DESSERT FINANCE

WhiteRabbit (RABBIT)

Avalanche C-Chain Audit

Performed at block **7338363**

PERFORMED BY DESSERT FINANCE

FOR CONTRACT ADDRESS: 0x7a7588415D2C8D5873a6E3ef78C10b0923DcC73B

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove **all** liquidity ("Rug Pull"), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.
Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Avalanche Contract Code Audit – Overview

Dessert Finance was commissioned to perform an audit on White Rabbit ($RABBIT)

Contract Address
0x7a7588415D2C8D5873a6E3ef78C10b0923DcC73B

TokenTracker
WhiteRabbit (RABBIT)

Contract Creator
0x6a07960ea2f0800508e430c70d4090070c000a32

Source Code
Contract Source Code Verified

Contract Name
WhiteRabbit

Other Settings
default evmVersion, MIT

Compiler Version
v0.6.12+commit.27d51765

Optimization Enabled
Yes with 200 runs

Code is truncated to fit the constraints of this document.
The code in its entirety can be viewed here.

The contract code is **verified** on Snowtrace.

Avalance Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version	Complete	Complete	✓ Low / No Risk
Integer Overflow	Complete	Complete	✓ Low / No Risk
Integer Underflow	Complete	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility (x1)	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is **verified** on Snowtrace.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Contract Ownership

Contract Ownership has not been renounced at the time of Audit

The contract ownership is not currently renounced.

We have placed the contract owner address below for your viewing:

0x6a07960ea2f0800508e430c70d4090070c000a32

8

Liquidity Ownership – Locked / Unlocked

No locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information. Locked liquidity information was not provided to us by the team.

Contract Code Audit – Mint Functions

This Contract Cannot Mint New RABBIT Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees ("tax") listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

In order to accomplish the use case explained in greater detail in our whitepaper, the WhiteRabbit token needs to collect taxes. At launch the taxes will be set to a total of 12% on buys, and 15% on sells. The structure of the taxes is broken down as follows:

- Rewards Tax (5% buy; 8% sell)

  - A percentage of every transaction is paid directly to our holders in the form of MEMO, the staked equivalent of TIME. MEMO tokens are intended to be a 1:1 representation of TIME.

  - Thanks to our innovative rewards system, the MEMO tokens you receive for holding WhiteRabbit are automatically deposited into your wallet. No need to claim!

  - In order to see your rewards, you can add the MEMO token (0×136Acd46C134E8269052c62A67042D6bDeDde3C9) to your Metamask, or check the Wonderland staking page.

- Marketing & Development Tax (5% buy; 4% sell)

  - A percentage of every transaction is allocated in order to fund progress towards our marketing and development efforts. This money is used to book influencers, pay our developers, and further fund our epic journey down the rabbit hole!

- Liquidity Tax (2% buy; 3% sell)

  - A percentage of every transaction is automatically converted into AVAX/RABBIT LP, establishing a constantly raising price floor.

  - This tax serves to make trading of the coin more liquid, allowing for traders to not be as badly affected by price impact.

  - In addition, adding liquidity essentially removes tokens out of circulation each time the token is traded, effectively increasing the scarcity of the token which in turn increases its value.

  - As a side-note, liquidity will be fully locked at launch, eliminating the possibility of a rugpull.

Our contract supports asymmetric taxes, which means that taxes for buying differ from taxes for selling. This allows us to dynamically adapt our tax structure in the case of community demand.

