnership	address newOwner	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
lock	uint256 time	public virtual	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
changeAdvestisementWallets	address wallet	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
changeBurnWallets	address wallet	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeFromReward	address account	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
includeInReward	address account	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
excludeFromFee	address account	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
manageAmmPairs	address pair, bool isAdd	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
includeInFee	address account	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setBurnFee	uint256 fee	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setMaxTxPercent	uint256 maxTxPercent	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
turnOffAntibotMode		public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
setAirdropContract	address _airdropContract	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The functions listed above can be called by the contract owner.

Liquidity Ownership – Locked / Unlocked

10

Contract Code Audit – Mint Functions

This Contract Cannot Mint New UDOGE Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

11

Contract Transaction Fees

At the time of Audit the transaction fees ("tax") listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

UKADOGEPROTOCOL

Uka Doge employs 3 simple functions: Reflection + LP acquisition + Burn in each trade, the transaction is taxed a 12% fee, which is split 3 ways:

• 5% fee = redistributed to all existing holders. Uka Doge token's holders will automatically receive 5% fee from every on-chain transaction that takes place on the Uka Doge ecosystem. This system is designed to reward the \$UDOGE communi-ty for every trade that takes place.

 5% fee = will go towards charities that support people in countries at war, Africa and to help with the future growth of \$UDOGE

2% fee = the remaining 2% will be burned by sending it to a dead wallet which can't be accessed by anyone, this feature will
ensure that \$UDOGE remains deflationary and becomes more scarce over time.

Uka Doge is built in a sustainable way to benefit both holders and project sustainability. It means that just by holding it you will see the number of tokens increasing automatically everyday as the community transacts.

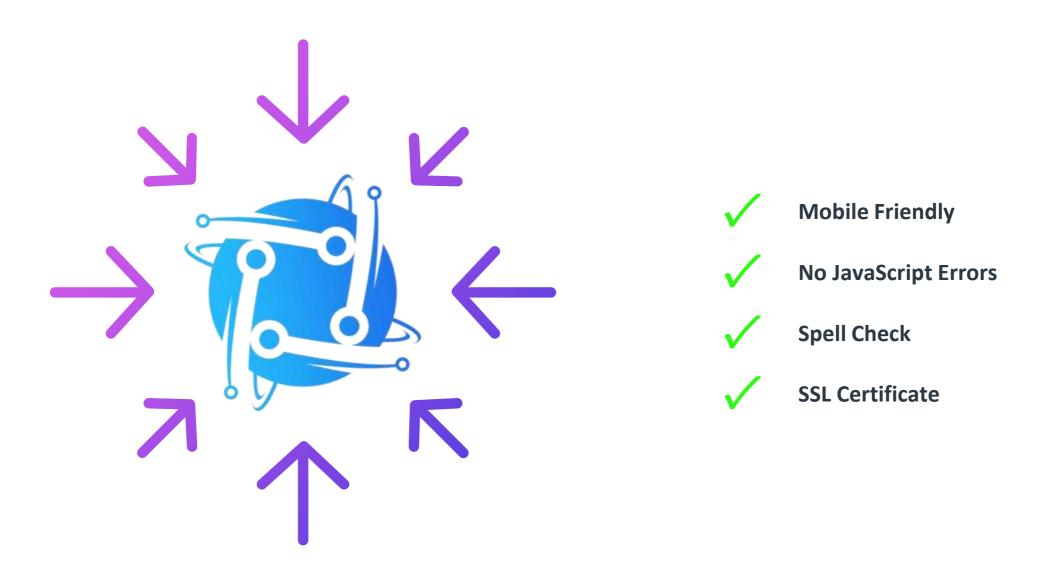

Website Part 1 – Overview www.ukadoge.com

Above images are actual snapshots of the current live website of the project. Website was registered on 03/18/2022, registration expires 03/18/2023. X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

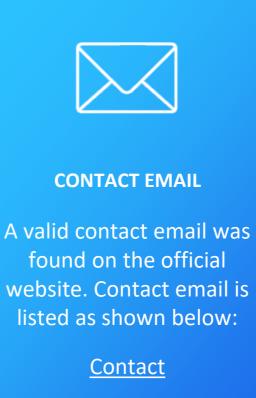

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE A valid SSL certificate was found. Details are as follows:

Offered to: ukadoge.com Issued by: Cloudflare Inc Valid Until: 3/26/2023

contact@ukadoge.com

SPAM / MALWARE / POPUPS No malware found No injected spam found No internal server errors No popups found Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