Website Part 1 – Overview
www.whiterabbit.money
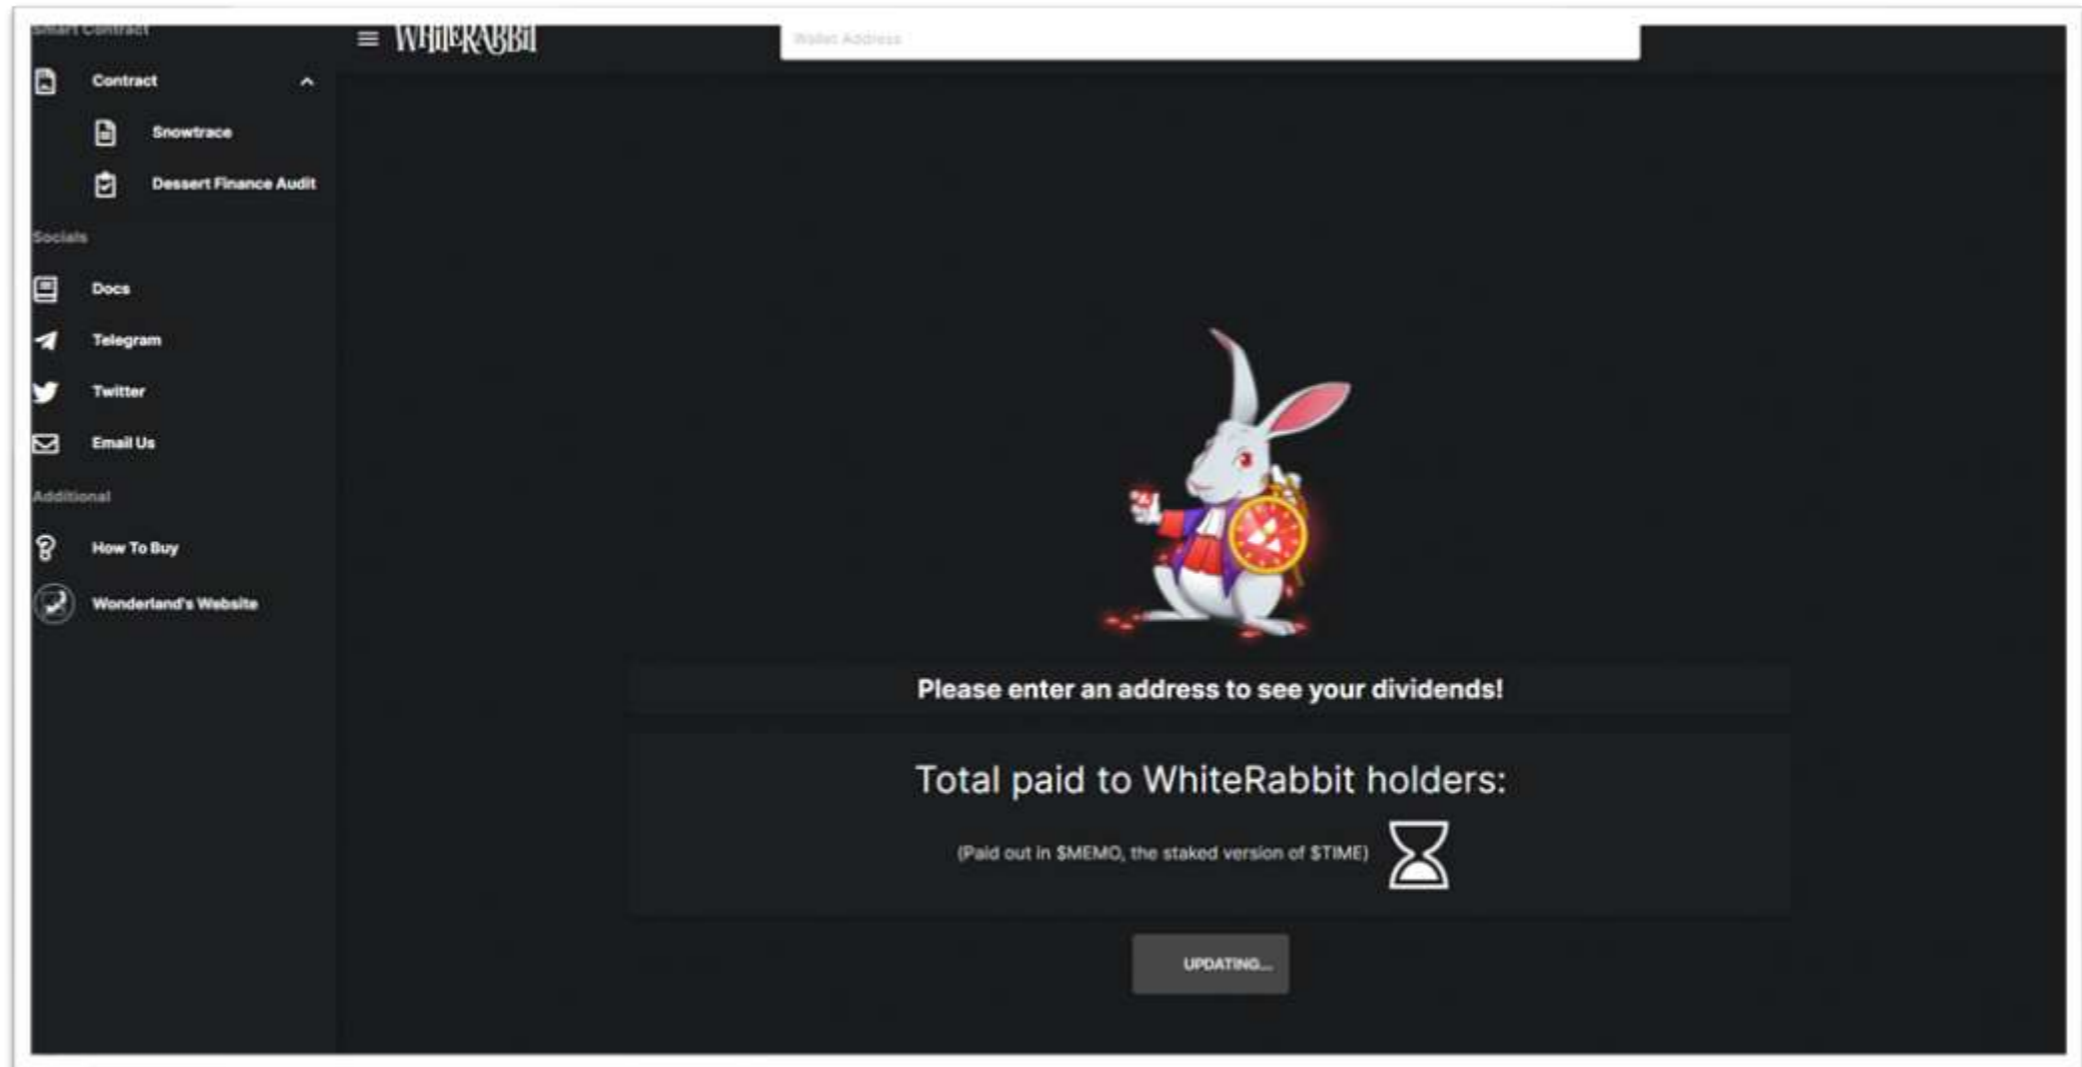