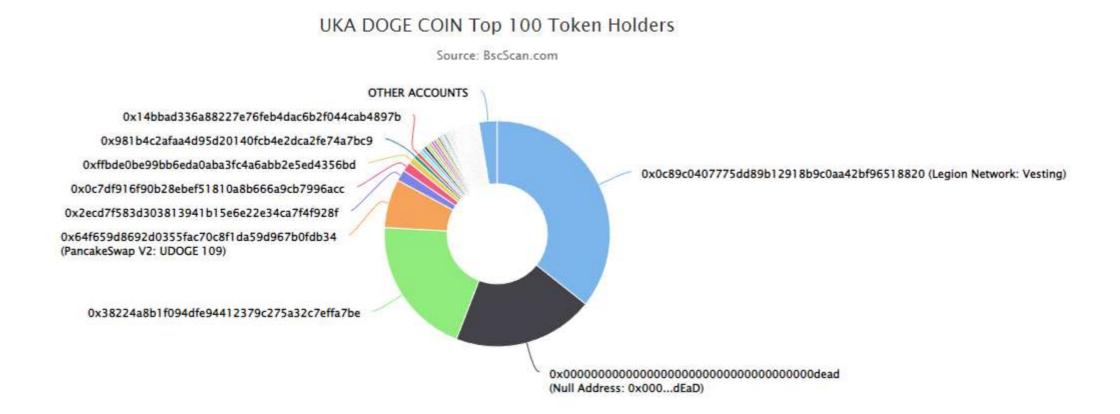

Top Token Holders

The top token holders at the time of the audit are shown below.

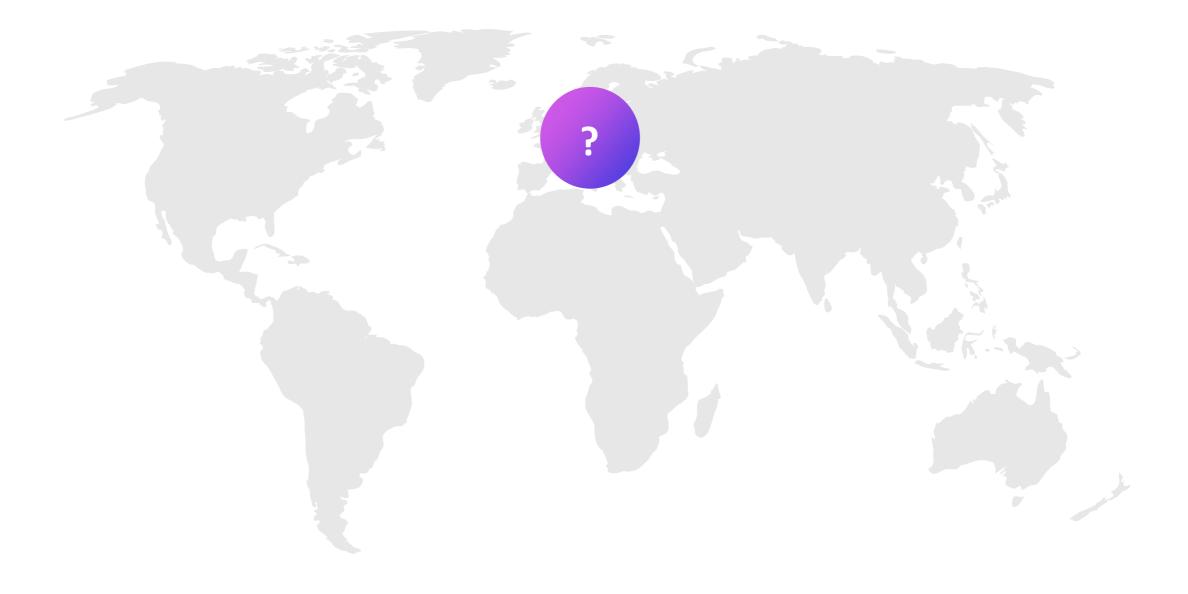

Click here to view the most up-to-date list of holders

Rank	Address	Quantity (Token)	Percentage
1	Legion Network: Vesting	35,702,243,098,327.879268648889197141	35.7022%
2	Null Address: 0x000dEaD	20,187,583,267,304.023035555093577666	20.1876%

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

19

Team Overview

We are unable to find any information about the team on the website at this time. Projects may choose to stay anonymous for a myriad of reasons.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are not intended to provide specific advice or recommendations for any individual or on any specific investment. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