Above images are actual snapshots of the current live website of the project.

Website was registered on 11/18/2021, registration expires 11/18/2022.

✗ This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist
✓ **Mobile Friendly**

✗ **No JavaScript Errors**

✓ **Spell Check**

✓ **SSL Certificate**

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

?

Team Overview

Team information has been found on the website and is shown below.
Dessert Finance has not verified any of the statements made below.

⚒ Team

The WhiteRabbit team is a group of blockchain enthusiasts exploring the possibilities of the Avalanche blockchain. For the time being, our team is anonymous to the general public. However, to secure investor confidence, we plan to fully KYC with our audit providers.

There are currently seven members on the core WhiteRabbit team, with a secondary complementary team we work closely with for tasks such as graphics design, UI/UX design, development, and more.

DISCLAIMER: It is important to note that the WhiteRabbit project is not affiliated with the Wonderland project. Rather, it is intended to be a third-party accessory designed to accentuate the gains received from staking the TIME token.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Roadmap

Q4 2021

- Launch website
- Create social media & communication channels
- Build in-depth library housing all information surrounding the project
- Develop rewards contract on the Avalanche blockchain
- Marketing rollout including booking influencer partnerships
- Work with digital marketing teams to assist in branding and advertisement of WhiteRabbit outside of the crypto space
- Work with press release partners to get exposure on business and news platforms
- Launch the WhiteRabbit token on TraderJoe
- CoinGecko and CoinMarketCap listings
- CEX listings
- Release minimal viable product demos of our launchpad & incubator services

Q1 2022

- Rollout the WhiteRabbit incubator fund to help small teams develop on Avalanche and integrate with the WhiteRabbit launchpad
- Continued development of the WhiteRabbit launchpad platform
- Tier one exchange listing

Q2 2022

- Integration of a decentralized autonomous organization (DAO)
- Integration of staking systems to further maximize reward gains
- Work towards NFT launchpads
- Further exchange partnerships, integration with additional DeFi platforms into the WhiteRabbit ecosystem

Q3 2022

- To be confirmed

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
